Filthy Professor Amy Brent

That's it, I can't stand it anymore! I've spent months trying to get Professor Logan Clark to notice me. I dress sexy, I gaze into his eyes, I lick my lips when he looks at me. I want to get him out of his classroom and out of his clothes for a little private, one-on-one tutoring

COURTNEY SHAW: I'm a smoking hot red head with a sex drive that would make a porn star blush and a major daddy complex. Older men are my thing, and lots of them have sampled the sweet treats I have in my panties. So why isn't Logan Clark jumping at the chance to be with me? Even after our little oral exam in the restroom he keeps pushing me away. Is this his idea of torture? Well, two can play at that game...

LOGAN CLARK: Damn this girl, doesn't she understand that there are rules against professors having sex with students, no matter how smoking hot and sexy they are? She doesn't seem to care that screwing her could get me fired. I'm not going to risk my job just to have sex with her. No way. Not even after she drops a wet thong on my desk and shows up naked at my door. I've worked too hard to get where I am at this school. I'm not going to blow it all for her. At least that's what I keep telling myself...

Courtney Shaw is a horny college co-ed with her sights set on her accounting professor. Logan Clark is a 42 year twice divorced college professor making time with several of the female faculty & drinking every night. Logan has only one rule for himself, don't mess around with the female students. It's not worth losing his job over. Courtney is not use to being turned down & when Logan doesn't seem interested in her she decides to double her efforts. Courtney is not willing to take 'no' for an answer.

This student/teacher older man/younger woman story is a short & naughty. Both characters have issues & it makes it hard to get behind their choices yet the story works. This story is funny at times & down right in the gutter at other times. It is an easy read & can be finished in a single sitting. This book is meant for mature readers.

I voluntarily reviewed an Advanced Reader's Copy of this book.

Karin says

This book super quick, super steamy & had a lot of funny moments.

Courtney is basically a admitted nympho who is lusting after her Professor who doesn't even look in her direction.

What I liked about this book vs other teacher/student romances is it wasn't love at first site. Courtney was basically in heavy heavy lust with Logan and even though he thinks she is attractive he isn't thinking or planning about how to get her in his heart at first. He isn't buying his time and formatting a plan, lol. When Logan bumps into her at a bar he barely recalls her name.

Now Courtney was very sexually liberated and Logan was practically a alcoholic who was banging half the faculty. It was a perfect combo to me, lol. I don't like cookie cutter characters and these were not.

Oh wow, I love the way Amy writes her style is brilliant, just enough hot with a good story to hold it up. The story is about a professor who won't touch students because he needs his tenure with the college, then he can do what he wants, until then he can be sacked for what he is thinking of all the time! Courtney has got her sights on him and he's trying his best to ignore her but is he strong enough to resist.

Courtney has a job lined up she can't risk her heart to a professor all she wants is him for one night, she loves sex and has never been able to control herself.

It was a brilliant story with Logan having his fun with the other professors as this was allowed, but why

couldn't he forget Courtney he'd not even touched her.....

I couldn't put it down even though it was like a bomb waiting to go off anytime it was brilliant, with every turn of the page you got drawn in more not realising what time it was out how much you'd read! I love the way you get a few books with every book which means you have less to buy and a good few days with of reading if you only put it down to sleep! I loved picking which book I read next and will review them in the right place rather than here.

I'd recommend this book to anyone if you like a great hot steamy read that actually has a story to it that's enjoyable.

Just be aware that it isn't for people under 18 because of the content, not only of this book but the others too.

This is the first book I've read by Amy and I will definitely be reading more! The title for this book is perfect because everyone is having sex! There is sex, sex and more sex and it was hot totally loved it! This is a quick, hot story of an older man and younger woman. If that is your thing then this book is a must read.

Sylvie says

First off, this book is not 1500 pages as the listing suggests. I'm not sure what the author did to make it say this, but it was 126 "pages" on my kindle app. The preview of the next book starts at 65% of the file.

Interesting story, details missing, editing needed. I didn't notice a lot of issues but enough that they made me stumble and re-read to see if I had missed something.

O ?om to malo by?: Hlavná postava chce dostať sexoška profesora, ktorý ju ale odmieta, lebo predsa nechce stratiť prácu!

?o som si myslela, že dostanem: Hlavná postava sa bude snažiť dostať profesora, ktorý ju bude odmietať, a tak sa mu bude dookola ponúkať, až kým ho nedostane.

?o som dostala: nymfomanka, ktorá polovicu knihy prekecá o tom, ako kedy a kde nechala chlapcov aby ju obchytávali a strkali prsty a penisy kde sa len dalo, sa rozhodne zviest profesora. Profesor trdká úplne každú jednu profesorku na škole, staré 50 ročné ženy, ale má pravidlo, že žiadna študentka, pretože nechce stratiť túto skvelú prácu! Lebo keď trdkaš CELY UCITELSKY ZBOR, tak z toho nemá žiadne následky predsa. Veď niektoré profesorky sú len vydate... Tak mu tá študentka/hl. postava urobí "len" blowjob, lebo to s nou nespi, to nestratí prácu, a keď ju stranu a pol odmieta, prídje za ním osobne domov a si to rozdadajú.

Potom odide, ho ignoruje, prestahuje sa do Chicaga kvôli novej práci a profesor pride za nou s tým, že ju miluje a ona jeho tiež, preto aj odišla, lebo k nemu mala feelings. THE END.

Hodnotenie: spáli?... ale nie, to by bolo príliš kruté... pre vaše ?íta?ky. Vymaza? a nikdy ne?íta?.

This is a really good book. Professor Logan Clark is a messed up individual. Divorced twice, 42 and sleeping his way through the college facility that he works with. But he does have a rule. DO NOT sleep with the students. That is until Courtney Shaw sets her eyes on him.

Courtney is 22 and has a huge daddy complex. She has 2 weeks before she graduates and leaves California to grow up and start life as she knows it in Chicago. Can she get what she wants from Logan? Or will she fail? You have to read to find out. But this is one fun loving, sexy book!

Melissa says

I didn't feel them falling in love with each other. Like how they fell for each other was wayy too short. The author should have included them having more conversations where they got to know each other better. The ending just happened so quickly that I was a little surprised on how it was the epilogue already. The ending felt rushed to me and I could not feel the love they had for each other.

4 Stars

I was given this book for my honest review.

Though this book was really steamy and I mean more than shower steamy these characters didn't really do much for me. Sure they were engaging but sometimes a coldness came upon me when reading this book it's like something felt off even though the story flowed. The POP was right there in the beginning and continued to the last word was read at the same time parts for me could have been enhanced and some tamed just a bit. Hotly erotic, steamy and over the wall.

Sorry my review is late.

Men will love Courtney.

Happy Hot Sexy Reading

Whew! This was a HOT one! My kindle is still cooling off!

I love student/professor romances and this one was extra dirty!

Courtney is in her last term of college and is determined to finally catch the attention of her gorgeous accounting prof Logan Clark.

It's not that he hasn't noticed her. He has.

It's not that he doesn't think she's beautiful. He does.

It's not that he's holding out for someone special. Ha! He's sleeping with half the faculty!

It's only because he doesn't want to lose his job. He's up for tenure soon and sleeping with a student is the last thing he needs to pop up on his professional record.

Courtney does not take no for an answer though. She teases, tempts and torments Logan until he finally gives in to his lust.

The funny thing is though, Logan thought nothing was more important than getting tenure. Twice divorced and bitter about love, he has no illusions about finding a happily ever after, but as he spends more time with Courtney he wonders if she could become more important than everything else in his life.

Super steamy and filthy, forbidden student/professor romance.

Older man/younger woman. Everyone is legal and everything is consensual.

HEA. No cliffhanger. Standalone, sexy, quick taboo read.

I voluntarily reviewed an advanced reader copy of this book.

This book is a short and steamy novella you can spend a couple of hours with and let your kindle sizzle away.

I didn't initially connect with Logan Clarke and his womaniser ways but I have to admit towards the end he did start to grow on me when things with Courtney Shaw took off.

I think he was in a dark place and his hook up with Courtney made him reevaluate his life and change it for the better.

Courtney Shaw is a 22 year old with a beautiful body and an intelligent mind.

She has everything going for her and has the world at her feet.

She has major daddy issues and a very high libido which is the perfect equation for the hot 42 year old accounting professor Logan Clarke.

I enjoyed reading this novella as it was funny,sweet and HOT.

Erica says

Enjoy student-teacher stories?

Then look no further, it's time to meet 44 year old Logan Clark. He's built like a Greek God with the equipment to make any woman thrilled to take him for a ride.

He's kind of a slacker, just getting by, drinking regularly and has no real goals, no life outside of hoping to make tenure.

He may have a strict no sleeping with students policy but the same doesn't apply to the staff. Married, single, older, younger, he'll do them all. Juggling a half dozen co-workers is nothing but when one student pushes his buttons and makes him forget why he adheres to the no fraternization policy his world is about to be turned upside down.

Courtney Shaw has drooled over her professor for months and now that she's about to graduate it's time to make her dreams come true.

She's knows his lifestyle but she just want's to give him a test run an move on, too bad things don't quite go as planned for either of them!

Short an sexy, student-teacher is not usually my thing, especially a man like Logan but this book worked for me, I read it in one sitting and eventually came to actually sort of like Logan for more than his body!

Lisa says

The professor has been bangin all the staff but has a rule about staying away from students. Usually.

Courtney has a daddy complex and set her sights on Logan. This book was hot and good, HEA and I enjoyed it. I received an arc of it.
