## **Maggie Goes Medieval** Kate Danley

Just when things couldn't get worse, the fate of the world depends upon surviving a Renaissance Festival. Maggie and Killian will be trading more barbs than an historically inaccurate iron maiden.

WARNING: This story contains cussing, brawling, and unladylike behavior. Proceed with caution.

### **Harry says**

may be the best one yet

---

### **Jenette says**

If you're looking for another Maggie MacKay book that features silliness, wise cracks, violence and a little mayhem then this is the book for you. If however, you were hoping for a resolution to that horror of a cliff hanger from book 7 then look somewhere else. Maggie and Killian are as fun as ever, dropping jokes and smartass remarks throughout the whole book. There just aren't enough answers going around. Sure there are some answers but they're to questions I could have gone longer without being answered. Strangely, for the first time, Maggie and Killian's ability to blithely ignore everything that is actually going on in their personal lives and shove it aside with jokes doesn't work in this book. Its getting old and I just want them to figure some stuff out and then deal with the world ending.

Is that too much to ask from the next book?

#### **Another hit!**

This was the best one yet! Maggie has one heck of a ride. My only problem with the book..it's done. I will be eagerly awaiting the next one. Highly recommend this series..Start with the 1st...you won't be disappointed

---

### **Krystal Butler says**

This book was everything i expected and more! I love this series more than i can put into words. I would recommend this entire series it's hilarious, action packed, and an all around amazing read. Definitely a page turner.

---

### **Meredith Kaupp says**

Just can't get into this one.

---

### **Pernille Olsen says**

I loooooove Maggie and her team. Xioming is hillarious. I keep thinking that it can't get any better. But it just keep getting better book by book. I hope Kate Danley has lots more stories to tell, and I can't wait for the next one

---

### **Cheryl says**

Kate Danley has written another excellent Maggie book! I loved it! There is plenty of action, mystery and humor. Kate and Killian plus her Mom, Father Killarney and Xiaoming are off to rescue her dad who from the previous book is now a marble statue. We know that easy is not in her vocabulary but interesting is . You will encounter some old characters as well a some new one plus an interesting setting. Enjoy the story and I look forward to the next book!

---

### **Debbie says**

Better than the last.

---

### **Siobhan Henn says**

Woo - The M-Team are my favourite when they're all together. Loved having both Graham & Lucifer in this one and any time there is plenty of Xiaoming & Father Killarney I'm a happy bunny - gotta see some progress on Maggie & Killian soon... the will they/won't they is busting my chops!

### **J.c. says**

#### **Great book**

Love this series. Great addition with this latest book. Really enjoy the humor and characters. Can't wait for the next one.

---

### **Sara says**

#### **Really enjoyed**

This series just keeps getting better and better. I love Maggie, her character cracks me up. I can't wait to read the next one!

### **Ted Camer says**

## **Great**

Another great book in this great series. I haven't read a book that I haven't liked yet. Keep em coming.

---

## **Jackie Skotnik says**

Still a great series, and I enjoyed the plot development especially in terms of the series as a whole. I did feel that this book was a bit rushed. Aside from glaring editing mistakes, there was a startling lack of exposition. I'm not big on exposition. When a book starts dragging on and on because of description, I start skimming looking for dialogue to move things along. There were times in this book where it was like they were talking in a void. I don't need big descriptive paragraphs, but a little more detail in this book wouldn't have hurt.

### **Maggie Goes Medieval (Maggie MacKay Magical Tracker Book 8)**

Another great addition to the Maggie MacKay book series!!! The Elf Queen is alive and well and plans to marry Killian. He wants nothing to do with that, so he and Maggie come up with an honest request, a one final mission, as why to put off the wedding! Maggie needs to find her Dad who has been turned into a statue, as well as said statue has been stolen. The story line involves Killian and Maggie running into all sorts of trouble in the Other World and on Earth. Once again we have Father Killarney and Xiaoming helping out in so many different ways. It actually gets pretty scary at one point in the story, where both men's lives are in serious peril. Lucifer the hell horse makes a few appearances and helps save their bacon from the fire, or sort of. There are twists and turns in the story and shocking revelations about who is behind all the trouble. They also discover that Graham isn't what they thought he was either!! The humor is once again out right hilarious throughout, especially the scene where Maggie and Killian are in a "bar" in WeHo. There are dragons, giants, nymphs, an ogre, fairies, castles, a medieval fair and a crazy King. Maggie's Mom gets a important part using her seer abilities, which I really enjoyed. Overall a great read and a surprising ending, making the next book a cant wait to see what Maggie and Killian are up to next!
