# Draekon Heart: Exiled to the Prison Planet

Lee Savino , Lili Zander

**Draekon Heart: Exiled to the Prison Planet** Lee Savino , Lili Zander

There might be a way out of the prison planet. *The only problem?* I don't want to go.

**Back on Earth is a man who wants to kill me.**

Back on Earth, I slept with a knife under my pillow to be safe.

There's no coffee on the prison planet. No pizza. No chocolate.

I should be thrilled that there might be a way back home.

Except I don't want to return.

**Here, I feel safe.**

Because Mike isn't here.

*And because Thrax and Zorux are.*

**But I've sworn off guys.**

*No matter* how hot they are.

*No matter* how much I want to kiss them.

*No matter* how much I want to run my hands all over their hard bodies...

**There are a hundred reasons why the three of us shouldn't be together.**

There's still no sign of my friends.

The rescue attempt is spiraling into disaster.

**And most importantly, I'm fairly sure that the Draekons I'm falling in love with aren't my mates.**

*Draekon Heart is the third book in the Dragons in Exile series. It's a full-length, standalone science fiction dragon-shifter MFM menage romance story featuring a wary human female, and two sexy aliens that win her trust and her heart. (No M/M) Happily-ever-after guaranteed!*

## **From Reader Review Draekon Heart: Exiled to the Prison Planet for online ebook**

### **Gwendolyn Thaggard says**

Book 3 in the series, I haven't read the earlier books but I definitely will now.

Ryanna is human.

She is surrounded by tall, muscular, handsome, alien men (Draekon).

Two of the other human women, have mated, with some of the males.

Ryanna, has her eye one male Thrax.

He is friendly, flirty, and easy-going.

Her other eye is on Zorux, who is more standoffish and crabby.

As much as Ryanna, is attracted to both males it's her past that holds her back.

Back on Earth, Ryanna's marriage was a painful and abusive ordeal, that she hasn't gotten over.

She has emotional scars that prevent her, from acting on her true feelings.

But Ryanna isn't the only one dealing with pain, and fear.

Zorux has been holding on to, deadly secret since he was a young boy.

Thrax was raised in a orphanage and has had few, significant relationships.

They each must come to terms with these issues before they can accept each other.

I voluntarily reviewed an advanced reader copy of this book and was not compensated in any way.

### **Claypot\_Reads - Michelle says**

I love this series and each book just gets better. Plenty of action and emotions to go with the heat in this one. Not gonna deny I binge these books as soon as I get them. Fast, easy read.

I received an arc of this book

---

### **Christina Ps says**

2.5 stars

---

### **Rhonda says**

Lee Savino has a way with creating characters that stay with you long after you've finished the book.

Rayanna, Thrax and Zorux all have things in their past that have kept them from becoming close to anyone.

The story between these three is intense and frustrating at times but you can feel all the emotions coming from them. What will happen when secrets are revealed? I can't say a lot because I don't want to post spoilers but I HIGHLY recommend this book. Lee once again pulls you into the story so much that you can loose

track of time. Now I'm just waiting for the next one in this series!

---

### **Maura Pritchard says**

The third Draekon story – what!

This is the third Draekon book but each is a standalone so you don't have to read the first and second but I highly recommend them; they are a great read! This is Ryanna's, Thrax's, and Zorux's story. Their story is a bit different in how it starts. Ryanna is a bit skittish of males. Zorux is hiding a big secret. Thrax thinks he's just a flyboy! Uh oh this could be a problem for this mating bond! Or is it? The writing is flawless. The plot is filled with intrigue and new adventures for this exile group. We meet new exiles on this the prison planet. I love this story. It flows really well and all the action and adventures make complete sense. The scenes between these three are not only hot but also sweet. Now I can't wait to read book four! We get a glimpse of whose story will be next at the end of three. There is an HEA even though the story continues.

---

### **Reena Jacobs says**

#### **First real suspense in the series**

I'm starting to see a pattern with the women. They all seem to have the same personality but different background stories.

The men are similar to. They all seem to act like a human man. Yes, they have rules of their society, which they left at home. However all the men seem to have a cocky, playful personality. Even when were told they checked her is certainly, but please still comes out. I'm seeing a lot of one note characters.

The first real suspense in the series happened in this story. The thing is, it happened at the end, which turned the book into a cliffhanger. Where as most of the book lacked suspense and had easy to solve problems, the ending does make me want to read further. I just hope the problem isn't solved as easily as all of the other problems. I hate simple solutions.

What I do you like about this book in series is the overall arching story line. There are nine women which tells me there will be at least nine stories. I'm curious To see how they'll pair up. I'm extremely interested in the other exiled batches. How are they organize? How do they treat the newcomers? And why are exiled hostile to each other?

---

### **Pam says**

Ryanna Dickson is alone and terrified. Everyone who loved and cherished her is long gone. Her ex-husband, Mike, the upstanding sheriff of their small town in Georgia? Well, after he was done beating and abusing her, he tried to kill her when she divorced him. When the Zorahns come to Earth, offering gifts and miracle cures for diseases, all they ask is for ten female volunteers to go to Zoraht for six months. It's all so mysterious. Ryanna jumps at the chance. What does she have to lose? But things never go according to plan, do they? When the spaceship carrying Ryanna and her companions crashes on the Draekon prison planet, everything changes. There she meets Thrax and Zorux, two of the exiled Zorahns. Thrax was alone his entire

life until he was exiled and found others like himself. Zorux carries a dark, potentially deadly, secret that could destroy him and everyone he loves, a secret that makes him distance himself from everyone. After months spent in the Draekon camp, friendship slowly blossoms between Ryanna, Thrax, and Zorux. But secrets still abound. The two surviving scientists from the crashed ship have brought the machinations and plots of Zoraht with them. The Zorahn homeworld is filled with schemes and collusion. Unknown and unrevealed agendas put everyone on the planet at risk. No one trusts the scientists. When information integral to the survival of all is made known, it falls to Ryanna, Thrax, Zorux, and Raiht'vi, one of the scientists, to find the key that could either destroy or save everyone. And as the friendship between Ryanna, Thrax, and Zorux begins to change, to morph into something more, all three are afraid of that connection, none more so than Ryanna. The Draekon are capable of transforming into dragons, but only when they find their mate. And Ryanna can't, won't, let herself feel anything for the hot, hunky Draekons that have captured her affection, not after what her ex put her through. When a totally unexpected threat puts Ryanna and Raiht'vi in mortal danger, Thrax and Zorux have no choice but to save them. But can they? Will they be able push through the hurt, pain, and possible deadly consequences of their former lives? What of Ryanna? She's been through so much. Is it possible she's finally found love, only to lose it because of her stubbornness and unwillingness to leave her past behind? Can these three pull themselves from the horrors of their previous lives and let themselves find happiness? Or will the lethal threats against the Draekons and Earth women destroy not only the happiness of the triad but everything for which the Draekons have worked for so very long? Will Ryanna, Thrax, and Zorux survive to fulfill their fate? Or will everything literally go up in flames, destroying all hope for the Draekon planet?

In this third installment of Dragons in Exile, Lee Savino and Lili Zander have outdone themselves. Draekon Heart held me riveted from page one. Lee Savino and Lili Zander have shown their true talent in creating a mystical, magical world that's beautiful beyond description and fascinating beyond measure. The entire storyline, the world of Zoraht, the plots, the mysteries, the uncertainty of every action and reaction, the Draekon planet, the people...all of these are captivating. And the interactions between Ryanna, Thrax, and Zorux aren't just steamy. They're HOT! The relationship between the three is beautifully crafted. I felt every moment of anticipation, fear, dread, abject terror, hope, wonderment, and the realization that life is worth every single second of living. This isn't just an average paranormal shapeshifter erotic romance. In my opinion, this is the best work both Ms. Savino and Ms. Zander have produced to date. (And that's truly saying something!) Kudos, Lee Savino and Lili Zander. I give Draekon Heart my highest recommendation. Thank you for writing such a breathtakingly beautiful story!

One final note. Please be an informed reader and consumer! This is an ADULT book. It contains explicit language and sexual scenes. If you don't enjoy this genre, think hard before buying any book you know you won't enjoy. There are book synopses and reviews available on Goodreads and all booksellers' websites. Use these resources. DON'T LEAVE A NEGATIVE REVIEW WHEN YOU KNOW YOU WON'T ENJOY THE BOOK. It's not fair to the authors! They work extremely hard to provide a quality work product. If you know you'll object to the book's subject matter before you buy it, you're doing yourself and the authors an extreme disservice.

Thanks for reading my review and happy reading!

**The Book Junkie Reads . . . says**

**Thrax, Zorux and little Earth girl Ryanna**

This girl has spunk, pizzazz, fear, determination, strength and two kick-azz alien men that would do anything for her. Both Thrax and Zorux could be nothing but different but pair mates to the one and only Ryanna. This time the story has picked up pace and added extra demision to it. The was an added dynamic to the triad also, jealousy. It was not the kind tha tear things apart but it was something to watch unfold. They fit.

The triads dynamic unfolded slower with more finesse and confidence and emotional bonding before full on she our mate type of things. I loved how it all played out. And the meeting of the other exile batch presents another layer.

There was chemistry, drama, action, determination, strength, passion, realization, and so steamy sexy sex menage scenes.

---

### **JodyL says**

#### **Lots of excitement**

Rihanna is one of the human women that crashed on the exile planet. She was running away from an abusive ex husband. She decided to stay away from men. Zorux is hiding a secret about his past so that his brothers and sister aren't killed. So he keeps himself separate from everyone else. Thrax was raised in an orphanage, then he became a pilot. So he doesn't form relationships.

All three have issues that they hide but they are attracted to each other. Rianna believes that since the guys didn't transform into dragons when they saw her that they aren't mates.

They are on a team that is sent to retrieve the parts that make a cloak ship. The problem is there are seven different boxes of parts with two more duplicates of each box for 21 total. The other problem is the other exile group is collecting them too.

It ends in a sort of cliff hanger. A couple of Draekon got captured by the other exiles. Olivia's story is next and it has an interesting beginning from the epilogue. Love this series. Lots of excitement. Can't wait for more.

Warning: start from the first book and read in order or you will be lost.

---

### **Cortnie says**

Seriously, I am loving this series. Each book in this series is a stand alone as far as the romance goes, but there is an overall plot arc that needs to be read in order for you to get the full enjoyment of it. This story starts right as book 2 ends, with no jump in time. Ryanna is not looking for any type of relationship. She has been hurt in the past and doesn't want to let anyone that close to her again. Zorux has his own reasons for not wanting a relationship, so he distances himself as much as he can. Thrax isn't suffering from any of that. He is the fun, light-hearted one in the trio.

Their romance is slower in the building, especially since they have known each other for a few months. There are moments of humor, tenderness, and steamy sexiness. The overall plot is full of action, newly explored places on the world map, some new characters, and a lot of hints at things that could happen in future books. There is nothing I wish had been better in this book. The writing is very well done, the characters are wonderful, the world development is some of the best, and the romance is spicy. I highly recommend this book, and the rest of the series, to anyone who loves romance.

---

### **Kathi says**

Tensions Rise and Danger Increases in this Incredible series!!

This series continues to be full of amazing stories; each one better than the last!!

Ryanna has an abusive ex-husband who still gives her nightmares. There was no recourse on Earth because he was a cop. She feels like he can no longer reach her on this prison planet, though he still invades her dreams. Thrax is “Sexy Draekon” who flirts and maintains good humor. Zorux is “Surly Draekon” who keeps to himself or provides curt answers. Ryanna feels an attraction to both Draekon, but as they did not morph into their dragon form they are not her mates. She could not stand to watch if they ultimately found their mate – AND she has sworn off men after her abusive situation.

When sent on a mission together she gets to know these two Draekon much better. When things go wrong they are only caring and kind toward her – which is a new circumstance for her. When they continue to save her and support her will she see their true nature and risk her heart?

Delightful (and steamy) growth of relationship, inventive new dangers on this alien world, and the ultimate goal of rescuing the other group of women and piecing together a possible way to escape the planet create an entertaining and compelling read.

\*\*I am voluntarily leaving my honest review of this book\*\*

---

### **Rose Howse says**

Of course I Loved This Book, it's about DRAGONS! I worried through this one, it looked like Thrax and Zorux weren't really the fated mates of Ryanna. The Draekons did not transform when they saw Ryanna, they didn't transform when they each kissed her or had a sexy erotic time with her either, so sad. In this story they are traveling away from their camp, looking for the parts that make up a ship so they could leave the Prison Planet the Draekons were exiled to. There are pasts that a few are keeping to themselves due to shame and fear. There are still some of the females that crashed with Ryanna and her crew but they were discovered by another group of Draekons on the other side of the planet. Without writings spoilers, I can say that Olivia and her crew of females will be in the future stories, one of them being Draekon Abduction, coming from Lee Savino and Lili Zander, YAY! Give me more DRAGONS!

---

### **Rachel says**

\*\*\*\*\*SPOILERISH\*\*\*\*\*

In terms of growth of background characters, this one was my favorite.

In terms of main characters, it's the same as the previous books. Some of the reasons why they didn't

open up to each other, r why they didn't transform was a little dumb. In previous book they claim that status and blood shouldn't matter, but it clearly does.

So, because that was a part of why they didn't transforms was annoying. This book, story line and main characters didn't really stand out to me. The doctor being open about her arranged marriage and getting a little more insight was like a breath of fresh air.

I am interested to see how the other tribe works in the next book, but I don't know how I feel about having 4 mates. Two is enough, 3 is pushing it but still enjoyable, 4 is way to many.

---

### **Kathy Heare Watts says**

#### **HE CAN'T REACH YOU HERE. YOU ARE SAFE FROM HIM**

What an amazing new series, with sexy tattooed alien men that have been banished to a prison planet because they carry a mutated gene where they are Draekon, in other words, they can shift to dragons. The Zorahn are wanting Earth women to aid in their secret experimentation but convince Earth's government that it is a temporary six-month stent, and ten women will be on the first shuttle. "You represent the first step in an alliance that we hope will span generations." "We're glorified lab rats."

Ryanna Dickson left earth, to escape from her abusive ex-husband, Mike, the sheriff of where she lived in Goose Hand, Georgia. She may be stranded on a prison planet, along with a few other Earth females, but there are also Draekon prisoners, exiled from their planet for carrying a mutant gene that allows them to turn into dragons. Ryanna still lives in fear and is haunted by her nightmares from the terror she lived under the cruel hand of Mike. She is determined that she will never become involved with another man again and give him control over her.

Thrax and Zorux will each have their own secrets. But what is no secret is that each of them desires Ryanna. Thrax is more easy-going, carefree and Zorux is reserved, and surly. There is a bit of jealousy among them with favoritism from Ryanna, but she lets them know, she like each of them, but doesn't believe they are to be mates because they didn't turn into dragons when they met. Three individuals, all with baggage and secrets, but with a strong attraction will learn that together, they can conquer much. Some of those secrets could result in death if the truth were to be uncovered.

"I will always enforce the laws of my people."

The plot will have the rainy season ending, and it is time to try and locate the ship, Fehrat 1, and then the plan is to find the containers with parts to build spaceships, and to locate the other Earth women. The trip will take them into new terrain and also dangers. It will become a matter of trust, and teamwork to complete their mission and survive. Fighting a growing passion may be the biggest danger they encounter. Ryanna can't have her heart broken, that would be more painful than the beatings she has endured by her ex-husband.

Throw together, Ryanna, Thrax, and Zorux will become more open with each other, sharing secrets, fears, and parts from their past. They discover a physical and sexual attraction and the Draekon prove that they will

honor their word. Ryanna learns that she is stronger than she believes, especially when she is under attack and it is a matter of life and death. Open, honest, painfully raw discussions with each other, and taking a chance on the future may free the soul and unleash the dragons within.

The story has plenty of passion, angst, sexual chemistry and explicit sex scenes between a human woman and her two hottie dragons. The story is an ongoing series, and each story will read as a standalone. In the next book, maybe we will learn more about the five human females that were taken captive by another Draekon group. There are some surprises and also we are left with a cliffhanger of life and death, and the fourth book will be Dragons in Exile.

---

### **Teresa Lara says**

love Rayna thrax and Z amazing read.

---
