## **The Steele Wolf** Chanda Hahn

After finally settling into her new life at the Citadel, Thalia is reunited with her father, who is disturbed at the changes within her. Risking banishment, Thalia must work to prove to her clan and herself that she is still capable of leading them. The problem is, her memories haven't returned, and she cannot shake the feeling that she doesn't belong.

Thalia discovers that betrayal runs deep within her clan, just as she sets out to join Joss and Kael in doing the one thing she fears most: track the Septori to save Joss' kidnapped sister. Along the way, she must confront her own fears on a journey of self-discovery that will take her deep into the stronghold of Denai; as they travel to the ancient floating city of Skyfell.

## From Reader Review The Steele Wolf for online ebook

### Kathy \* Bookworm Nation says

I flew through this one, had a hard time putting it down. This picks up where the last book leaves off. Thalia is still missing her memories, but trusting that the man who showed up claiming to be her father is telling the truth. It was nice getting more back-story of where Thalia came from and what she was like before losing her memories. Some things were answered and more world-building takes place.

It's hard to write reviews for second or third books in series without giving things away. I enjoyed this one quite a bit. I like the idea for the story, the characters and the writing. I was glad the relationships with Thaila-Kael-Joss were present a little more, especially that we get to learn more about Kael and Joss. Especially Kael, we learn more of what motivates him and why he sometimes acts the way he does. I liked Kael a lot more this time around, not that I didn't like him before. The romance was still just okay for me though, it's fine that it's not the main focus, but I would like more feeling from Thalia.

Anyway, I thought this was a good middle book. It was pretty strong and progressed the story along, it does wrap up quickly and I'm glad I have the next book on hand to start right away.

#### Content

Romance: Squeaky Clean

Language: None

Violence: Mild

Religious: None

### Gabs {My Full Bookshelf Reviews} says

4.5 stars

This is the sequel to Iron Butterfly, and it is \*almost\* as good as the first. Really, it is. There were a few flaws in the story, but I was absolutely hooked from the start, so I really won't do much complaining in this review.

First off, Thalia finds her family and starts to remember her past! YESSSSS! It was so awesome to read about her finding out about how she was before the Septori took her.

We have more Kael in this book. If you thought he was wonderful in The Iron Butterfly, read the Steele Wolf and be prepared to swoon. He's adorable! His soft side is shown more in here, and questions are answered about why he is following Thalia around. (And, no, it's not because he is a stalker, he has a legitimate reason!)

There's also more Joss, but as you know I'm not team Joss, so...moving on.

I loved the idea of Skyfell and the dorabills. I don't think I would live there, I'd stay in Skydown, but it would still be cool to live on a floating city!

The one thing I didn't like was that when Bearen hosts the Kragh Aru, it reminded me of the contest for

Merida in Brave. Even Thalia's father sounds like Merida's father.

All in all, though, it was amazing! I really enjoyed it. I will definitely be reading the Silver Siren when it's released. (Please be soon!!!)

### **AmberB says**

3.5 Lets start off by saying I have been team Kael from the very first chapter of the series :-) Ok, now for this book. I was looking forward to read this since the ending of Iron Butterfly. I was curious to see how everything was going to come together. This one at times was slower to read. I wanted and needed more action, more things needed to happen and/or it had to evolve quicker. Was it still enjoyable, yes! The tension between Thalia and Kael is more than off the chart. This book introduced many new characters and brought back some familiar faces!!! I fell in love with the big teddy bear Hemi, but i would have love to have Darren play more of a role since him and Thalia had a good relationship before.

I do have to admit that I went into this book thinking that this was the last one... Ummm I guess not. That being said I cannot wait until the next one. I NEED to find out what is going on. I do have my suspicions so the next book can't come fast enough.

---

### **Sibil says**

4.5 stars

This was as great as the first one! Thalia and his group are near the end of the story and I really need to know what would happen!

I really loved the wolf and I hope to see more of him!!!

Italian review of the series here: <http://theroadtohellispavedwithbooks....>

### **\*?✿✿ Maki ✿✿?\* says**

There was much more characterization put into this book. I breathed a sigh of relief when I realized that. Even characters that aren't around for the entire story (Thalia's father, the rest of their clan, the people in Skyfell) are described more than any of the main characters were in the first book. It was nice to see improvement there.

We were also finally allowed to see the main characters' histories. Thalia regains her memory, we learn more about Kael, and we find out that Joss actually has a family. There's also finally an explanation of who the villains are, what they're doing to the people they kidnap, and why Kael seems to be stalking Thalia.

Skyfell was a fun city. I loved the fun descriptions of the city and its transportation.

Now, if only that obnoxious love triangle would end! (I may be a bit biased in this case, though. I'm totally

rooting for Kael.)

### **~Zaky~ says**

Better than the first one, interesting development in characters & liked the progress of the storyline which keeps you hooked till the end.

Happy to see Kael more in this book;D

---

### **Valerie Waters says**

Still a good one. There were editing issues that were annoying. Oh and joss bugs me. He's too possessive and assuming.

Jan 18,2013 This book was so good! I loved the characters and the ongoing story development. I really like this author. I am a little annoyed because this is the second series I have read by her that isn't finished. I am starting to wonder if there will be an ending to this series and the other one. I really wish there would be! Oh and still totally confused on the era. It's like mid evil times? But then Thalia puts on a short dress or pants?!?! Hum. Super confused about that. And a little bit of editing problems. But these things didn't bother me enough apparently since I gave it 5 stars.

### **Ann-Kristin says**

Hmm.. I'm not excited about the ending that let everything hanging.

I know there will be a **3rd book autumn 2013**, still I'd wish for some closure in book 2.

Book two gives you more of the love triangle. Team Joss (blonde, romantic, blue eyed), Team Kael (dark, dangerous, locked emotionally, protective) and Team Fenri (Big, warrior) I am a little sad that Team Fenri sort of..isn't in the competition anymore. I would have loved to see more of a big protective warrior! There's some twists along the way, some "oh no" moments and some "aaawwww" moments. I wish there would be more "oomph oomph" moments, but I know this is a YA novel.....

I love the dialogue with Wolf and Faraway! Esp Wolf since the original language is quite close to mine, ja.

I am so glad I downloaded "The Iron Butterfly" on Amazon and then got & read "Steele wolf". I love this world! I am confused as to *when* this is supposed to be happening. It's medieval-ish, then suddenly Thalia puts on shorts!

It seems as they forgot along the way that a Denai is supposedly working with the bad guys? Or have I missed something?

**Waiting for autumn 2013 and "The Silver Siren", book 3.**

---

**Alicia says**

I love being surprised. Usually I know where something is going in a story so it makes it that much more special when I am taken unaware! Sometimes though this can be bad. However in this instance that is not the case. I was not ready to put this book down, it ended much to soon :)  
There is a lot of action, betrayals and new places to travel. I am looking forward to the next installment!!

---

**Parul Puri says**

First off- I enjoyed this much more than the first book than I thought possible. It was a roller coaster of emotions.

**\*SPOILERS IF YOU HAVEN'T READ IT YET\***

JOSS AND KAELE:

THEN WHEN KAELE AND THALIA FINALLY KISSED:

SOMETIMES I FEEL LIKE I'M THE ONLY ONE WHO SHIPS THEM.. COME ON GUYS!:

I cant wait till the third book..

---

### **Helen Grace says**

Five Stars for this amazing book!!!

The Steele Wolf is the sequel of Thalia's adventure together with Joss and Kael, plus more new characters from Thalia's clan (Valdrystral) and Joss clan (Skyfell). This book is one of those books which hooked me to read it from the start to end with so much eagerness. Excitement is on every chapters that you would hate to put down the book to do something else more important (like eating or going to bed because it's already 3:00 AM and you have to prepare for work in just a matter of 2-3 hours. LOL!

Thalia had definitely became more stronger and acquainted with her powers. Joss is still the cunning and beautiful Denai. And, Kael ---> OMG! I fell in love with Kael here! He's just always there for Thalia and it's just soooo freakin' cute that he hides his feelings for Thalia with his very nasty attitude - those moments that he touches her hand or face and he would notice that he is showing emotions, then he would snap out with his angry voice again. By all odds, I am on team Thalia and Kael!

I really do hope a movie will be made out of this series!

I can't wait for the 3rd book, The Silver Siren... Puhleaaassee hurry??? I am such a big fan, Ms. Chanda Hahn.

Oh, for flaws? Just some editing problems but it's not really a big deal for me.

---

### **Lily says**

Sigh. . . Kael. . . I think I'm in love. . .

---

### **Deanna says**

Disappointing ending. But only because I want to know what is going to happen next and I am going to have to wait a long time before I find out. Ha! And that is why I prefer to read book series that are already fully published - no waiting involved.

Loved this book just as much as the first one, maybe more? It's hard to tell since I really like both of them.

I will say that I have been DYING to see more going on between Kael and Thalia ever since they first met in The Iron Butterfly and when he was absent from the first part of the book I was saddened because I missed him. But then, tada! he shows up and I was thrilled.

(view spoiler)

---

**Elizabeth says**

Spoiler alert!!!!!!!!!

I love all of Chanda Hahn's books!!!<3 however the plot does get a little repetitive concerning the guys. See how alike Brody Carmichael is to Joss? And Jason is to Kael? Gosh she even has the same thing happen, she likes the popular guy and the other guy is rude and mean, but then she gets to like him. Even-though I absolutely love these books and the other ones, I wish Hahn would branch out a little more. This book contains action, love, humor, and everything else making a great read. I would absolutely recommend this to everyone:)

---

**Robyn Campbell says**

I love these books. I really need the next one. Who knows how long I have to wait? I just finished this book in little over a day. I did not want to put it down. I fell in love with the characters and their struggles. Although you see which direction the characters are headed in, You can help but love their direction.
