Goodbye, classroom! Hello, summer! But for Troy, Gabriella, Chad, and Taylor, this vacation is no day at the beach; they're all working at a country club founded by none other than Ryan and Sharpay's grandfather! And with the club's annual Midsummer Night's Musical right around the corner, Sharpay's competitive instincts are sizzling. If she can manage to win the Star Dazzle Award just one more time, the country club will name it after Sharpay, and it will be hers forever. But this year, Sharpay faces some tough competition- Gabriella! To have any hope of coming out on top, Sharpay knows that she'll need a secret weapon. She dumps Ryan and starts wooing Troy to be her new partner. Gabriella is less than thrilled that Troy has fallen under Sharpay's spell. How could he do that to her? Things are heating up on the lawns of high society. Will Troy and Gabriella realize that they're meant to be? Or is it already too late for them to sing one last song together?

I forgot I ever owned this, but I mean it was practically just the movie script with pictures and since I enjoyed the movie back then I guess I enjoyed the book?

I'm not a fan of the movie or book. But, I do have to say, whoever wrote this did a good job. This is nothing like the movie, which I have. I used to like the series of books and movies, but now... I just don't. I would recommend this book to people in 2nd grade or even 4th. I just don't like the series of books and movies. I also read Crunch Time, another book in the series.

As much as I hate to say this I read this book and liked it. MAN!! In general I really read the book and bought it for 4 reasons only. One, being that I am a fan of the High School Musical series. Two, HSM2 is my favorite one from the whole series cause I like most of the songs in it. Three, I wanted to know what was really going through the mind of certain characters. and four, it was on sale for \$2.50.

I will have to say my favorite character from the movies is Gabriella Montez but in the book I really enjoyed the parts of Taylor McKessie. When Troy was being a suckish boyfriend Taylor tries to point out the signs to Gabriella, yet is there to help reunite Troy and Gabriella. My least favorite character in the books are Troy and Sharpay. It seems as if Troy was completely blowing off Gabriella who happens to be his girlfriend and spends more time with another girl and her family. When he knew himself what he was doing with the Evans family is what a boyfriend should be doing. Also it seems like he was just using Sharpay her family for the scholarship. Sharpay on the other hand doesn't care. All she wants is Troy and seems like she will do anything to get him. Even if it means hurting others. Selfish, I know.

I will have to say that the book is really short. I finished it in one day when in total it was about an hour. It most likely would've taken me 30 minutes if I wasn't so distracted by classmates at the time. I will have to say it was worth it. Just reading the book reminded me of the day the movie came out and how excited I was. Yeah, I remember knowing a number of songs by heart by the time of the premiere and singing along to it. But I think the saddest thing that came to my mind while reading was how I didn't really understand the character and where they were going at until, early 2009 and it came out the summer of 2007.

N.B. rules the High School Musical movie novel world. I'm not sure that is a literary accomplishment, but it must count for something. I love the High School Musical movie novels, but as the most ridiculous of the HSM films it is my least favorite. Fun fact: It took them six days (almost a fifth of their 30 day shooting schedule) to film the Bet On It sequence. It makes me feel so much better about my life when I realize that Zac Efron spent six days prancing around a golf course.

Such a fun read! It felt like I was watching the movie again, although minus the songs (which I missed)...I guess that made it a little bit of a flat read and not as enjoyable as the movie was. :/

### **Maddison says**

Upped it from 2 to 3 stars :p Cute little read, and although Sharpay annoyed me constantly and Troy annoyed me a little of the time, I like the memory refresher :)

I liked high school musical back then and it was good and it was when school was over and time for summer job opportunities and one of them is going to Sharpay and Ryan's place of vacation and their father own a Country Club and most of the High school applied for it. Sharpay's plan was to get Troy Bolton out of the high school group closer to her like girlfriend and boyfriend plus joining the family of Sharpay and Ryan and it worked. At the end Gabriella faced Sharpay that Troy is with them and later on in the book Sharpay starts to feel bad about herself so give back Troy to them, got their trust, and gave one of her talent show trophies to Ryan because earlier in the book he wish he had one and never felt that important and proud to have one. So at the end they all sang of a great summer and having new friend along the way.

HIGH SCHOOL MUSICAL was great! I love all the characters they all have different personalty. At East High the final bell rings signaling the beginning of summer vacation, and the students converge in song ("What Time Is It"). As a symbol of his feelings for her, Troy Bolton (Zac Efron) gives Gabriella Montez (Vanessa Hudgens) a necklace with his initial "T" on it. The Wildcats then sing one last chorus of "What Time Is It" outside of the school. I don't want to give all the details for those who didn't read the book as yet . But overall this book is good!

School's out and summer's finally here, but for Troy, Gabriella, Chad, and Taylor, they are working at a country club owned by Sharpay and Ryan's family. Troy and Gabriella were hoping to spend a memorable summer together at the county club while they were off shift, but Sharpay isn't willing to allow that. With the yearly talent show on the way, Sharpay is more than willing to take the chance and steal the spotlight with Troy, knowing that Troy and Gabriella were planning to perform a duet. With Sharpay causing all these problems, it made many conflicts between Troy and his friends and family. Troy doesn't know what to do, when his best friends are disappointed and his girlfriend leaving him to spend this summer alone.

I first picked up this book because I am in love with the High School Musical series. Since I was young I was able to memorize all the lines and all the song lyrics. I wondered if the books were as good as the movies, so I thought I'll give it a try.

I finished this book because there were some parts in the book that were not included in the movie. Also, in the movie, I was not able to know what each character was thinking about in their head. In the book, I was able to know what the character was thinking about at the moment. With these extra parts, I was able to relate them to the movie. It was like finishing a puzzle.

I would recommend this book to Rainbow because we both love the High School Musical series. Since the summer vacation, we've been planning to watch High School Musical 3 together at her house, but it never happened yet. Only in my dreams would that happen.

It is about Troy(Zac),Gabriella(Vanessa),Sharpay(Ashely),Ryan(Lucas) and the wildcats.The wildcats are spending summer working at sharpays family resort which is totally tiring.The resort is having its annual talent show and Sharpay has her ways of making Troy join her in the show.Sharpays doing ends up in Troy losing his friends.The story is with alot of nice ups and downs.It will be better if you watch the movie though because the movie shows all the dance and song.

High School Musical 2 - The book of the film is really bad. The book is just one long summary of the movie, but where all the songs, and all the things that makes High School Musical 2 good, is not in the book. The book is missing the spark that the movie has, and the spark is the reason that the movie is amazing and the book is just bad.

Summer is finally here and the wildcats are excited for an amazing summer. But for Troy and his basketball gang, Gabriella and Taylor, they are going to Ryan and Sharpay's country club to earn money. Once they start working, everything goes wrong. Gabriella wanted a summer to remember with Troy but it isn't going the way she planned. Sharpay doesn't even care that Troy and Gabriella was suppose to perform together, she wants the spotlight only on her and Troy. When Troy's friends and Gabriella stops talking to him because of what Sharpay is doing, everything goes wrong. When Gabriella leaves the country club, Troy soon realizes everything he has done wrong.

I picked up this book because I love High School Musical. All the romance and everything in it is very exciting. I have watched the movie so many times but I was still interested in the differences that the book and the movie had so I read this book.

I finished this book because as I said before, I wanted to see the differences between the movie and the book so I finished it and I love reading it because it makes me happy because of everything that goes on in this book.

I would recommend this book to teenagers because this is what usually goes on and it teaches a lesson that friends are very important and they are people you must have in your life.

Totally biased review because I loved the HSM movies as a kid, and remembered that I had this book when deciding to read for BTAT18. There are definitely things that could have been improved:

- a) it seemed to me like they were trying to get rid of every hint we got towards Ryan's sexuality to almost cover it up by having a possible love relationship with Gabriella.
  - b) for the 'Huma huma' song reference, it was huma huma nuka nuka in the movies, not huma huma waka waka.
- 

### **Azhane says**

The Next Book in the HSM Series. This Book is about the 6friends still finding their way but now their going on summer vacation and have to all find jobs to put towards their college funds. when they all get a job at the same place relationships and friendships are tested.
