A complete story, brought to you by Rochelle Williams of African American Club.

Growing up together, Eva has secretly been in love with Andrew her whole life.

Unfortunately, Andrew has been so busy using his billions to jet-set across the world and sleep with as many women as possible, he hasn't had a chance to notice Eva's feelings.

But things are about to change.

A stipulation in Andrew's dad's will states that if he wants to inherit his father's company, he has to wed and have a baby with Eva.

With things being a bit rocky between the two, will Eva agree to the plan?

Or will Andrew have to watch his dreams and bills get buried with his father?

Find out in this passionate marriage and pregnancy romance by popular author Rochelle Williams.

Suitable for over 18s only due to steamy sex scenes between a billionaire and his Nubian queen.

#### **Decent read**

The overall story line was okay yet hard to fathom in this day and age. I felt it needed more character development for Eva, but I did like the way Andrews character progressed. The over use of the word huskily was annoying. Please find some other descriptors.

#### **Finally Mine**

I really enjoyed reading this book, the plot to me was awesome. I loved how Andrew tried to do everything to make up for his mistreatment of Eva. He finally found himself, found out that he could run the company, & most of all he finally learned about real love.

#### **Great Read**

Best arranged marriage i ever read. They forgave each other without much conflict. Love was able to reign in their lives so they married quickly. I totally enjoyed it. Did not put it down.

#### **Good start**

Over all I liked the story. I never realized how much contractions affect a story. I would have enjoyed it more if more contractions had been used. It would have felt less stilted and I wouldn't have kept rearranging the verbiage in my head. It had a way of taking me out of the tale for a moment until I re-read it in a way that felt more like natural speech. A good edit would make this a solid read.

#### **Eva and Playa Andrew 's Love Tryst 2.75\*\*\*\*\* Spoiler**

Forlorned, bibliophile Eva, pining for entitled, playboy billionaire's love and attention from childhood, becomes part of Andrew's father's, Blake's, will and a stipulation for him to become CEO of the company. Eva, now grown up, and a beautiful librarian, has to move forward and forgive Andrew for his past dismissive attitude towards her. While Andrew quickly realising that she is his soul mate, the person he was searching for during his wild 'playa' days must try to convince her that he has changed and truly loves her. Yes, they live HEA as she bore him a son, sealing his fate as the company's CEO.

With uni-dimensional characters, especially the shallow main character, Andrew, this novel falls flat despite the HEA ending as Blake predicted and mandated by his will. There are too many descriptions of what the people are wearing that were irrelevant to the story, or repeated phrases describing her 'luscious curves' and skin color, that only portrayed Andrew as a horny teenager and not a mature man in love with his soul mate. Eva's lack of a backbone throughout was unbelievable as Andrew's ability to run a billion dollar company, without putting in any time at his father's side to 'learn the ropes'. Now let's not forget the elephant in the room, 'having unprotected intercourse'! Andrew, not having a second thought about donning a condom, made me realized that it was normal for him in this age of AIDS and other STIs(Sexually Transmitted Infections). He, as far as we know and can assume since the author was bent on telling the reader every inconsequential detail, did not have an STI exam done on himself before engaging with sexual relations with Eva. Furthermore he did not tell Eva, the woman he professed to love, that she should go to her GYN for a STI evaluation. This would have at least convinced me that he is maturing.

The novel's theme of forgiving the past to enjoy the present is well noted. But, in this case if I were Eva, I would not forget his past lifestyle as it could be detrimental. Read at ones own risk.

#### **A Family Affair**

Eva and Andrew's romance was a feel good make you smile kind of story. Their intimacies were sizzling yet not offensive. The family involvement was understandable and necessary to making this the great story that it was. In addition, this sharing was a good lesson in learning how to let go of the past. This is really good story by another super creative storyteller.

#### **Good read**

Good read and storyline. I enjoyed the characters. Andrew and Eva were a nice couple. I recommend this book. Enjoy.

### **Kind of nice**

The billionaire books sometimes get kind of annoying. This book was much better than a few I've read. The story was believable. At least the billionaires was AA, and the woman involved was AA as well. This story the billionaire had to have a baby with a girl from his past to claim his fortune. They quickly got pregnant and in love in the same quick timeframe. The story was nice, only some grammar issues a few times marred the story a bit. Otherwise, a decent read.

### **Good story, has potential to be great**

The bare bones of this story is good. I won't ruin it by telling the story here with spoilers. Eva grew up up pining after Andrew only to be ignored and when the opportunity comes along for the tables to be switched Eva acts like any woman in her position. I would have liked to see this story be a little more developed. I would recommend this to someone looking for a quick romance novel.

### **A warming love story**

The book was a great read. I enjoyed how she kept him in check by not giving into his seductive charm.

## **Althea Johnson says**

### **Choppy writing**

The book was a quick read, but the writing seemed a little disjointed. Good plot, weird ending, but overall a nice fast read.
