Rodeo Sheriff Mary Sullivan **HE'S CALLING IN BACKUP**

As the law in Rodeo, Montana, Sheriff Cole Payette can handle just about anything. Taking in his orphaned niece and nephew, though, puts him out of his depth. Grief-stricken himself, Cole turns to bar owner Honey Armstrong. Cole's longtime crush on Honey has always made him tongue-tied, but now she's the only one he can ask for help.

Honey is shocked by Cole's request. He rarely says two words to her and now he needs her to help care for the children? She's willing to pitch in, but bonding with the kids starts to feel a lot like being a family. And that's not something Honey has ever let herself dream about—no matter how tempting Cole is...

Jo-Ann Elizabeth Toth says

I like this author. This story is a powerful book. It has 2 different sides to it. The first thing you see is the grief in sheriff Cole Payette. He loved his sister Sandy deeply and losing her has been hard. Becoming a parent to Maddy and Evan he turns to the person that matters to him, Honey Armstrong. In this story you see him struggle with his grief and his love for Honey. You also get to meet friends from previous stories again and that is my favourite thing. I love Tory. She is like a young child who can draw out Maddy. In this story you get a glimpse of his past that made him the man he is. What caused him to have the fears he has. Then there is Honey. She is a responsible person and who loves kids. She has a side that draws kids and she can be a kid herself. This story will keep you turning the pages til the end and rooting for Honey to break thru Sheriff Cole's walls.
