Jacked Up

Elle Aycart

Jacked Up Elle Aycart

Since James Bowen married Elle Cooper's sister, tall dark and handsome Jack Copeland has become a permanent fixture in Elle's life. A silent, rather annoying fixture, with his arrogant aloofness and my-way-or-the-highway attitude rubbing her the wrong way. So she does what any self-respecting woman would: aggravate the wits out of him for fun.

Party girl Elle Cooper is everything covert operative Jack Copeland doesn't want in a woman. Outspoken, sassy. A smartass. Too bad when he closes his eyes, all his mind conjures is her. To everyone else, he comes off as intimidating and unapproachable. Everyone except Elle. So he does what any self-respecting man would: stay the hell away from her. But when Elle gets herself in deep trouble, all of Jack's protective instincts kick in and keeping his distance is no longer an option.

With Jack and Elle in such close proximity, sparks are flying all over and it's only a matter of time before they ignite. The only question is, who will kill Elle first, the vicious drug cartel hunting her or Jack?

Roksana says

I have waited for Jack and Elle's story like forever and I had the impression that Jack would be that possessive, madly in love type of hero...no such luck!

It pains me to say, but I was disappointed in Jack...he was not as crazy in love with Elly as I originally thought him to be from the previous books...at times it felt like he just wanted sex from Elle and he had no romantic feelings towards her..it did not felt like he was madly in love with her..."lust" yes but not love....When Elly declared her feelings he reacted in such a crass and callous way....

"What do you want me to say?" he continued. "That I enjoyed fucking you, but this is as far as I'm willing to go? Is that what you want to hear?" He didn't blink while delivering the blow. His voice didn't waver, not even once. Not even a little....

That was just cold and emotionless and it did not sound like a guy madly in love with this woman...I just felt he lacked that romantic feeling which was really disappointing. What surprised me was Elly...I thought her to be a bit a party girl, which is nothing wrong itself, however, I was pleasantly surprised that she was more responsible and more reserved when it comes to the opposite sex...she was really a great heroine, she was not a pushover and stood her mind and I wish Jack would act with more love than just lust towards her....I would be then convinced that yes this man really loves her and would move the sun for her...I just did not get those vibes from him. But kudos to the author for keeping the Bowen family in every book...they are great bunch of characters that brings a lot of funny banters giving some light to the story.

4.5 Stars

I say when we are done and we are not. Not by a long shot. You've been taunting me for months. Years, pet. Now that you got my undivided attention, you can't say you don't want it. You can't back down. I won't allow it. You've been asking for it. For me. This is what you get: me. I'll tie you down and fuck you so thoroughly you will be limp by the time I'm done with you.

Do you like broody, protective uber alphas who prefer monosyllabic conversations unless they're in bed and letting their inner caveman do the talking? Do you like sassy as hell heroines that give as good as they get and have more zingers than an episode of SNL? Do you like a sizzling hot sexual chemistry that brews even hotter with a slow burn sort of pace the author sets? Do you like your erotica written perfectly balanced with an addicting sort of story and a dash of suspense thrown in? Well lucky day! Because do I have the book for you!

*She sighed. "That tone is not going to go down well with me, Borg."
"Which tone?"*

"The obey-me-or-else tone, the one that demands servitude. Doing things on command is not a skill I've acquired or have any interest in acquiring."

If you've read the previous books in this series, then you'll remember Elle Cooper, Tate Cooper's sister and now James Bowen's sister in law? If you haven't, no worries, because you can easily read this book as a standalone and not be even slightly lost. Jack Copeland is James's shadowy and grumpy friend that now has a tie to Elle that he's not too happy about. The woman infuriates him almost as much as she turns him on. And Elle absolutely loves to tease Jack to within an inch of his sanity.

***"Who's that?" one of the women whispered to her.
Judging by his language and social skills, the missing link between humans and monkeys.
"A friend of my brother-in-law."***

Elle is exactly the kind of woman Jack doesn't want; fun-loving, slightly flighty party girl that doesn't take much in her life seriously...unless you take aggravating him as a thing, because she does that real well. But beneath the zingers, insults and barbs they throw each other's way, there's such a heavy undercurrent of lust, that you find yourself squeezing your legs together until that final big boom you know is coming and these two will finally CUMBust.

***"You don't want to fuck with me, pet."
"But I do."
"You can't take me on. I like my woman tied up. Ball-gagged. Blindfolded. Plug up their asses. Pussy spread open for me to fuck it however I want. If I take the gag off, it's to fuck their mouths."***

Jack does an upstanding job avoiding all things Elle, until the day where Elle lands in life threatening trouble and Jack is determined to protect her at all costs. He'll do his job and walk away afterwards, but Elle is determined to make him lose all reason and patience in the process.

***"You think I can't even look at you? I want you so fucking badly I can't even breathe."
"Well, I hope your ninja training includes holding your breath for long periods. Or let me ask at the counter, they might have an iron lung somewhere. Either way you said your dick is not in charge here, so order it back to its cave and don't waste my time."***

I gobbled up this book with a pervy sort of glee I haven't felt in a long while. I loved these two together. Nothing beats a good hate/love scenario for me, and boy do these two serve that up on a silver platter. You can't help but love Elle even if she lands herself in scenarios where you'll want to throttle her. Jack is everything I love in an alpha; broody, slightly crass, protective, and a dirty dirty man in bed.

The sexual chemistry between them was so hot, it practically crackled on the pages. I appreciated the slow burn approach the author took and not throwing them into bed together right away. I love a good sexual tension and this book certainly had that.

But beyond the super sexy romance and fantastic characters, Jacked Up had a great plot that served to tie everything together flawlessly. The suspense was the perfect touch. It wasn't so intense that it took away from the romance, but it was the perfect spark to spice things up even further.

Jacked Up was the perfect combination of sizzling hot erotica, romance, and story. If you haven't read anything by this author yet, you are seriously missing out.

On a side note here's a particular secondary character that I'm beyond thrilled will be getting a book because I was salivating for his story the entire time.

Give it to me now, and nobody gets hurt

Tpagirl says

Jacked Up was the fourth book in Elle Aycart's Bowen Boys series. The Bowen brothers have all found their forever love but Jacked Up featured James' best friend, Jack, and Tate's sister, Elle, from book one, *More Than Meets the Ink*.

Elle was gorgeous, quirky, fun, snarky, independent, creative and a little crazy. Her antics had landed her in trouble on many occasions but her charm and resourcefulness had gotten her out just as quickly. Well with everyone except Jack. Jack was an undercover agent, with whom we weren't actually sure, but he had the big grouchy, brooding, reclusive, protective vibe down pat.

Elle had a huge heart and was up to her normal shenanigans when she was at the wrong place at the wrong time, which gave her knowledge of a murder. Jack was called in to "shake down" a witness for information and instead was shocked to see Elle. He immediately went into protection mode and the drama began. Albeit humorous drama, but drama none the less.

Jacked Up was well written and fun with only a few editing errors. It was written in a multiple POV; Jack, Elle and members of the drug cartel that were after Elle. I loved adding in a drug cartel story to keep it suspenseful but at times it was confusing. Even at the end, I'm still confused on a few items. But it was fairly fast paced, full of mystery and intrigue, and a boat load of sex.

Although the Bowen brothers are all paired off, the series will continue. No spoilers here, but the next story

is Hard Limits with an unexpected hero and I can't wait to see how Aycart will pull it off. Additionally, we had a teaser on a long lost adopted sister. It appears we'll see more from her as well. And don't forget Jack's sister, Ronnie, please let us see her story too. Until then....

Catarina says

4 Alpha Stars.

Jack and Elle have a love/hate relationship from the moment they met, two years ago. Elle loves to push Jack's limits and Jack does his best to keep Elle and her annoying ways at arm's length. Until the day Elle finds herself in a very dangerous situation and Jack jumps in to help her...and when does the time they suddenly spend together leads to break every of their limits. But Jack is a guy that doesn't want to get tied, and neither is Elle. But can they ever go back after crossing that line?

I've been waiting for this book pretty much from the moment I've read the first book of the series, a few years ago, and I was introduced to Jack and Ellie and their banter. I've got to say that no, it's not my favorite book in the series, but it's exactly the story I imagined (and hoped) for them. It's packed with action, sexy, sweet and their relationship makes it a hilarious reading. I've said before that this series and seriously underrated; these books are sexy, fun and they have an amazing love story behind.

If you haven't started this series yet, I strongly advise you to do it.

Rating: 4 Stars.

Characters Development: Jack was the asshole anti-hero you hate to love. He was a little hard headed in the beginning, but with the progress of the story he really grows up and you end up falling in love with him. He's not your traditional sweet and kind hero, but he's definitely an alpha and you'll love it. Elle is a nice girl, and she'll definitely make you laugh, but she's slightly immature and her mind is everywhere, which annoyed me at several moments, but overall, she was a nice heroine.

Steam: Hot.

Sensible Subjects: (view spoiler)

Cheating: (view spoiler)

HEA: (view spoiler)

Chi-Chi says

This book has its moments and is rather funny but I couldn't stand how Elle had NO NOTION of safety ever. She works in an international airport but doesn't see why it is such a problem that she switched ID with a colleague, a huge drug dealer is after her and killed about 5 people just looking for her but she refuses to go into hiding, her cover is blown but she HAS to go to a parade in freaking memory of her dead brother???? How Jack doesn't just leave her to fend for herself is beyond me. But nooo, when she finally gets it, he give her a free pass because "she thought it was the right thing to do"!!!!

Also, sex. All the time. Too much of it. It does not replace communication...

[Part of a series, but can be read as standalone. (hide spoiler)]

Rosa Sharon (iScream Books Blog) says

"Every evil has its flip side."

I'm a huge fan of this author and her Bowen Boys. Every book is better than the last and I can't get enough of these characters. The men are strong alpha males with filthy mouths and the women are independent and sassy. When they get together the chemistry is explosive and the sexy time is so good you'll be glad you have a kindle so the pages don't get dog-eared and fall out of the book.

Elle is my hero. No, I'm not confused. I know, it's Jack that's in the business of security and protection. But it's Elle that steals the show with her smart mouth and endless shenanigans. She kept me entertained throughout with her sarcasm and intuition. She never backed down or stopped being herself. She's incredible and I'd love to know her in the 'real world'. Is it just coincidence that she shares a name with the author?

Jack is big, bossy, and badass. He is intense and intimidating. He noticed Elle years ago. He's always noticing Elle, he can't help himself. But he doesn't do anything about it. He knows he's in the wrong business to be able to share his life with someone. He has too many secrets. Being around him is dangerous, so he must stay away. But still...he watches. He wants. He waits. For what he doesn't know, but when he finds it he'll know, right?

The Bowen boys are as fun and crazy as ever. They are a close family that spends time together and meddles in each other's lives. Elle is the sister-in-law of James. Her sister's marriage made her one of them, and there's no getting away from their love and interference in her life. Not that she would want to. At least not all the time. Only when she wants to get away with something she doesn't think they will approve of. She really didn't mean to bring trouble to their doorstep, but she can't seem to help it. Trouble follows her. And so does *Borg*.

Claire Robinson says

5 - **"I hope you know what you're doing."** Stars!

I am a huge fan of Elle Aycart's *Bowen Brothers Series*, each book while hard to put down has also been completely different from its predecessor.

The series has progressed in general as each brother has found and fell in love with his *woman*, but each Bowen has been deliciously different with their own personality traits, quirks and occasional piercings!

"I'm in charge here. And I'm never proper."

Elle is related to the Bowen's by marriage, Jack by friendship. Both have featured in the previous books quite a bit, but Jack has been elusive in his appearances, while Elle has done her level best to rile him up. So basically the two most polar opposite personalities that you could ever expect to meet. Introvert to the extrovert, one a people-pleaser the other a please them-selfer.

"I prefer my women silent."

I think one thing that you can determine straight off the bat with these two is that it is not going to be an easy ride. Both are difficult yet likeable characters, and being completely opposite from each other on pretty much everything really does bring about a nice amount of friction to the slow burn of attraction that builds between them.

"I like my women tied up. Ball-gagged. Blindfolded. Plug in their asses. Pussy spread open for me to fuck it however I want. If I take the gag off, it's to fuck their mouths."

One thing I loved (and I wasn't sure I would) is that they didn't jump into bed with each other immediately. It wouldn't have worked in conjunction with the storyline and extreme circumstances that the author has playing out around them, and considering they have been circling each other for quite a while now, it was great reading how Elle, gradually broke down a lot of Jack's walls during the time they were together.

With her around, everything was a mess – which he hated – but without her nothing felt right.

We delve into the realms of romantic suspense with *Jacked Up*, and the author really stepped up to the plate with this change in story direction from the previous books, it wasn't all about Jack and Elle, and there is a huge amount playing out around the building of their connection to each other.

"Walking away from each other is probably the smartest thing to do. But I don't want to."

The hunter/protector eventually becomes the hunted.

Elle gave me all that I wanted with this book, a lot of which I didn't even know I needed, this couple, and the series as a whole are still absolutely stellar. Prepare yourself for a few surprises as you get to know Jack and Elle on a deeper level, appearances are certainly deceiving when it comes to this couple. You get the usual banter between the guys with James, Cole and Max playing their own parts in the story as the book progresses.

I laughed, cried a couple of times and as usual got a little '*damp*' at the sexy-times between them. Ladies (and men of course) you are in for such a treat with *Jacked Up*!

"You are and always will be my pet."

***kawehi.reviews says**

? I received an ARC via the author in exchange for an honest review. Thank you! ?

Jacked Up? What an appropriate title. "Jack" was another scrumptious short-clipped, alpha dominate man oozing with sex appeal. I swear this man is a no nonsense, don't mess with me type, and is all about keeping Elle- the object of his affections and ironically, the BIGGEST pain in his arse-- from harm.

Jack and Elle's chemistry is what I'd describe as "pent-up frustration," in which, I refer to the dance they do around each other when they're clearly drawn to one another. Jack is pretty much this uptight, scarred character who lets no one in and Elle is this free spirited and feisty spirit. They bring a lot out of each other, and we see Jack's armor cracking and Elle growing tremendously throughout, which is highlighted with a bunch of bickering and hot, hot sex!!

I've been waiting for Jack's story to be told and I felt that Elle Aycart, *hmmm, did she name the female protagonist after herself?! hehe*, did him justice! I loved him with Tate's big sis!! Definitely, a riot that one that gave Jack a run for his money and attracted a hell lot of trouble!! Good thing though that Jack has a knack for undercover, mercenary work!! That man, is certainly one that you want fighting in your corner!

For those who think this is the end of the Bowen series, just wait, because the ending will turn your head upside down!! Sure, baffled me and made me laugh at the same time!

Love this series!!

Elle Aycart says

Here are the first rough, unedited chapters. Enjoy!

Tracie Payne says

DNF. This was the most annoying woman on the entire planet. If anyone needs a poster child for adult ADHD, Elle is your gal. I got to 50% but realized I 100% couldn't stand her and no way would I change my mind so I bugged out.

Rebecca says

I absolutely love this series - the Bowen brothers are alpha sexy, so it makes sense that their friends would be as well, and Jack, or as Elle likes to call him "Borg," is even more stubborn and dominant than the Bowens, which may seem like a recipe for disaster given the fact that Elle is an independent and feisty woman who

can give Jack a run for his money in all aspects of his life, but she actually is his perfect match, and when her life is in danger, Jack and Elle realize that their idea of what's "perfect" for them is anything but.

I've always only seen Elle as Tate's sassy sister; a woman who has a smart ass comment for everything and is a worldwind of crazy, chaos, and fun. But in *Jacked Up*, readers see beyond Elle's party girl facade and understand the pain and guilt she feels for being the girl who always ran away from responsibility. There's a lot more to Elle than what she allows those around her to see, and when she has no other choice but to allow Jack Copeland to protect her, he strips away her barriers and sees the grieving woman she is and he can't help but give into the feelings he's always had for her but never felt safe to act on due to his job, her attitude, and his perception on what he wants in a woman.

Jack definitely comes off as a brash asshole who seems to always be in a bad mood but given the type of work he does, it makes sense that assimilating back into "normal" life would be trying and given the fact that Jack is used to calling the shots and intimidating those around him for Elle to not back down from him and to piss him off as much as turn him on, his attitude towards her is realistic.

Jack and Elle's relationship is one that has a bevy of sexual tension, power struggles and unending torment, and while most people would find this type of connection unhealthy, it seems to work for them because their banter and arguments make them that much hotter for each other and turns into a connection that may not be anything they would have thought they wanted but it's exactly what keeps them coming back to one another for more.

Elle Aycart is an amazing writer who knows exactly what her readers want, and she gives it all to them in a wonderfully crafted, steamy, and suspenseful read.

A complimentary copy was provided in exchange for an honest review.

4.5 Poison Apples (The Fairest of All Book Reviews)

Deserie williams says

self note: not for me

~IreneOust~ says

This is going to be short and sweet:

I love this series.

I love this author.

I love Elle Cooper [even during those few times when I wanted to shake some sense into her]!

I love the banter.

I LOVE Jack!!!

Elle Aycart writes SCORCHING sex! [Note to self: never to read her books while on a treadmill at the gym.]

If you are a fan of this series, this is an absolute MUST READ! You'll laugh, you'll probably cry (a bit) and you'll definitely get hot and bothered! It's been so long since I read this author that I almost forgot how much I enjoy her writing. I hope we get another book in this series because that ending ... LMAO!!

Cheers!

P.S. Even though listed as book 4 in the series, 'Jacked Up' can easily be read as standalone.
