Cristina Gaspar says

Delicioso, fabuloso, maravilhoso!! A genialidade da escrita iguala a imaginação do autor!! Pequenos contos sim, mas grandes temas focados: o amor pelos livros e a falta de espaço, a ganância pelo lucro, a tecnologia,... tudo a culminar num final belíssimo! Recomendo a leitura a amantes de livros e bibliotecas, realismo mágico e contos! E sem sombra de dúvida irei ler a restante obra do autor!

Jonfaith says

New books keep arriving, and you can't bear to get rid of a single old one. And so, slowly and imperceptibly, the volumes crowd out everything before them. Like glaciers.

It is no secret that wife has reservations about my bibliomania, the consequences of filling our house with tomes until, inevitably, it collapses under the weight.

So she fears.

She mentioned often while we were abroad how piles sprouted and exponentially grew, how archipelagos became mountain ranges. I am guilty, I remain an addict.

The premise behind this book excited me. Živković avoided my expectations and made this universal. It could be nearly anywhere. The Belgrade of his experience is revealed in only the slimmest of detail. More problematic, was that each of the six section never mention a single author. What unfolds is a Borgesian procedural about the universe as a library. It wasn't satisfying, just a bland summoning to something greater.
