This collection includes:

Ambush at Corellia

A trade summit on Corellia brings Han Solo back to the home world he left many years before. Arriving on the distant planet with Leia, their children and Chewbacca, Han finds Corellia overrun with agents of the New Republic Intelligence and finds himself part of a deceptive plan whose aim not even he understands. One thing is clear: the five inhabited worlds of the sector are on the brink of civil war and the once peaceful coexistence of the three leading races -- human, Selonian, and Drallan -- has come to an end.

Assault at Selonia

Imprisoned on the planet Corellia, Han Solo finds himself at the mercy of his evil cousin, Thracken Sal-Solo. Thracken plans to restore the Imperial system and seize total power -- no matter what the cost. Han has one chance to stop him. But to do so he must turn his back on his human cousin and join forces with a female alien. Dracmus was arrested as a ringleader in a plot against the corrupt Human League. Now she and Han will attempt a daring escape to Selonia in time to warn Leia, Luke Skywalker, and Lando of Thracken's plan. But can Han trust the alien to keep her word?

Meanwhile, other questions threaten the New Republic -- and the lives of millions. Who is behind the deadly Starbuster plot? Why is someone attempting to take possession of Corellia's powerful planetary repulsors? And what is the secret behind the mysterious Centerpoint Station, an ancient, artificial world of unknown origin that has suddenly -- and inexplicably -- come alive?

Showdown at Centerpoint

When a loyalist ship approaching Selonia is blasted out of space, Han Solo quickly realizes that rebel forces are turning planetary repulsors into weapons of immense destruction. Meanwhile, Luke Skywalker and Lando Calrissian manage to discover the terrifying secret of Centerpoint Station. It is the infamous Starbuster itself, and its next programmed nova, hard-wired in, is set to annihilate a chosen star, its inhabited worlds, and millions of innocent lives. There's only one way to stop it: blow up the station. But as a massive rebel fleet closes in on Centerpoint, Han, Luke and their friends will discover time is running out.

Then the true leaders of the rebellion reveal their identities, and issue their final ultimatum: The New Republic must withdraw all claim to power over the entire Corellian sector. With the future of Corellian freedom at stake, Han and those loyal to the Republic must somehow resist. But how can they possibly stop the deadliest weapon the galaxy has ever known?

Kris Olsen says

This series was ok, nit my favorite. It was not as gripping as some of the expanded universe novels have been in the past.

Troisième livre de ma commande du mois d'avril cette année là. Après voir lu The New Rebellion je me sentait prêt à lire une trilogy. J'avais le choix entre 2 et j'ai choisi celle là (pour ceux qui sont analytique j'avais fait d'autre commande après et j'avais une autre batch de roman de Star Wars). La gaffe mesdames et messieurs. Comme l'internet n'était pas encore très au point dans ce temps là, il était difficile de lire les critiques sur les site de fans. Avoir su je ne me l'aurait même pas procuré.

Ce livre est juste mauvais, il ne sonne pas comme Star Wars, l'histoire fit pas dans le cadre auquel je suis habituer et je crois que c'est même pire que Crystal Star. Pourquoi pire, Crystal Star ne m'a pas décourager de lire des roman de Star Wars.

La Corellian Trilogy commence mal, avance mal et (au dire de personne plus hardie que moi) fini mal. Pourquoi plus hardi, he bien je n'ai même pas eu le coeur de finir le deuxième livre. Il m'arrive très peu souvent d'abandonner un livre car je veux le finir au cas où le final sauverait le temps que j'ai perdu. He bien cette trilogy m'a fait abdiquer.

En plus de me faire abdiquer, elle m'a fait arrêter de lire des Star Wars novels. Depuis cette abération j'ai arrêté de lire tout roman de l'univers de Star Wars. En fait ça m'avait même arrêté de lire des romans. J'ai passé quasiment 2 ans à lire que des Comic Book Américains et rien d'autre.

Donc, pour cette critique je me contenterai de vous dire d'éviter de vous embarquer dans cette perte de temps magistrale qui ne fait même pas avancer l'Expanded Universe. Je ne vous résume même pas l'histoire de peur de vous donner envie.

Passez tout droit et prenez la prochaine sortie.

P.S.: Après 14 ans d'arrêt de lecture je crois qu'en 2012 je vais m'attaquer à trois autres trilogy de Star Wars. La Han Solo Trilogy, La Bounty Hunter War et la Trilogy Originale en anglais car je n'ai jamais pu lire Empire Strike Back. Surveillez mes critiques et vous verrai peut-être revenir des livre de Star Wars dans les années proches.

This book is about the Solo family vacation to the Corellian sector; Han Solo's home star system.

the story was quite good and was the first I have read that included the Solo children.

After the initial slowness, the story became more exciting and had more action as I read about a third of the way into the book.

I'd recommend this book to any Star Wars lover.

Tony Russo says

This is an excellent, but old, collection of Star Wars adventure. The stories take place during the New Republic era (at least the Bantam Books era) and encompass Han Solo's adventures in his old star system of origin. There are some decent battles and a lot of fun between Han and Leia here.

Arlene Kellas says

I forgot how much I enjoyed these

books until re-reading them. Han, Leia. Luke. Lando, the twin, Anakin, Mara. Just fun all the way thru!!

Ambush at Corellia: A trade conference on Corellia. A chance to reopen up trade in the Corellian sector. Also a chance for Han, Leia, Chewie and the kids to take a family vacation to spend time on Corellia before the conference. If only it could be that easy.

Before they leave Coruscant Han is asked to be suspicious, be himself. NRI is having issues getting agents in and they hope that will help.

The family is fake attacked on the approach. The NRI agent is shot down on approach. The New Republic governor has his hands full. The humans, Dralls and Selonians aren't getting along when they have for centuries. The kids find an odd machine buried deep in the ground while at an excavation site.

Meanwhile, Lando and Luke are off in search of a rich woman for Lando to marry before meeting up with everyone at the Trade Conference.

When all Hell breaks loose, Chewie takes the kids and the Falcon out of harms way, Han is off to meet his cousin who has just taken control of the sector and renounced the New Republic, Leia is left to try and sort everything out while Luke and Lando head for Coruscant and help.

Assault at Selonia: book two of this trilogy takes us right back to the action. Our heroes are spread out. After reporting back to Coruscant To only Akbar and Mon Mothma, Luke, Lando are sent to Bakura. The New Republic can't get a task force together to send into Corellia, but the Bakurans can. And Luke know Gaerial and that could help.

Han and the Selonian Dracmas are rescued from the Human League. Using the tunnels under Corellia they eventually head off planet towards Selonia.

Leia and Mara escape from Corona House and also head to Selonia since they can't agree on anywhere else. The kids and Chewie are safe on Drall. However they find a similar archeological dig with the same hidden device. While they try to figure out what it is and how it works the others are all heading to a battle point. But why Selonia??

Showdown at Centerpoint is the finale of the trilogy. Centerpoint Station is a huge Station that sits between the double worlds of Talus and Tralus at the barycenter. It turns out this Station is the key. The key to the exploding stars, the repulsors that have been found on Corellia, Selonia and Drall. Anakin discovers how to

work the Drall repulsor. But him, the twins and Chewie are taken hostage by Thracken Sal Solo. He shuts down the interdiction field and enables the comma to give Leia an ultimatum. Meanwhile Leia, Han and Mara are “guests” of the Selonians while they work to gain control of the repulsor from the Triad Selonians from Saccoria. The Saccorian fleet head to Centerpoint to meet in battle against the Bakurans. But can their 3 battleships win the day? Can the repulsors be brought under control so that the next blast from the Star buster won't kill another system?

Thom Willis says

This trilogy is perhaps one of the most under-rated sets of books from the New Republic era of the Star Wars expanded universe. The action is consistent, the characters aren't annoying, and the stakes aren't astronomically high. I'll take this over that newfangled Legacy era garbage any day.

Gabriel Hughes says

This book is about Han and Leia and their family taking a vacation to Corellia, where their peace is disrupted by Han's cousin and his devious plots. It's nothing special, but I enjoyed it for two main reasons: 1) We get to see our favorite Star Wars characters in a situation that, while still threatening, doesn't have the fate of the galaxy hanging in the balance, and 2) we get to meet some new characters that play important roles in future Star Wars books.

The book felt a bit long, and the writing wasn't as skilled as other Star Wars books I have read. If you like Star Wars and you a) want to see a little bit of Jacen, Jaina and Anakin's personalities when they were young, or b) would like to learn more about the events surrounding Centerpoint Station's rise to galactic prominence then I recommend this book. If you're not in either of those categories, you're not missing much.

Raully says

Duncan wonders when someone from the movies is finally going to die.

I liked it enough that I felt it was a strong candidate for a couple new movies. Of course, that was more than

decade ago.
