## **Dawn of War: Tempest** C.S. Goto

Battling to save the Blood Ravens, precious gene-seed, Librarian Rhamah is sucked into the Eye of Terror and crashes down onto a bizarre planet of alien libraries and museums, an ancient eldar world hidden in the tempests of the warp. His battle-brothers mourn the passing of this hero, but his fate is far worse than death?

When a detachment of strangely familiar Space Marines lands on the planet to plunder its forbidden knowledge, Rhamah finds himself embroiled in their confrontation with the planet's mysterious guardians. As the rest of the Blood Ravens begin their search for him, Rhamah struggles to discover his true identity, unaware that his allegiance could tip the balance to deciding the fate of this world and its secrets.

## **From Reader Review Dawn of War: Tempest for online ebook**

### **Thomas says**

Final book of the Blood Ravens Trilogy has more intrigue and action, juggling the quest for knowledge and avoiding heresy, with lots of action and a nasty reveal, Captain Angelos and his team have to trust enemies, and maybe fight friends- but it's all in a day's work when you are doing it for the Emporor.

---

### **Brian Geraghty says**

Follows on well with the series, a must for any fan. This series was my first read of any warhammer, and im now a converted fan

---

### **Jacob Stiver says**

Couldn't even finish reading it, which says a lot considering most of my favorite books of the last five years have been set in the Warhammer 40K universe.
