Chained

Lauren Henderson

Chained Lauren Henderson

When art chick-cum-sleuth Sam Jones groggily awakens to find her wrists chained to a ceiling plank in a cockroach-infested basement, she knows that her blackout, pounding headache, and body restraints are not the results of a drunken encounter with some S&M freak.

No, she's been kidnapped in a case of mistaken identity, plucked right off a TV production set where she's been working as a stunt double on a hot new miniseries with her boyfriend, Hugo. And when a chum's boyfriend turns up dead, it's clear that the kidnappers have more than pranks on their minds. If she doesn't watch her back, she'll end up topping the endangered species list. Will Sam crack the case before the body count rises?

Lauren Henderson fans will delight in this new adventure for the brassy, lovable, kick-ass detective in stilettos. And mystery lovers who crave an irreverent, murderously funny heroine will find themselves Sam Jones converts before they reach the thrilling conclusion of this uproarious romp through 'tart noir' territory.

Mira says

I loved the earlier Sam Jones novels but although this was a good read it lacked some of the Cool Britannia energy of it's predecessors.

Interested to try some of Henderson's other series

Joan Horkey says

Sam Jones is a unique heroine. She is gutsy, brassy, funny, and loveable. A great read.

Pamela Harris says

I liked it. Surprisingly. And I am interested in checking some of the other Sam Jones books. It took a bit for me to get used to the British slang but it was entertaining. Much more of a mystery/crime novel than I expected which was nice.

Simeonberesford says

Apparently Ms Henderson is a leading light of something called Tart Noir. Well noir it is not. Laddette Crime is probably a better description. Lots of mostly off stage sex and violence. mixed with plenty of onstage soft drugs and alchol. it bounces along the cynicism of Noir replaced with the flippancy of a Heroine who knows she is invunerable. I was not even emotionally involved during an attempted rape scene...[return]Not objectionable just too damned lightweight.

Writerlibrarian says

Average 3 ?? More violence and gore than in the other titles of the series. Mostly for shock violence most of it is not plot driven but fills in holes in the narrative. The culprit wasn't obvious but not an out of nowhere villain. So so.

Jackson Burnett says

Chained gets four stars for its humor and it bawdy characters. As crime fiction or mystery, it would be entitled to no more than three stars. Good for a laugh.

Paulette Gerkovich says

This book is not nearly as good as the others in the series. It was bearable kept me mildly entertained in parts, and I like Sam's attitude. But I wouldn't go out of my way for it.

Lain says

This book was so "not me" that I set it down after five pages. I couldn't understand what was happening or who was who, and the language was so foul I couldn't stand it. Read at your own risk.

Tiina says

Very good, starts in a way that it's easy to become engaged in the story. Different main character. Very fresh read.

Sara says

This is my least favorite of this series, probably because it is--by far--the most implausible.

Randi Stout says

I really liked this book. At the beginning of the book, it was very hard to understand who was who and what the characters were doing. The entire book was so impulsive that i couldn't put it down.
