The beast is alive and prowling the high seas. As extremist Islamic pirates, armed and supported by a powerful Saudi terrorist, prey on civilian vessels in the Gulf of Aden, America aggressively answers with serious muscle -- a next-generation littoral warship with a full range of automated weapons systems that the enemy has dubbed "Satan's Tail." However, unforeseen technological problems combined with the suicidal tendencies of a fanatical foe mean support is needed from above -- and a pair of Dreamland's awesome Megafortresses and their Flighthawk escorts are dispatched to the war zone. But bitter professional rivalries threaten to damage, perhaps even destroy, the mission, as a vengeful opponent takes advantage of the disruption -- to strengthen his outlaw navy and set its sights horrifically high -- raising the stakes in a battle the U.S. and the world simply cannot afford to lose.

One of the best in the series. I was actually left sitting on the edge of my seat in different sections of the book. Can't wait to read the next.

### **Tom says**

Not Liddell-Hart, nor the naval journal "Proceedings," but great techno war images paced to a strong, martial drumbeat. Respectful to the warriors, but yet a good read.

### **Jay says**

Another well done story of the Dreamland crew.

### **Bill Donhiser says**

As with all Dale Brown books Satan's Tail is action packed with a good story line.
