A Good Girl Caught in the Middle...

Grace Brennan's father, the ruthless and legendary leader of the outlaw motorcycle club Walking Shadows, is dead at the hands of a rival club, the Blood of Cupids—and to her surprise, Grace is discovering that she wants to stand and fight. The problem is, she's fallen in love with the enemy.

A Badboy's Salvation...

After Ryan Cassidy's uncle kills his Pops, the Cupids look to him for leadership—and revenge. But the bad-boy son of the Cupids' fallen leader has a problem, and her name is Grace Brennan. The rivalry between their clubs kept them apart, but the love they share won't die.

Their last hope.

Grace and Ryan can't live without each other. But their divided loyalties spell trouble for both the Shadows and the Cupids—and a traitor seeks to destroy them both, along with everything they've worked to build. Soon they both realize there's no one left to trust...except each other.

This contemporary biker romance novel is the second book in the Blood of Cupids MC series, it contains graphic sexual content, violence, and strong language. It is intended for mature readers.

Well for all you YA lovers out there... you might like this one!!!!

What in the shit did I just read? I thought I was reading an MC book.. you know: dirty, rough, raw, gritty, LOTS of cursing. I guess not.. this one take a page out of some high school bullshit. I shit you not.

So... not to give the whole story away....we have a psycho rogue ass biker killing people, manipulating everyone. I mean this one is a real peace of shit. So... he goes after Grace and her aunt. Now, instead of telling her BIKER boyfriend about it she keeps it all a secret... because little Ms. Weakling is going to beat Mr. Biker. Seriously... it happened on more than one occurrence and it reminded me of the many YA novels I've read where the heroine is always taking everything on herself so she can protect everyone else except herself. You know the type... THE MARTYR. So..this goes n and on and I'm like "R u fucking stupid or just crazy?" The answer is both. But anyway, I digress. Lets get to her rough and tough BIKER boyfriend is supposed to be a badass.... this gets even better.

Now, we have a rogue asshole killing people, including our hero's father and this pussy has not one, not twice, but THREE times to kill this asshole. Does he? Of course not... lets hit once and knock him out and leave his ass so he can catch up to us. Seriously???????? The man has admitted that he kill your woman, has beaten the living shit out of you, almost rapes your woman, kills your dad who also is the president of your MC and you still don't kill him???? oh and the only time you even say "fuck" in the entire book is when your girlfriend grabs your dick. ***snoozing***

Lets get back to our heroine shall we?

When stupid girl FINALLY decides to talk to said boyfriend about what is going on she still can't tell him everything!!!! And her reasoning....

"If I told you all that really happened between Sean that would have made it real?"

Are you shitting me???????

It happened you stupid bitch...IT IS REAL!!!!!!!!!!!!!! The man attacks her and she decides what's so important about that? It's not real?? Ok by this point I was ready to puke and just wanted to finish the book becasue frankly... I was rooting for the asshole to kill everyone and put me out of my misery!!!!

Sadly, no that didn't happen... I have to read another book to fins out what happens... OMG help me.

Do not read this review if you are looking for rainbows, sunshine, and happy ever after.

Where to start...oh my. I was so excited to get another novel from Sohia. All the novels from the Hearts Collective ladies are amazing! I was blown away with the first MC book in The Blood of Cupids. I know everyone was a little disappointed that Ryan and Grace didn't get their HEA. I am a little overwhelmed with another cliffhanger. Yes, it was fantastic to read their almost HEA, but one knock on the door changed that. Ryan and Grace struggle to keep each other safe throughout the whole novel, but not without secrets. The emotions are so heartfelt and riveting! You will want to run, scream, cry, and punch something. Having so many obstacles to stand in the way of true love is just so f*cked up. These two just want to leave and run away together, but they can't because of loyalty to their MCs. They are beaten, tired, and continue to fight for each other. I was captivated from the first word to the last. I couldn't put it down. I was Ryan and Grace's cheerleader...helping them beat the bad guys. When the HEA is finally here and Ryan and Grace are safe...BAM! Their world is turned upside down and then you read "The End". I'm not too upset about a cliffhanger because I know I'll get another great read from Sophia. This series is emotional, amazing, heartfelt, raw, dark, riveting, and captivating!!! I can truly say this is right up there with my favorite MC novels! I expect nothing but perfection from the Heart Collective ladies and they deliver with another 5

Holy shhhh...wtf am I reading here again? Did anyone ever thought about putting a bullet through Sean's skull?No, of course not. Because Ryan skipped the prospect years thanks to his father. Well, now that he is dead and shit hit the fan, papa's boy is a complete noob and he is not able to keep his club intact . (if you can even call both Cupids and Walking Shadows MC clubs , either sides have no clue what to do now that both of the leaders are dead. They have no ranks , no club codes to stick to ,no nothing.) Also Ryan doesn't seem to even care about his club. No will to rule them , he is just jumping with his head in the brick thinking only at his Grace and nothing more.

What am I saying?Do these two clubs even have any members beside Mr. Muscle and Rocky? Clearly Ryan and Grace are two innocent kids who woke up in the middle of a MC war. They are so far from even belonging to the MC world.

And wtf is with this demigod Sean? The more I read the more I find the story unrealistic.

Elfina Renee says

Ahhhhhhh always on a cliffhanger.....good thing I have the last one in the series!!

I received an ARC from Hearts Collective in exchange for an honest review

Betrayal of Cupid is book two in the Blood of Cupids MC series by Sophia Kenzie. The continuation of Ryan & Grace's story.

Ryan's uncle, Sean, is playing the wicked puppeteer between two MCs after he killed the club presidents. He is using Ryan & Grace as pawns in his game, doing his best to keep the couple apart. It's a deadly game determining who is friend or foe.

...Then cliffhanger! Dark, twisted goodness!

Rachel Derby says

What an ending!! But the story is far from over!! So thought it was going to end with the red door and a dog but the game isn't over. Wow oh wow! Cant wait to read what happens next!!

Connie says

Received an ARC copy for a honest review. I liked it! Storyline was captivating, suspenseful and had angst. After the last book, you would think Ryan and Grace would finally get a break but that wasn't in the cards. While reading I kept thinking what else could go wrong. Loved the chemistry and true heartfelt connection between Ryan and Grace. Only thing I hated was it's another cliffhanger but I would recommend.

Natalie Pounder says

really thought Ryan and grace would get their happy ever after but it wasn't to be can't wait for the next instalment of this story

DNF @ 65% ofzo. I don't intend to DNF this book; I'll try again at another time. Vervolg van een Romeo & Juliet verhaal; vond het iets te 'soft', wilde ff iets pittigers. ;-) Maar ga misschien nog wel eens uitlezen. Voorlopig besloten 'm als DNF terug te zetten in de virtuele boekenkast.

Petra says

Now I didn't read the first book so I got a bit confused but apart from that I enjoyed what I understood and am now going to read the first book x
