This book in the series always used to make me so sad. The fact that Twilight became ill frightened me because when I first read the book I thought that he was going to die. Thankfully, though, he didn't, and I learnt to love the story as much as all of the others. Linda Chapman is amazing. <3

Lauren tries to help people but Twilight gets ill, and she has to try helping others to make him better. I like the helping message.

Das fünfte Abenteuer von Laura und Sternenschweif bringt tiefe Erkenntnis: Magie ist ein mächtiges Instrument, das aber bewusst eingesetzt werden soll. Außerdem muss jeder Mensch lernen, mit seinen eigenen Alltagssorgen zurechtzukommen.

Ich lese die Sternenschweif-Bücher ziemlich gerne. Vor allem dann, wenn die ganze Welt zu viel wird und ich nur noch meine Ruhe haben möchte. Dann lesen sich diese Bücher so schön einfach weg und schlussendlich wird alles irgendwie gut.

Laura ist eine sympathische Heldin, die auch mal ihre eigenen Fehler zugeben kann. So schaffen die Bücher Grundlagen, dafür, dass die jungen Leser etwas über das Leben erfahren, ohne dass gleich mit dem erhobenen Finger gewackelt wird.

My favourite part was when Max was safe after being near a big gorge and almost falling in all the way. The worst part was when Max went missing and no one could find him until Buddy did. My favourite character was Lauren because she found the others that could rescue Max after Buddy showed Lauren where Max was. There was no worst character because the worst part was caused by a pretty good character in the story.

Great books read this when i was really young still have the books planning on reading it again great to get young children into reading! Although I probably won't be as interested as I was when I was seven but we will see, if not I will happily offer them to my sister.

Chronicles of Han Storm Book Club Read (Children's Books)

This was a nice story but not suitable for very sensitive readers. Sometimes children just want the magic without the reality.

For our fairy-loving second grader, this book was a bit of a challenge. Her *Rainbow Magic* fairy stories by Daisy Meadows usually have about 80 to 90 pages, whereas this book has a whopping 122 pages! Our oldest wasn't so sure she could read this book quickly, but I encouraged her to break away from her "fairy-only" mold. And she read it in about 3 days of reading and I think she was impressed at her ability to read longer stories.

The story itself was good - nothing too impressive, but engaging and entertaining for elementary school age children (probably more for girls). We will be sure to read more books in this series, and I'm glad that our oldest is expanding her tastes, if only a little bit.

I read two books in one, Starlight Surprise and Stronger Than Magic. Be careful as it seems different books get combined in different countries.

A girl who loves ponies has managed to get a grey pony which can turn into a unicorn. She has to keep this secret and the unicorn can fly and do various magic as well as talking , though not while he is a pony. I enjoyed other books in this series more because there was more about pony care. These books are mostly about flying around and trying to help other kids, while sometimes getting it wrong.

We could take the message of Stronger Than Magic to be that it's not always good to eavesdrop, even with good intentions, and that any pony should not be overworked.

Starlight Surprise deals with a spooky tree house and school bullies.

Best for readers who are girls under ten.
