"Business and Society: Stakeholders, Ethics, Public Policy," 14e by Lawrence and Weber has continued through several successive author teams to be the market-leader in its field. This new edition highlights why government regulation is sometimes required as well as new models of business-community collaboration. The authors believe that businesses have social (as well as economic) responsibilities to society; that business and government both have important roles to play in the modern economy; and that ethics and integrity are essential to personal fulfillment and to business success. I used this book to teach a class in Business Ethics and Business Law. It's a very useful Ethics text, but some of the teaching resources are outdated. Also, though the textbook covers SOME business law topics, I used other materials to round out that section of the class.
