Angelique and the Demon

Anne Golon

Angelique and the Demon Anne Golon

Angélique is denied the peace of mind she has longed for when the beautiful but unsettling Ambrosine, Duchess de Maudriborg, and her entourage of King's girls are shipwrecked on the shores of Goldsboro.

She is threatened by strange forces and by a mysterious band of pale strangers creating discord and mayhem in the region.

Angélique and her friends combat poison, skulduggery and treachery as she battles for the life of her closest friend Abigail.

Deborah Pickstone says

The plot became increasingly bizarre and unlikely. One more in translation to go, so will read it but only to complete!

Arlene says

My first in a history, romance series -- I LOVED all of them and was sad when Serge died. The last book, by Anne, clearly showed what Serge added.

Nicole says

I barely finished this one it has become so utterly unbelievable.

LJ says

Angélique and the Demon - Ex
Sergeanne Golon - 8th in series

The 8th book in a compelling saga chronicling the life of Angélique, born into impoverished, but devout Catholic nobility. The 5th child of the de Sancé enters the world a year before the birth of Louis XIV whose influence will shape her eventual destiny and link her to him from the moment she marries Joffrey, Count of Toulouse.

Angélique, child of the Poitou marshes, is at one with nature, embracing unquestioningly all its mystical and healing powers.

Without realising her destiny, Angélique is already forging links with the supernatural, links which will help her to survive when she is exposed to the Demon –Ambroisine de Maudribourg.

Ambroisine, child of Satanic ritual, is the embittered product of a clandestine relationship between Priest and Poisoner, imbued with all the inherent cruelty that can only be fostered by such a union.

Ambroisine, the predator, brings with her all the malevolence of the Old World, of the Kingdom of France, from which the principals had endeavoured to escape. She mesmerises her prey, sets families and friends apart and sews seeds of doubt in beliefs previously held inviolate. She lives to "divide and conquer" –her ultimate goal: to destroy the community which has strived so hard to survive.

Pitting two such forces against each other, in the untouched and unspoilt setting of their "Brave New World" inevitably escalates into the unavoidable confrontation of good against evil.

The authors weave so intricate a plot that it is difficult to avoid the tendrils that insinuate themselves into the readers consciousness. An exhausting exercise best served by wallowing in its consummate artistry and permitting oneself to be drawn into the inevitable spiral of suspense from which there is a long climb back into the light. But, can anyone be sure that there is a safe haven at the conclusion of this chapter?

As with the preceding and succeeding books in this series, one can never be quite sure if the subject of the moment has truly been concluded or whether somehow, somewhere, when least expected it might just, once more creep up from nowhere... and overwhelm the readers senses with delight, despair and hope.

Linda Wulf says

The entire Angelique series is just awesome.

Toni says

I am beyond thrilled I found this series. One of the best ever! I love everything about it and am so immersed in the life of this wonderful character. I am always amazed at how each book is as amazing as the one before and the characters growth is so perfect over the time period. It's a true gem! I'll be devastated when I read that final book. Series like this don't come around often!! 5 stars!!!
