QuinRose , Mamenosuke Fujimaru (Illustrator)

Alice in the Country of Clover: Bloody Twins QuinRose , Mamenosuke Fujimaru (Illustrator)
The fantasic sequel to *New York Times* bestselling manga *Alice in the Country of Hearts*

Tweedle Dee and Tweedle Dum are the "Bloody Twins", amorous and affable killers who are able to transform themselves into adorable children or suavely handsome adults. As the gatekeepers to the Hatter Mansion, they tried to kill Alice once. Now they are hopelessly in love with her. Will either Dee or Dum win Alice's affections, and more importantly...will she survive their screwball courtship?

From Reader Review Alice in the Country of Clover: Bloody Twins for online ebook

Adriana says

The art is still insanely pretty and the guys are still gorgeous but, while the situations overall were some of the funniest, I could just not get over the fact that the Alice seems to get over the fact that the twins are kids a little too easily. Plus all the jokes on how 'tired' Alice must be after 'spending time' with the twins got a bit tired.

Not my cup of tea, but not bad enough that I regret reading it.

Simon says

I wasn't as impressed with this book as I was with the "Country of Hearts" series. I'm hoping that Cheshire Cat Waltz is better (the Bloody Twins are just kinda weird, even when they're adults).

Jessie Potts says

Ok... So I was a fan of In the Country of Hearts, and a bit pissed that Tokyo pop closed, but when I heard about In The Countey of Clover, I was expecting it to be similar. Visually it was similar, but It followed the storyline of Alice falling I love with Dee and Dum. Then at the end there were brief one shots of her falling for Vivaldi, Blood, the Cheshire Cat Boris and Gowan.... Even when I found out it was based on a video game I still didn't follow as to why Alice was so in love with each at the end. I know how dating games work, but since this is a manga series I'm not sure there will be a cohesive plot line.

Boris will get three or four volumes and then there's 'my Fanatic Rabbit' being released later. So I'm guessing each manga (or set of volumes) will be about a different plot line and love interest for Alice.

If this is what you are looking for, or if you love the dating game then I recommend this.

Plot: Alice and the Hatters' mansion has moved into the Country of Clover. Dee and Dum show Alice that they have the ability to grow or shrink their bodies, they still call her Big Sis. They are not blood related but if any form or hint of sibling love bothers you just be aware. The actual plot takes a back seat to their growing love, there's an assembly but we aren't sure what's going on or what's being decided because we are reading about Alice blushing or thinking about the twins. The twins are just as bloody and violent as ever, they kill, they slice and they enjoy it. There are hot kissing scenes and a lot of blushing, but the 16+ age recommendation is mostly for the suggestiveness rather than anything hotter.

All in all I will buy the first Waltz of the Cheshire Cat to see if it's better, or just about her falling in love with Boris. Good artwork, good size, and interesting.

Heather Harvey says

In this Alice Manga....

The Artwork: I actually liked this one a whole lot better than the previous one that I have read. It looks better and it is easy to focus on. I love the long hair, the beautiful anime eyes, the gorgeous scenery, and awesome costumes/outfits. <3

The Story: I liked the story just the romance choice...was weird. I also liked the little snippets of stories at the end too. They were cute and a nice touch.

The Characters: This time it's Dee and Dum. Who are twins from the country of Hearts and work for the head boss mafia the Hatter. They are both very violent and somewhat very childish (Well..seeing how *they are children*).

I also love all of the other characters but I assume they have their time. ;D

The Romance: A threesome. Not a big fan of those but this wasn't too terrible. The whole a child one minute and an adult the next kinda freaked me out. I'm just not into ...that. *shudders*

Katie says

Double the trouble, Double the fun!

I loved the twins they are so much fun to be around and their older selves are very sexy. I only wish their story was longer than a one shot. I think my favorite part about this manga though is getting to see a bit more of Alice's personality with in each book. Even as short as this volume is you always see a some growth in Alice from the beginning of the book to the ending. She deals with a lot of new emotions that many of us has gone through at one point or another which makes her seem more real to me. I also like that her reactions are a believable and she doesn't just go along with whatever is going on. She has strong emotions and she is not afraid to show it.

Despite this being based on an otome game Alice doesn't let any of the characters push her around like many otome heroines do. She has a backbone which is nice to see.

The Twins are so funny I liked them the best so far because they always put a smile on Alice's face. Most of the time they are just carefree and easy going, but they are great friends and fiercely loyal once they get attached to someone.

A great volume to start off a new series of Alice in the Country of Clover!

MJ says

I bought this thinking it was a translated light novel, but it's actually an over-sized manga. You get three normal (for manga) chapter length stories starring the Bloody Twins. Those stories are sequential and go

together. Then there are 2 shorter stories at the end, starring Gowland and Boris each. I bought this since I like the twins and their story was sweet. They move into Clover Country from Heart Country in the 2nd chapter and can change from adult to children body at will. The adult body is much more disconcerting to Alice. I wish they'd done it a bit of smut at the end of Ch.3 there instead of the fade-to-black assume in my mind the Ménage à Trois. The Gowland story was ok... you didn't get any reason why they liked each other. The Boris story was cute, Pierce was also there.

This was a 3.5 star rating but I bumped to 4 since the art was so nice!

Amanda Setasha Hall says

The twins are suddenly adults and things get... well. Steamy is an understatement. And they literally get steamy in a bath. With all three. Whelp.

Christine says

A spin-off from Alice in the Country of Hearts, Vol. 1 series. It has Alice choosing the Bloody Twins for the first half of the volume, and then goes into one shots with Gowland, Boris, Vivaldi (I was really hoping for a kissing scene here, but no such luck), and Blood.

B says

On the positive side the poly relationship between Alice, Dee, and Dum is relatively healthy(Most of the relationships in the book of this series that I've read so far are really toxic and manipulative there are a couple of mentions that the brothers would kill each other if Alice chose one over the other and some violence between the brothers but this book is comparatively very mild). On the negative side is a single chapter side story involving the Queen of Hearts, Vivaldi, that seems to point to an interest between her and Alice but makes it clear that they could never be together because of the King(Even though he has multiple affairs that he flaunts for everyone to see and Alice attributes Vivaldi's bad mood to that situation), Vivaldi and Alice would make an awesome couple and I wish we could see that in the books but at least we get a glimpse of Alice's feelings toward Vivaldi.

Kelly Paradise says

Tell me, reader, what is your uncomfortable fetish? Is it two guys at once? Is it wanting your significant other to also be your child? Is it maybe-this-is-pedophilia-but-not-really confusion? Is it ignoring that twins are each unique individuals and treating them as two for the price of one? If it's all of the above, this is the perfect shallow wish fulfillment manga for you!

(Thank goodness half of this volume is random one-shots. I'm trying to complete this entire series and I don't think I could have handled more than half a book worth of this.)

Selena says

Oh mah God the cover's sparkly! O.O It's printed on pearlized paper--my mom used to sell the stuff, so she'd know--and is so pretty!!!!!! It makes me smile to just look at it! ...I think I'll just sit here and admire it for a while...

All right, ADHD moment over.

This one made me smile sooooooo much while I was reading. The first three "stages" as they're called is Alice dealing with the Bloody Twins, Dee and Dum. I smiled more because it was crazy funny and goofy than because of the pairing. Even though the twins can magically get older (not much of a spoiler, since they're sexy on the cover), I'm not sure how I feel about Alice falling for them, since they still act like they're little despite the body change.

The rest of the book is short blurbs (only a few pages) with Alice getting together with other characters. There's also a brief omake picking on a few scenes from the Bloody Twins section.

Mary says

"I'm so stupid..."

Yes. You really are. This is pedophilia no matter how you try and spin it. It's uncomfortable. Just because the woman is older doesn't change this fact. Sure, I want more fiction where it's not considered weird for the woman to be older than her man, but when they're MINORS and she's WAY OLDER that's just a no-no.

And even the others point out that they've only changed in *appearance* and not mentality or age. And she can't decide who likes better so even more NOPE.

Theresa ? says

Yeah. Typing a review at 12:30am? I'm totally crazy!

I mean this is summer! I should TOOOOOTALLY be spending my summer SLEEPING. (During the school year, I get approximately 9 hours of sleep every night. During the summer, I get approximately 13 hours of sleep every night.)

ANYWAY . . . before I start my review, I have some things to state first.

1. I WATCHED THE ANIME FOR HEART NO KUNI NO ALICE (Alice in the Country of Hearts)!
2. Correction: I watched . . . PART of the anime. Like . . . the first 10 minutes.
3. The anime has the same characters and such, but it doesn't follow the exact plot line. In fact . . . it sort of confused me a bit. (Meaning: Guys. The manga is better.)
4. BUT if you guys are thinking about watching the anime (which is NOT an anime series, but a MOVIE), I

suggest reading the books before you watch the anime. Otherwise, you'll be totally confused.

5. Even though I read the books before I watched the first 10 minutes of the anime . . . I got confused. :P But I'm sure you guys aren't as clumsy as me, are you???

Oh, and *TOMOKAZU SUGITA IS THE VOICE ACTOR OF NIGHTMARE!!! (*swooon)

Yeah, you guys probably don't know who that guy is.....

Anyway, I just want to state something to start this review:

THIS BOOK CONFUSED ME LIKE FO-SHIZZLE!

Well, actually, all the books in the whole series sorta confused me.

Okay, so you guys know how this version of Alice In Wonderland is **NOTHING** like the original?

I mean, in this version, there is romance. And violence. And the characters are **WAY, WAY, WAY** different and **COMPLETELY UNCOMPARABLE** to the characters in that Disney cartoon Alice In Wonderland.

And you guys also know that this story is about Alice in a dream where everyone is in love with her?

And why on earth would she dream such a dream?

Well, apparently, the person she loved fell for her sister. So she got this desire for people to fall in love with **HER**.

Well, throughout the whole story, even though that might be the reason why she got into that dream, she really **DOESN'T** want to fall in love.

That's probably the first thing that confused me, but it makes the story kind of interesting.

She **DOESN'T** want to fall in love because she believes falling in love to be something painful. You'd get heart-broken and such.

She's **RIGHT**. I totally agree with her. And a bunch of people also agree that you can get hurt from falling in love, but for some reason, they fall in love anyway.

Somehow, love is worth all that.

ANYWAY, what really, really, really confused me were the relationships between Alice and all the characters in love with her.

Shall I list them?

PETER WHITE (the rabbit-eared pervert): I actually wanted Alice to be with this guy at first because he really seemed to love Alice. You know, the whole "I want to protect Alice no matter what" "I'll love Alice no matter what" "I want Alice" thing. And **EVEN IF** Alice calls him a pervert, I thought that maybe she'd end up with him.

BLOOD DUPRE (the hatter): **THIS GUY** was a jerk . . . but I guess I was curious about him, too. I thought that **MAYBE** in the story, he'd be the character that hated Alice at first but then . . . slowly . . . grew

CLOSER to her and then THEY'D end up together!!

JULIUS (the clock . . . factory maker . . .): DUDE, didn't they have some sort of romantic moment in the second or third book?? Anyway, I had a feeling that maybe . . . Alice would end up with THIS GUY somehow, too . . .

ACE (the knight): Okay, I was given the impression that this guy was going to be Alice's. Doesn't she fall for this guy in the future???? (Not sure.)

TWEEDLE TWINS: Okay, I'm PRETTY SURE that in the first few volumes, they wanted to kill Alice. And then in this volume, they're all MAKING OUT WITH HER??!?! (e_e)

CHESHIRE CAT: Okay, with the ending of this book . . . Alice loves this guy, doesn't she?

There are probably more guys where that came from but . . . I FORGET THEM!!! (Maybe Nightmare is one . . . hmm.)

ANYWAY, with all of these people, WHO DOES ALICE LOVE?! Who loves Alice??? Who does she end up with?????

I have no idea. I have this really weird . . . feeling that . . . Alice is cheating one guy with another. How many people are there?? Six? Seven???

I mean she kissed a few of them and had romantic moments with all of them but . . . she can only end up with ONE, right??

That's probably what's confusing me the most right now. The romance, the romance . . . urrrrgh . . .

Okay. So I'll go for the next Country of Clover book to see what else happens, but I'm just SO...SO CONFUSED.

And then there's the random violence that happens, too. It's like the violence is just . . . thrown in there. GAAAAAAAHH, I don't know!!! Maybe it's because I read this book at like 11pm and I was all sleepy.

Oh, and I noticed the art was different. Or is that just me?

So yeah. 3 sparkly sparkly stars. The idea is pretty original, don't get me wrong.

But the romance . . . I don't understand it . . .

AND OH MY GOD, there are too many people!!! How will she choose like that?!

She'll be breaking some hearts! NOOOOO, I DREAD reading about heart-breaking heroines! Like . . .

BELLA FROM TWILIGHT! How DARE she do that to Jacob!!! (I've already killed her in my head like . . . 15 times.)

*(footnote): *Tomokazu Sugita is the Japanese voice for Kyon from the Melancholy of Haruhi Suzumiya and the voice of Hideki from Chobits (I haven't really watched Chobits before, but I just know. :P). He's the Voice Actor for Nightmare in the Alice in the Country of Hearts movie. He's my favorite Japanese voice actor. Nightmare is probably my favorite character because of him. :D*

Loveliest Evaris says

I would've rated this four stars (which is my default rating for a good story/manga/book/whatever) , but here's the thing.

I COULDN'T FIGURE OUT WHICH ONE WAS DEE AND WHICH ONE WAS DUM!

Seriously! I stared at the color pages and was thinking, "Thank GOD they don't have the same hairstyles in their adult form!" Since they were color-coded as Blue and Red, I thought that if I figured out who was the long-haired one or who was the short-haired one, I could finally settle once and for all who was who.

And that's when I ran into trouble.

You see, I executed this operation very SERIOUSLY. Within this single volume I pored over every panel that featured the twin(s) in search of defined details that were reminiscent of one twin only. Things like their hat button, the shapes on their shirt pockets, the parts in their hair, etc.

I thought I had it down: Based on my inferencing and **careful** observation, Tweedle Dum's hat has the card suits on his hat button in the formation of (clockwise, starting with North): Heart, **Clover**, Diamond, **Spade**. In retrospect, Tweedle Dee's hat button is, clockwise starting with North, Heart, **Spade**, Diamond, **Clover**.

Okay? Okay.

Just so you know, NONE of the "character sheets" are colored in, and the Twins' shirts are covered by their names, so that's why trying to figure out which bugger is which is so hard for me. And NO, I can't just look it up online..! This crazy investigation was while I was in the car with no internet access. ___. So keep reading my hardships!

Example Problem #1: The details on their hat buttons don't show up 90% of the time. That also means that when one twin is called out by his name, I can't match up that twin with the button, so that strategy is out.

Example Problem #2: Here's where I thought I finally nailed their identities. After the confrontation with Ace and Peter when they transformed into adults in front of Alice for the first time, they do a comical "Bigger/Smaller" demonstration of their power. One twin remains adult and the other turns small. Now, in one panel the long-haired brother's hair is parted to **my** right, in the next panel, the other brother's hair is parted to **my** left (while the long-haired brother transformed into a child and the former transformed into an adult). Now by the character sheet reference, the one with the hair part on **MY** right is Tweedle DUM, and the other one is Tweedle Dee.

Since I have the physical volume, I have color pages. The [adult] long-haired brother is wearing blue while the [adult] short haired one is wearing red.

By this conclusion, Red = Dee, Blue = Dum

Example Problem #3: In the story the twins meet up with Alice in their adult forms right after she kicks them out of her room (she declined joining with them for a bath). When they stroll in, the long-haired twin is carrying an octopus and the short haired twin is carrying a dolphin. Remember this for later.

Example Problem #4: (view spoiler)

What the utter fuck!

I was so confused...so confused you guys!! God..damn it...

And then at the end there were little mini-love stories of the other Wonderland characters, but I was too mindfucked to really enjoy them.. :/

So yeah, that was my mindfuck for the day...

Lanie says

3.5 over all. I loved the original country of heart books, and I really enjoyed the two stories about Julius. :) he's so gloomily sweet. But when i read the other books in the series, like "my fanatic rabbit" and "the mad hatters tea party" I was really disappointed. So, I was a little waery when I started "Alice in the country of clover"

But I was pleasantly surprised this time. I really liked "the bloody twins." It was cute and sweet. I LOVE the twins! They're so freaking cute! Of course, the idea of the assembly was good, but we didn't get to see much of it. (We were to busy watching Alice swoon over dee and dum.) I liked the introduction of a few new characters, and seeing nightmare outside of Alice's dreams.

And art work was great too. :) I loved Alice's outfit for the assembly.

My one complaint is that she really shouldn't have fallen for the twins in the first place. I know they have adult bodies, but mentally, they're still children. They even keep calling her big sis. Talk about creepy.

(And towards the beginning of the book Alice tells blood to not make her sound like a creepy . . well, after all this, how can we not?)

That aside, it really was good. I can't wait to start the Cheshire Cat Waltz.
