Military attorney, Captain Tracy Keener, is forced to defend Special Operations officer, Captain Adam Burke: a man accused of leading his team into an active bombing range during a readiness exercise. All of the team members die--and Adam is rendered unconscious. He'd acted, he claims, under direct orders. But had he? His superior officers deny it, and Burke finds himself in the middle of a conspiracy that involves chemical weapons--and someone used them against his team. Problem is, no one, not even his attorney, believes him.

But nothing is as it seems, and no one can be trusted. Keener and Burke discover that in matters such as these, the first victim is truth. And when they insist on seeking it, they're marked for death. The proverbial clock is ticking. Who will live long enough to reveal the truth--and will it have anything to do with the truth they sought... or are they caught in a much larger web? One with the potential to kill not just them but millions of people they swore an oath to serve, defend and protect?

Duplicity by Vicki Hinze This is an amazing military romantic suspense thriller at its best. Lots of action with twists and turns it keeps your attention to the very end. Air force attorney Captain Tracy Keener is assigned the toughest case of her legal career as a JAG officer. She must defend Captain Adam Burke, an Intel operative who is accused of killing and abandoning his men while on a covert mission, accused of treason, cowardice and murder. She realizes defending him could ruin her military career.

Everyone, including Tracy, believes that Captain Burke is guilty, but things don't always appear as they seem. Adam tells Tracy that he has been set up and so has she, even though she does not believe what he tells her she begins to search for answers.

When Tracy uncovers some proof to what Adam is telling her is true; he mysteriously dies in a fire. Feeling guilty for Adam's death she continues to push for the truth although she is ordered by her superiors to close the case, Tracy risks her life to find answers. With Adams return and with the help of Tracy they uncover a government conspiracy called "Project Duplicity," which a chemical compound called retrosarin, which is behind the deaths of several officers. Treason, murder, betrayal and greed are behind in the conspiracy to keep Duplicity secret until it passes the trials and a government funding is granted. Forced together under extreme circumstances a bond forms between them because they must rely on each other to stay alive to bring the truth out in the open. This book was great! Ok, this was really good. I was looking for a Christmas romance to read and started reading this one. The Christmas part comes at the very end and the romance builds very slowly. I would say that it is more military and mystery/suspense. I was caught up in trying to figure out who all the bad guys were and suffered along with the characters hoping for a happy ending and I wasn't disappointed.

Audiobook--Great story. Part love story, part black-ops suspense. Tracy, a JAG lawyer, must defend Adam Burke, who is accused of killing his men. Everyone thinks he's guilty, but he says he's not. However, meeting Adam plants the seeds of doubt in her mind, and when he is apparently murdered, Tracy vows to find out what really happened. Her search for the truth puts her own life in danger. Written in the tradition of A Few Good Men, this highly suspenseful story of a solitary woman's fight against an evil military conspiracy.
