When they found the first shell on the castle, it was funny when the goblin trusted Joy and the girl and went around the other side of the dune to get the ice cream that was supposedly over there. The other girl grabbed the pink twirly shell and Joy put it back in its place. I also liked when they got back and Rosy was so happy her ice cream was back to normal so she sent out free ice cream for the rest of the afternoon. I wish I was there at the time for free ice cream! And then I liked it when they found the next shell that made the wind perfect for doing fun things like a Sailboat regatta that their fathers were racing in. Their fathers won when Joy put it back in place. At the end it was a little bit scary because Joy lost all her power fighting against Jack Frost when they found the last conch shell in Jack Frost's sand castle. This time the girls could come with Joy and see the underwater cave where all the shells belonged. Joy gave them special bubbles (since they were fairy sized) to put on their heads. And they rode seahorses to see the underwater cave. When Joy put it back in place, all the sand came back on the beaches and they got to ride the donkeys. It would have been cool to have experienced this with the girls.

I loved this as a child. Yes I know I am a boy and this should appeal to girls only, but fairies (kind and beautiful on the outside, dark on the inside) always fascinated me. I was a strange kid.

Kimberly says

My six year old loves the Rainbow Magic books. Are they redundant? Definitely. Are they extremely predictable? Yes, yes they are. However, at the end of the day my daughter enjoys them. She laughs uncontrollably about how easy it is to trick the goblins and she is intrigued by all things fairy. I'm just thrilled that she is excited to sit still and listen to me read her a chapter book!

In this edition, Rachel and Kirsty have returned to Rainspell Island in hopes of enjoying a wonderful beach vacation. The island is suppose to be the best places to vacation because it has sandy beaches, wonderful food and is a great places to sail. However, when the girl arrive, they find that the shoreline is covered in pebbles instead of sand, the food taste horrible and there is absolutely no wind for sailing. This can mean only one thing! Jack Frost has interfered once again. He has stolen the Rainspell Shells which magically make the island a favorite vacation spot. A spiral shell makes the food extra tasty, a conch shell controls the wind and waves and a scallop shell ensures that the beach is full of sand and gorgeous shells. The girls must help Joy return the shells back to their under ground cave and save everyone's vacations before they are ruined for good. You encounter plenty of goblins, Jack Frost, a gigantic sand castle and even some animal helpers along the way (Henry the Hermit Crab, Sally the Sand Beetle and Greogory the seagull). It's was the perfect book to read as our summer is nearing an end.

The Rainbow Magic series has enthralled my seven year old for an entire year. We own many many many different books in the series. Sophia insisted I read the two summer publications. The stories are simplistic and easy to get through, aided by helpful illustrations. Two girls, Rachel and Kirsty, transform into fairies and help the fairies solve whatever problems Jack Frost is causing. Reading a series like this is like reading comics. Plot is simplistic. Characters do not change. There are certain "rules to the game." And the reader knows – if she has read one book in the series – approximately how each story will resolve. Repetition that holds so many variables of reading a longer story constant means the emerging reader can concentrate on that which is far harder for her, puzzling out the words.

I had to read this to my little sisters. They are ages 7, 5, and 4 and that's around the targeted age group for these books. I thought it was going to be very bad, like most little kid books. Boy, was I wrong. This book was amazing! It stayed true to the plot and their were no confusions whatsoever. It was really realistic when Joy fainted and it gave Isabelle shivers. I'm twelve years old and I was surprised at this too.

There's some thrill and action. Which makes this suspenseful. And Jack Frost will get them back.

All in All, good! It's great to read with younger kids, and good book for girls under age 9.

Love,

Regina, Isabelle, Lillian, and Rosie

Just writing to say that I read Summer the Holiday Fairy, as opposed to the newly named Joy the holiday fun fairy or whatever. ☺

Ariana says

It was very good. The thing I liked the most was it was about summer vacation. It made me wish that I can

do whatever I want in the summer. I wish that it was happening right now. The book made me feel like it was summer that instant but it was fall. I was very happy to get to the book because I already have like 95 books in my shelf. I felt like I was in a dream with everything in the book was happening. I like the goblins a lot in this story they are always funny.

5 Star

That was so good

Penny McGill says

Well, if you've read one Rainbow Magic book you have read them all, right? But I'm not sure this is a bad thing. I've seen so many kids love these books and flip through the catalogue at work to find the special one they need. I think any series that brings this much happiness to kids and encourages them to read and talk about their reading is great. In our own two girls reading lives we have accumulated over 50 of these little darling books and in some cases we actually have duplicates because they were both willing to spend their allowance on it. I picked Joy the Summer Vacation Fairy to note because it is one of the larger - special edition - Rainbow Fairy books and it does lend a special summertime flair to Kirsty and Rachel's adventure. Jack Frost and the goblins are still there causing mischief but the background is the seaside and there are shells and all number of beautiful things going on. If you can avoid reading them, from a parent's perspective, that is a good thing but if you are trying to draw in a reluctant reader this is the way to go!

This is a fun three stories-in-one book about a summer vacation fairy. It's part of the Rainbow Magic series by the group of authors who go by the name Daisy Meadows. It's a fun series, especially for young girls who are starting to read chapter books. Our oldest is addicted and will often read several of these stories in one day! This is an entertaining story, broken up into three separate "books" and young girls will love it.

I have read so many of these books that I must admit I've become immune to their silliness. I love that I can read them after she does and discuss the plots and her thoughts about the story and about what will happen next in the series. We will certainly read more of these books as long as they are still being written. I will always be thankful that this is one series that helped her to develop a love for reading!

Abigail says

I like this book because it has summer vacation, sea shells and it is related to the beach.

Jamila says

When I was an early reader, I liked this book, but now I think it is too simple and unrealistic. I started reading this series when I was about seven. I find the book unrealistic because the characters always agree with each other and at the end of each of the books in the series it always ends too perfectly.

the British version of the book is called 'Summer the holiday fairy.' and I find that confusing because the American version is called 'Joy the summer vacation fairy.'

Rhyme Owens says

I really liked this book because it was 3 books in to 1 my favorite one was the last one.

(My overall review for the rainbow magic series)

These books were so magical to me as a child. They really got me into reading and I was so addicted. They helped me learn the colours of the rainbow and entertained me for several years. The books aren't very good. I've tried reading them again because I was interested in what I saw in them. The books are very similar and repetitive but to child version of me, they were completely perfect!
