Colet Abedi

Wild Colet Abedi

My name is Wyld Buchanan.

Fresh out of college, I have a coveted intern position at the biggest movie studio in Hollywood, and probably the only virgin left in tinsel town.

One night, I decided to take fate into my own hands.

I was going to lose my innocence to a sexy stranger.

He thought I was being mysterious when I told him my name was Wild.

He thought I was just another starry eyed girl looking for a ticket to the shinier life.

He thought wrong.

And what are the odds I would ever see him again?

I should have taken that bet because who would have guessed my sexy stranger was Jamie freaking Donovan.

Mr. Hollywood himself.

Things were about to get a whole lot wilder....

cupcakes and bookshelves says

Book #1 in a new Duet, the Wild was my first Colet Abedi read. It was intense, charming, unique, sweet, sassy and sexy as hell ... with a cliffhanger that leaves you wanting. I can't wait for more, book #2, please hurry.

*ARC kindly given in exchange for an honest review, thank you so much

Desi says

First time reading this author and she did not disappoint and now she has a new book fan!

Right from the start, she captures my attention. Her words flow effortlessly through the pages and that makes my "reader" heart ❤ sing with happiness! I thoroughly enjoy a book with defined characters and a storyline that us readers can connect with. That's what this book is, my fellow book lovers.

Wylder's personality is full of spunk, sass, strength and beauty! She will have you laughing out loud, all while feeling her passion for what she loves and her reservations in trying to protect that organ that beats for love.

Mr. Jaime Donovan is freaking FANTASTIC! He will make your heart skip a beat! He emits many swoon sighs! He is your "All Alpha" I have total control kinda fella.

So when two individuals cross paths thinking it's just a one night full of adventure, then actually walk the same path once again, only to learn that they live, breathe, sleep in the same world coincidentally causes FIREWORKS! Will those AMAZING sparks and chemistry they shared that one night be enough to hold onto or will the world of glam they both live in determine their destiny?

I could not get enough of these two and I can't wait until book 2. We all swoon over the guy in the book, but Wylder is my favorite of all. That Kerri and Tony are quite the trip as well. Everyone needs a best friend like those two in their lives!

Happy Reading book lovers!

Bubbles The Book Pimp says

Part 1 of the Wild Duet.?

Wyld is an intern at a movie studio, following a heart break she decides to attend an exclusive club with her best friend. She has a mission to lose her virginity and have a good time. Finding herself in the arms of a smoking hot man and well and truly deflowered..

. Wyld finds herself unable to forget him... especially when she shows up at his house with scripts for him to read. What follows is a great story of kiss chase ??...because Jamie cannot get Wyld out of his head either.?

This book is an attention grabber and from the very first page I was whisked away. This is a very fast paced, chemistry packed serial, filled with likeable and enjoyable characters.

This book being the introduction, I'm looking forward to seeing how the cast and their relationships develop and grow beyond their enjoyable lust packed interactions.

There is some true angst and emotion bubbling beneath the surface within her past and I intrigued to see how she and Jamie overcome her doubts. I didn't realise it was a serial and the cliff hanger ending was a tad abrupt for me. Otherwise this was a fantastic way to spend a couple of hours. I will defiantly be looking out for the next instalment.?

Sofia Lazaridou says

Wild is the first part of the Wild duet. The main characters of the story are Jamie and Wyld. Jamie was my favorite, while Wyld has to put on a lot of effort to impress me in the second book. I wouldn't read Jamie's name in the right way. I kept reading Jamie Dornan instead of Jamie Donovan and even though this has nothing to do with my perspective of the character I wanted to mention it. He is book boyfriend material and he did nothing but prove that he was into his relationship with Wyld. He did everything a good boyfriend would do and I am in love with him. His lady is another story. One of her friends mentions that she is a drama queen and I couldn't agree more. Every single part that had drama started because of her, was continued by her and ended with simple logic or words. This is not the kind of heroine I want in my book. By accident, I read the last few sentences of the book when I was halfway through it and I knew that Wyld was going to blame Jamie and make a huge deal out of it without having all the facts or even thinking. I think that she just wanted to play the victim and that was it. I will explain more on my review for the second book. The three stars represent the average rating from these two characters (5 for Jamie, 1 for Wyld).

Stephanie says

It is hard to give this book higher than 3 stars when I didn't care for the heroine. I tried really hard to like Wyld and just couldn't do it. I found her annoying and kind of a mess. I adored Jamie though.

I do want to find out what happens next in their journey.

I voluntarily reviewed this book.

Laundry says

Holy crap, did this story start with a bang. There are so many tropes in this story line and I seriously cannot get enough of it. I will warn you, this does have a cliffhanger ending. I usually put off reading cliffys until the series has been published in its entirety, but the blurb about this one sucked me in and there was no turning back.

Story Line: I wasn't kidding when I said there are quite a few different tropes in this story. For starters, Wyld is a v-card holder. Of course she loses that card within a couple chapters, but still. Then there's the whole sex club situation. Third, Hollywood mega hottie relationship. Jamie is seriously so delicious. And he can cook? OH EM GEE. Age gap? Yep these two are like 12 or 13 years apart. And lastly, there's the whole workplace romance going on - past and present. So seriously, pick your trope. You won't be disappointed. The story of how Wyld and Jamie meet is uber hot and slightly funny (after the fact). But Wyld has a super complicated upbringing between both of her parents so she's jaded - and understandably so. So their path to happily ever after (which, so help me God, if book two doesn't bring it, I will sob uncontrollably) isn't exactly a smooth one. Wyld pumps the breaks. Jamie pushes forward like the perfect ALPHA he is. Seriously. I am BEGGING for book 2 to be released early. Like tomorrow.

Interaction: Wyld's inner monologue is pure genius. And I say that because I swear to God, I've said some of the exact same things in my head before. Great minds, right? But in all seriousness, Wyld is snarky, sarcastic and strong willed. She's total girl power. And then there's Jamie. Sweet baby Jesus, how I love him. He's

gorgeous, obviously. But he's also super, duper alpha with a side of sweet and cuddly. He's the total package, ladies. And Wyld knows that. But when you come from so much brokenness, it's hard to see light through that darkness. Thankfully, I think Jamie will shine through misconceptions and fear and turn out to be her perfect match.

Laundry: I'm going to put this out there right now. Wyld is my hero. She hangs onto that v-card for 22 years. Not really on purpose, but still. Then she decides enough is enough and loses it at a Hollywood laundry party. **FOR SERIOUS, Y'ALL.** Can we all just take a moment to give this woman a round of applause? And those scenes at the party? My toes and fingers are still tingling from how good they were. In fact, is it too soon for a re-read? Jamie is a man in charge and Wyld is a firecracker. It is no exaggeration when I say their laundry is moan worthy.

Depth: For me, the meat of this story comes from not only the budding relationship between our two love birds, but also the details of the Hollywood movie production scene. I loved reading the snippets of what their world is like. I truly appreciated learning a few ins and outs of what really goes on when a script is put out into the world. And Wyld's determination to make it in that world by working her way up from an intern? Seriously, she's Super Girl - smart, witty and has a super mega hot guy blowing up her phone. Where do I sign up? No really...

Wild was a quick but incredibly fulfilling read. I loved the chemistry between not only Wyld and Jamie, but also the roommates as well. I eagerly await the release of Wilder.

Luisa Rivas says

When I started to read this book I was worried because I thought it was too kinky for me. The book starts in a sex club in Hollywood. Hedonism is the rule in this place!

Wylder Buchanan's life ambition is to be a screenwriter. So, right after graduating college, she hightailed it to Hollywood and rented a house with her college roommate Kerri, and got a job as an intern at one of the big film studios.

The good thing about being Kerri's friend, who is a daughter of billionaires, is being invited to secret parties. Wyld is anxious to live up to her name and also to get rid of a heavy burden, her virginity. At the party, she meets up with this one stranger who captivated her and he was just perfect for the role. After one very hot night, she's well rid of her virginity and she has no plans to see him again. Until one day, she gets instructions to take a script to Jamie Donovan, the best movie director in Hollywood, and wait for his answer regarding the script. And guess who the guy turned out to be?

Jamie is the eternal bachelor, never taking a woman seriously. Due to his status and power, women throw themselves at his feet, and his sex life is boring. He was worried about it when he spotted this striking girl at the club. And his libido fired up immediately for her.

Kerri lived in a house where her father was a serial cheater and her mother was a submissive, suffering wife. She doesn't want any Hollywood celebrity, she wants a normal guy who will worship her.

They embark on a hot fling, with rules of just sex, but their chemistry, the way they communicate and get along, the fun they have together, tell another story.

And just when I'm getting to enjoy the ride, the book ends in a cliffhanger . . . to be continued.

Sissy's Romance Book Review says

Wild by Colet Abedi is book One in The Wild Duet series. This is the story of Jamie and Wyld. Wyld is a 22 year old virgin and a new intern in Hollywood...so she knows she probably the only virgin in town. Wyld friend Kerri gets her into an exclusive club where she plans to move forward into loosing her innocent status and forgetting about bad breakup with her ex boyfriend, Henry. Wyld thinking that her one hot night would be just what she needed....but the one night stand turns up being someone very important to her job. Neither Wyld nor Jamie could forget that night. The sparks are still flying high and far between the two. But as with love it doesn't go to smooth which sets us up for the next book and installment in their story....got to have it ASAP.

Mg ♥ The Bookishmedialite says

I have a love-hate relationship with virgin/billionaire books. I love to read them, but sometimes the insta-love connection pissed me off. It's just that there are times where it feels forced. And this was one of them.

And while I loved Jamie fucking Donovan, his relationship with Wylder was not my favorite. Well, more like I didn't like Wylder. To be honest, Jamie made the book for me. He was just the kind of hero I loved to read about—sexy, controlling, dominant, possessive. If it weren't for her, then I think I would have enjoyed the book more.

Let me say though that even with the issue I had with this story I do think it's one that a lot of people will enjoy. It was well written, sexy and with a hero worthy of some panty-melting moments. I will be definitely reading the next installment—I need to know what is going to happen next.

Jennifer says

Earlier this year, I read Colet Abedi's novel, Tame, which was anything but. So when the chance came along to read Wild, I couldn't resist the temptation.

In this case Wild refers to the main character, Wylder Buchanan, a young woman in her 20's who is up and coming in the industry side of show business. When the book begins, she has recently broken up with her boyfriend after discovering he has cheated on her multiple times. Due to circumstances beyond her control in her love life, she's remained a virgin. But she's decided the time has finally come to change her status. When she confesses her thoughts to her best friend, Kerri secures them both an invitation to one of Hollywood's most exclusive clubs, a place where Wylder is guaranteed to lose her virginity.

Wylder's scheme plays out to perfection when she meets a gorgeous and anonymous man at the club. Their attraction is immediate and irresistible. Within moments of setting eyes on one another, they disappear into a private room for the rest of the night. The next day, Wylder returns to her usual life although thoughts of her night with the mysterious man are never far away. When she is sent on a work errand she unexpectedly comes face to face with one of Hollywood's most famous directors and realizes he is the stranger from the club.

Once their mutual anonymities are stripped away, Wylder and Jamie Donovan confess that one night wasn't enough for either of them. The two embark on a passionate affair, one that poses far more risk for her career than his. The author has a background in television and film herself, so the Hollywood setting of this novel comes across as authentic, which lends a deeper interest to a compelling if unconventional love story.

Wild is the first book of a duet, and does end on a doozy of a cliffhanger, but try not to let this discourage you from one-clicking this read. Book 2 is scheduled for release in just a few weeks and I for one am dying to see how Wyler and Jamie's story will conclude. If you're looking for a sexy, unputdownable weekend read, this is a great one.

Logan Hr says

I'm done, but I'm going to need book 2 pronto!!! what a wild (pun intended) ride!!! I loved loved loved every page of this amazing book!! I can't wait for book 2!!

Catty Jane says

*** ARC Received for Honest Review ***

3.5/4 stars

This is a hot and wild start to a super steamy and passionate romance. Wylder not only has a great name but she is fun, sassy, and not going to take anything less than what she wants from a man. That is until she meets Jamie f-ing Donovan. The super hot and talented Hollywood director. This quick read is a great set up for more off the charts sex. And if where this book ended is any indication, there is going to be lots of drama to come. (Review by Terri "Jane")

Lauren Orr says

I received an ARC of this book for an honest review. Where do i start? The beginning of this book was definitely my favorite part of the story. The undeniable connection they had and the dominance Jamie showed at the club was H-O-T! I'm not gonna lie I was a little bummed that he isn't that guy in real life. I have a hard time seeing him as a playboy. I like Wylde too. I would like to know a little more backstory about her childhood to have the sympathy needed for her not so great childhood.

This book definitely was shorter then expected. I finished it so fast and was bummed when it ended and I realized there would be a second book. I feel like the end would have been better if we didn't see Jamie's POV about Stacy earlier in the book.

I know that every women fantasizes their men differently. While I prefer more of a bad boy who isn't so nice, I can't deny the appeal for someone like Jamie Donovan. I will definitely be waiting to see what happens next with Jamie and Wyld.

Jennifer Pierson says

Colet Abedi is a new to me author, and I absolute LOVED her talented writing style that was seriously addictive, as I couldn't put Wild down until I devoured every last page. Wyld Buchanan, a young woman fresh out of college, who was an intern for the biggest movie studio in Hollywood, finds herself still a virgin, which irritated her to the point that she was going to get rid of it to a stranger. So off to a sexy party she went with her bestie, when she saw the perfect hot as hell stranger who would fit the bill perfectly, and spent a super insanely hot night getting rid of her innocence. She never thought she would see the man again, however, she would be wrong. See, that sexy stranger was Jamie Donovan, a huge Hollywood name, and she was thrown for a loop when an errand for her job landed her at his house, which started a wild ride for her. This story gripped me from the very beginning, especially since it started out with the sexy times lighting the sheets up from the get go between Wyld & Jamie, and it only get better from there. With the complications of the chase, the push & pull was frustrating in that hurts so good way, as Jamie wasn't going to let her go, since he was determined to make her his. And since she hasn't had the best luck with normal men, she was a bit gun shy at the beginning anyway. Add in some hilarious secondaries, and a few f-bomb worthy twists, you can see why it's such a fast paced & amazing read. Now, that ending left me hanging off the side of a cliff, so now I have added Ms. Abedi to the list of authors trying to KILL ME DEAD, and hash tagged her #EVILWHORE FOREVERMORE, which means obviously I NEED the conclusion of this Duet IMMEDIATELY! In the meantime, I HIGHLY HIGHLY HIGHLY RECOMMEND TO ALL!
