One of them lied. One of them *died*.

Jane’s life has become a haze of antidepressants since the tragic death of her daughter, Mary. The accident, which happened over a year ago now, destroyed their perfect family life forever.

The trouble is, the more Jane thinks about that night, the more she realises that something doesn’t seem right. Does her youngest daughter know more than she’s letting on? What secrets is her husband still hiding from her? And why does no one trust her to be on her own?

*Even if it’s the last thing she does, she’ll find out the truth...*

**Perfect for fans of Liane Moriarty and Shari Lapena.**
