Energy says

I have quite a few Sasha O'Hara coloring books (and her planner) and this one is by far my favorite. I love the range of creativity in the sayings and I love the various backgrounds. O'Hara brings the snark we've come to love and raises it up a level. So much fun flipping through this book and am insanely excited to start coloring. The first week's profits get donated to charity (Puppies Behind Bars), so you are getting endless hours of coloring and helping out for a great cause.
