Loads of great parenting advice for young kids to teenagers. This book has helped my husband and I with our strong-willed daughter (3 1/2 years old). Things don't always feel so much like a fight with her anymore. Highly recommend this book!

Kirsty Dewrance says

Nathan Parker says

I read through portions of this resource for a marriage and family counseling course in seminary. Dr. Dobson's books on parenting are well-written from a person with years of parenting and family experience, and they are written from a Christian standpoint and promote traditional parenting and family values. I would highly recommend this book to parents, as well as marriage and family counselors, as well as pastors who are involved in counseling sessions with parents.

Earl Lester says
