The Marriage That Couldn't Stay in Vegas Phoenix Rayne

The catchphrase “What happens in Vegas, stays in Vegas” is supposed to be the code, but what happens when it doesn’t remain in Vegas?

Phoebe Alexis Courtland had a plan. As a paralegal studying for the bar, she decided while in Vegas for a conference she would let off some steam with her friends. When Phoebe wakes the last day of her weekend trip to Vegas, she finds one of the biggest princess cut wedding rings on her ring finger while lying on top of a naked chiseled chest god. Phoebe remembers nothing of her drunken night of love and is determined to have the marriage annulled immediately. After Vegas, Phoebe is forced to go to her now husband Xavier’s Ranch to get him to sign the divorce papers. But, Xavier won’t sign them without a fight. Xavier has a few tricks up his sleeve for his new bride. Will Phoebe be able to get her divorce?

BooksandBeyondFiftyShades says

What happens in Vegas stays in Vegas right?? Whilst in Vegas with her friends Phoebe wakes up one morning on a strange bed ON TOP of a strange man. With no recollection of the previous night she comes to the conclusion she must have had a one night stand with a stripper, who else would have such an awesome body right?

It soon becomes apparent that said stranger is not a stripper nor a one-night stand; he is in fact her new husband Xavier. But Phoebe has no idea who he is at all, even after he tries to jump start her memories. By the time she does remember him it's too late he has left.

Forced by her family to locate Xavier to divorce him, Phoebe soon finds herself thrust into life at Xavier's farm and meeting his family. After some misunderstanding and time apart Phoebe finally realizes she has feelings for him despite all their turmoil. So what happens in Vegas stays in Vegas?? Maybe it shouldn't.

Another fantastic book by a brilliant author. I loved Xavier from the start of this book he never stopped fighting for Phoebe and he goes that he will never leave her. Even though he did, he apologizes for it. I loved the way that he gives her their date again to try and kick start to her memories of him. It was brilliant the way that even though it hurt him he gave her space to decide for herself if she loved him or not.

I laughed at several points if this book especially the parts with Phoebe in it... the first paragraph had me in stitches. It's obvious that Phoebe loves Xavier as soon as she remembers him although she is quick to jump to conclusions I'm glad she lets people mainly Xavier explain. I really enjoyed this book and would highly recommend it to others.

Neila says

short read.....not what I was expecting

sha'kia says

Great short read

Vegas where any thing can happen as long as it stays in Vegas, was not the case for phoebe. A drunk night off a dare leads phoebe to her husband Xavier a country boy. The morning after she doesn't remember a thing, Xavier the gentlemen tries to jog her memory only to be pushed away. Back to their lives phoebe tries to annul her marriage only to discover she really loves Xavier. Xavier family comes to meet phoebe but she afraid, so a chat with his mother seems to help. Drama sends phoebe packing an back home where she dives back into work until her birthday exposes her hidden secret from her family and friends. Xavier makes a deal with phoebe that changes her life, and they remain together kids and business happy they let what happen in Vegas keep them bonded.

Sophia says

.....OKAY

That was just weird!! It was all over the place. One minute she was happy the next she was upset and leaving. Then four months turns into a year all on one page!!

ILoveToRead says

Very sweet and romantic. Not your typical IR book. Loved the way the story played out with the heroine getting to know the hero, while on the journey to rediscovering that she had fallen in love with him. Couldn't have done without the unrealistic duration of the trip she took while trying to figure out what she wanted.

Anino says

Before I go any further, please allow me to say that I thank God for Amazon's \$11 Kindle Unlimited subscription service. Being able to read a ridiculous amount of books for \$11, enables me to avoid having to get a refund on books that don't quite measure up on the quality scale.

Regarding this book, it was OK, but it wasn't spectacular. I could see where the author was trying to go with this, but in my opinion, she should have used a beta reading group, along with a good editor, before she released this book.

It's not to say that this book was craptastic, but it could have been better.

Giving this one: 2 solid stars.

Zandra says

No. Just, no.

This is a complete DNF. This story is so disjointed that I fear the heroine is not mentally stable. She is just so hot and cold that it doesn't make sense. Also, why is everyone hooting and commenting on them being a couple? Are they that "really, really, really ridiculously good looking?" :insert Zoolander face: Also, I'm not sure what she was going for with the male lead, but he's a total creeper. Too much! I vote no.

Richelle Robinson says

3.5 Stars

Phoebe wakes up married to Xavier while in Vegas. She has no recollection of their marriage and wakes up confused. The story started out cute but Phoebe got on my nerves. She was so up and down, wishy washy and it was super annoying. Either you want to stay married or you don't! It's really very simple. Xavier wasn't as bad as her and he more or less made the story for me. This was my first time reading anything by this author and it was a cute read. If you like insta love stories this will be perfect for you. The narrator did a good job on this story as well!

audio copy was given for honest opinion

Rikenya Hunter says

I enjoyed this read, it was great! Phoebe got on my nerves at times because she was so flip-floppy with Xavier, but that's what made it enjoyable because? I couldn't predict what would happen next and that I love! Great job Phoenix!

Jamie *Gypsy Smut-a-teer* says

Ummmm, well.....I see where the author was going with this, and think with some edits it could have went there and I would have loved it. But the only thing I can come up with otherwise is it was sort of just a mess instead.

Okay, let me explain. I must have clicked something on fb or something because suddenly I have all of these books showing up on my feed, and they are catching me. This was actually the first one that caught my attention and I just couldn't stop thinking about it. So I went on the hunt but couldn't find it again. Finally after a week or two it showed back up and I snagged it. Since I had only read the blurb I wasn't aware. It was only 94 pages, (didn't bother me, I'm behind on my reading challenge).

The first page I was instantly hooked. She wakes up, not sure where she is, or who's in the bed with her, and remembers absolutely nothing of how, when or where of anything. Thinks she slept with a stripper, and gets out of there. Yes, I love these accidental Vegas marriage books, especially if there is an accidental pregnancy too (this one didn't, just FYI). Problem is everything went down hill from there. Things kind of were all over the place. She didn't want anything to do with him, even after he explained everything to her, then out of nowhere she goes with him but acts like she doesn't want to, but then the very next sentence she wants to hold his hand, or touch him or kiss him. This went on a lot. Hot and cold. Sadly, I could actually just keep going on and on especially with things that happened in the second part of the book.

I hate writing bad reviews. I know somewhere out there, there is an author who put their heart into writing a book and then I hate to be the one to run it down. I just think the book needed some editing.

KiaBoO says

Sometimes you just know

I usually don't like novellas, because I always feel like they should be longer when I get to the end, but this one gave me a full story that I thoroughly enjoyed. The saying goes what happens in Vegas, stays in Vegas, but sometimes you have to break the rules, especially when it involves a marriage. In this story you meet Xavier and Phoebe, who shows you that sometimes you don't need years to know you're in love with someone. When you know you just know. Take the journey with them as they get to know one another to see if this is something that should continue, or was it all just one big mistake. This book begs the question, is there a such thing as fate? Do soul mates really exist? Is there a such thing as love at first sight? Read this great romance novella, and you be the judge.

EbonyMonae says

This book was so annoying. The author had a good concept but she did not develop her characters or the story at all. I don't have not vision of what her characters look like. Why was Xavier so against falling in love? One minute they were together then the next she was like I want a divorce. She actually had a good man that was trying to give her the world and she did not want that. Phoebe really pissed me off throughout the whole book. Xavier made me mad as well. I would not be giving you a million dollars to find yourself. Find out what you want then you come find me.

This writer has good concept but need MAJOR work.

Tiffany says

Her hot and cold attitude toward him and his tantrums as a result of them annoyed me to no end. This book was, at once, rushed and laggy, disjointed and cookie cutter neat. Just too much up and down and not enough character development. Maybe this is a part of a bigger series that more adequately explains all these sort of polar personality changes, idk. The concept is a cute romantic one, I just don't think it was fully developed.

Rena says

Okay read

For her to be a grown woman, Phoebe was very childish and her tantrums were uncalled for. She rather run away instead of communicating and listening. I really was not liking her. Xavier was a good man and put up with a lot from Phoebe. Regardless, his heart wanted who it wanted. I wanted to see or read the development of the love or chemistry between them, but I really feel the connection. Some things didn't make sense to me

like the birthday debacle. How did the family know to show up there if Phoebe and Xavier wasn't speaking? But I guess, some things are not meant to be answered. Overall, it was okay read.

JENNIFER says

I can say that the concept is nice. The execution was good. Phoebe got on my last nerves. I guess that means it was good writing if it could pull that much irritation out of me. Phoebe gets married in vegas and after that she behaves selfishly and childlike. Xavier is pretty cool. He's pretty innocent and hard working. Phoebe, the way she behaves made my head hurt. I almost stopped reading, but the concept kept me reading, along with Xavier. For some reason we never find out what happened with Mrs. Luther, Sr.
