## **When Love Is Stronger Than Pride: Tarai & Jahan** Natisha Raynor

Tarai Hart is a triplet, and she always took pride in being the carefree, confident, eccentric, and bold one. No one was surprised when she ventured to Atlanta to get her butt done, and no one was too shocked when she became a stripper. Tarai's signature looks included weave hanging down to her behind and long, coffin shaped nails. Two things Tarai didn't have time for were children and love. In fact, all a man could do for her was grease her palms with cash or buy her lavish gifts. Tarai was happy and set in her ways until a night of what was supposed to just be dancing for an NBA star turned into rape.

In the blink of an eye, Tarai becomes a totally different person. Her moods change with the wind, and she begins to drink more than she should in an effort to numb her pain. Tarai isn't happy, but she continues to dance, drink, and use men hoping that one day she will wake up and that will be the day that she no longer hates herself. Tarai has no idea that a chance meeting with a rude stranger will change her life forever. After going to the ER and receiving some devastating news, Tarai finds herself fighting for her life. A person that once wanted to die, begins to find every reason to live. ?

Jahan Haqq isn't like most men his age. He doesn't live to party or flex in the clubs, and he doesn't need a different woman in his bed every night to feed his ego. Jahan has never sold dope, rarely breaks the law, and he's self-made. Watching his mother drink herself to death is the number one reason that Jahan wants no part of a woman that drinks heavily. That and the fact that he doesn't think a sloppy drunk woman is attractive. When Jahan first sees Tarai, he's intrigued, until he realizes how wasted she is, and at that point, her pretty face means nothing to him. For as much as he tries to fight it, Jahan finds himself drawn to the woman like a moth to a flame, although it's evident that she's the complete opposite of what he's used to. The more he gets to know her, the more he feels like she would be all wrong for him, but is love stronger than pride?

Tarai began to spiral after what Bo did to her and Jahan stepped in right on time. Jahan was judgmental when he first met Tarai because of his past but I'm glad he finally got the opportunity to know her. Tarai was dealt a helluva hand but her circumstances caused her to look at life differently and appreciate the things she normally would've taken for granted. Dakota wanted too much and her actions after Jahan gave her the real showed she needed to reevaluate a lot. Bo got on my nerves and it was crazy the lengths he was willing to go to hurt Tarai and Jahan. I'm glad Tarai and Jahan finally got it together and realized their love was stronger than their pride. I loved this novella and how the triplet that was so carefree and did as she pleased had a change of heart once life took a turn and love intervened. I can't wait for Tish's story.

### **Wow**

Baby when I tell you I shed some tears I did the ugly cry. Who would have thought that an encounter in the strip club would blossom like it did. We need more stand up guys like Jahan. When Tarai found she had her whole perspective changed. Tarai and Jahan had a few rough patches but they made it through . As for Bo he was too salty.

### **Good read**

OMG this book was so good. I loved the characters and the storyline was out together nicely. Jahan was bae and Tarai was a trip. I liked the relationship between the sisters they had Tarai back even though they didn't like her occupation. That ending was amazing and she deserved all the happiness in the world. Great job and I can't wait for the next book

### **This was soooooo good!!**

I loved this story. It shows just how quickly life can change for the worse or for better. I liked Jahan from jump because he was honest, open, and didnt judge Tarai too much once they went out on the date. I love how he was there for her through it all and his love allowed her to self reflect and want more for her life! I want more on her sister because that lil bit if info isn't gonna cut it! She needs her own story!!

### **Did not disappoint!!!**

I'd been looking forward to Tarai's story and I was not at all disappointed! You came through with a unique and well written story! I fell in love with both the hero and the heroine, and I didn't even want it to end! Great job!

### **So sweet and cheesy**

I love romance books. Man Jahan and Tarai were meant to be. The love they had for each other was so real you could feel it coming off of the pages. I tell you Bo was crazy as hell. He was delusional. Dakota let it go. Sad that Tarai had to go through that but it made her better herself. Loved everything about this. Good job

### **Storytelling at its finest**

When the story grips you and won't let you go, you know your reading an awesome story. When you're sitting in your car refusing to go to work because you're reading an awesome story. When you watch and feel as if the characters struggle is your struggle. This was a great book.

### **Great read!**

I really loved the relationship between Johan and Tarai. They truly loved each other unconditionally. I kind of felt sorry for Dakota. She spent all of that time with Johan but he didn't fall in love with her, but he fell in love with Tarai at first sight. Bo was a complete butthole and he should have been glad that his career wasn't ruined because of his stupidity. It took a bout with cancer and the love of a good man to get Tarai to actually love herself. Great job Natisha, but you always come through with bangers.

I absolutely loved this book. I hated to see it end it was so good. I love Jahan and Tarai together. I cried and laughed so much...Bo was a clown I hated him...I kinda felt bad for Dakota. I'm sure it hurts to love someone and they not love you back. This is most definitely a must read...Natisha you never disappoints me. You did the darn thing with this book...SN I would love to read Tish's story...

A good read that is well written with a steady flow. Likeable, well developed characters that are dealing with some inner issues and meet at the right time. Can't wait to read about the other sisters.

Jahan was the light at the end of the tunnel for Tarai ! He was willing to weather any storm with her and love her regardless especially once he figured out she was it for him , I would like an update and to know what happened to Bo because I'm sure he didn't just leave them alone . Great Read !!

This story was very touching and i loved it. My heart went out for Tarai she got some devastating but she stood strong. She had a great support team with her sisters Tylynn and Tish and of course her parents. Jahan came into her life and it was so refreshing. Even tho Bo tried to make her life miserable she didn't fold. I was so happy that she got her happy ending and her man

**Regina Farris says**

This was a nice read... I enjoyed the storyline... I had all kinds of emotions for Tarai... This poor young woman had been through so much... She was just living life carefree... And a little on the wild side... Until that one dreadful day that she was raped and it was like everything just down hill from there... This changed her and turned her world upside down... She really spiraled out of control...

One day while she is at work in the strip club, she crosses paths with a man named Jahan... This one meeting helped Tarai more than anyone knew...

Jahan was a very quiet man with a good head on his shoulders... he was very picky about the woman that he dated... But once he laid eyes on Tarai everything changes for him... He was doing things that he never thought he would...

This relationship moved very quickly and has a lot of obstacles placed in front of them... But in the end the love that they had for each other was more than enough to pull them through...

### **Good book**

I feel so bad for Tarai she has been through a lot in her life she has a lot of pain that she can't seem to get over. When she met Jahan I was hoping they hit it off even though they are total opposites, I just knew they could have something special. When they first hit it off I was excited I'm glad he broke things off with Dakota she was too clingy and to top it off she slept with his cousin because she felt played. I can't stand Bo he's too cocky and on top of that he's a rapist I hope he finally goes to jail because that's where he belongs
