After eight long years, I'm back in town. She's the only thing on my mind.  
I'm not leaving until she's mine again.  
But now that I'm suddenly the guardian of a newborn baby, things in this small town just got a whole lot more complicated.

### Kade

My is name Kade Houston and after eight long years I'm coming home for the holidays.  
But not for the reasons you think.  
My estranged brother is dead, and I have one week to sell his estate.  
Yeah, I'm cocky, arrogant, and my Navy SEAL training made me ready for anything.  
Anything, but being the surprise guardian of my brother's newborn baby.  
For the first time in my life I'm in over my head.  
The only person I can turn to is the first and only girl I've ever loved.  
Since I've been gone. her smart mouth, beautiful green eyes, and curves have only gotten sexier.  
Too bad Genny Shepherd still hates my guts.

### Genevieve

My dream has always been to inherit the family business.  
Now I have it and we're almost bankrupt.  
The only way I can save it is by doing something crazy.  
And if anyone found out I'd lose everything.  
This is the worst time for Kade to crash back into my life.  
In a time I need to be the most focused...  
His ripped muscles and smoldering f&%k me stare are all I can think about!  
This holiday season, everything that can go wrong does!  
And the only person who can save me is the one person I vowed to never trust again.

## From Reader Review Big Daddy SEAL for online ebook

### Jennifer Pierson says

Kade Houston is forced to come home suddenly after 8 years when his brother & wife are killed in a car wreck, & Kade has one week to sell their estate. No one even let him know that they had a baby. It didn't help that they weren't even speaking, because his family wrote him off when he joined the military to become a Navy SEAL. It's his luck when the first night he runs into the woman that he ever loved, & ran out on, Genny Shepherd, & she still hates him. Genny has been busting her behind to save the family business that has been left to her, with no help from her older sister. So she's been slowly chipping away at the debt by doing something crazy, that if it were to be revealed, she would be ruined. The last thing that she needs, is the man that she never got over to walk back into her life, looking even better. Added in to make it a trifecta of chaos, anything that could go wrong is going wrong, and the only person who can save her is the last person in the world that she wants to trust, Kade. Big Daddy SEAL is a shorter story that pack quite a punch! I tried to not write such a big description, but honestly? There's so much going on, that there's even more packed in than I came off of. Kade & Genny were TNT together, even after 8 years, as the sparks flew instantly, which didn't take long before the sheets were on fire! And the cast of secondaries were very colorful, not all being in a good way either, but colorful they were! Twists were crazy, so f-bombs flew through my room with the greatest of ease, while there were some angst filled moments like the day that everyone basically did things that had me wanting to take people out on behalf of Genny! Which led to my favorite part of her coming into her own finally which had me rolling in laughter! These two talented authors meshed perfectly together, and I hope to read more by them in the future! HIGHLY HIGHLY HIGHLY RECOMMEND TO ALL!

I've read books from both of these authors individually but when I heard they were collaborating to write a novella I knew it was a must read. Big Daddy Seal turned out even better than I expected. The writing flows seamlessly and the characters pull you in from the beginning.

Kade Houston left everyone and everything behind when he joined the Navy. Years later he is unexpectedly called home and runs into Genevieve Shepherd, the one woman he loved and left behind.

Genny's life has not been easy and she's been busy trying to make a sucess of the family business. The last thing she need is a blast from the past but boy do the sparks fly when Kade and Genny see each other again. I found myself trying to devour their story as quickly as I could until I realized I was near the end and wasn't ready for their story to end. This second chance romance had a little bit of everything from moments that had me laughing out loud, celebrating as the characters come into their own and tell it like it is, and others that made me swoon and root for Kade and Genny to find their happily ever after. I loved this fantastic collaboration and hope there are more in the future!

Where do I even begin?! I've read books from both of these authors individually and now that they have co-written a novella together I'm blown away. This is a second chance romance that will capture your heart and soul from the very beginning. At the age of 18 Kade enlisted to become a Navy Seal and changed the path

that both himself and Genevieve were heading down. Years later Kades life gets shaken up once again with circumstances out of his control, Emma comes into the picture things will never be the same again. I was smiling and tearing as I read their story, I felt what they felt and at other times was gripping my kindle so tight because I just wanted to scream at them for their actions. Amber, well I couldn't stand her from the start and my feelings never wavered from that through the end. To put it nicely she's a bitch and deserved everything she got. The flow between the characters was seamless, I wanted to turn the page to see what happens next and at the same time I didn't want it to end. This novella will undoubtedly be at the top of my favorites this year. I was truly blown away by this book and hope there's more from both of these authors together in the future because these gentlemen have done a phenomenal job. This is my unbiased and voluntary review.

Second Chances and a Surprise Baby!!!

This was a heart-warming read from two great authors. It's all about getting a second chance with your first love and finding out what is important in life.

Kade left his small hometown in the dust and never looked back. Except he always wondered about the girl he left behind. When he returns home to deal with his brother's death, not only is he saddled with old memories, but a baby he didn't know about and has no clue how to take care of! But never fear, he is a Navy SEAL after all!

Genny was the girl left behind and has just taken over her family's failing soap business. She secretly branches out to a new product to bring in revenue and fears anyone finding out. The last thing she needs is Kade returning home.

When they are thrown together, sparks fly and they find out that true love never dies. Together they work to care for baby Emma and save her business and learn to fight for what is important. After nearly repeating old mistakes, they find a way to get their HEA.

### **Ingrid says**

This is the first collaboration between authors Mickey Miller and Jackson Kane and it does not disappoint. I am familiar with both authors and I can see how their styles meld seamlessly in this sweet, second chance romance.

Kade and Genevieve were high school sweethearts until a series of misunderstandings caused Kade to leave his small, east Texas town to pursue a career in the Navy SEALs. Genny bravely moved forward with her life, but never forgot the man who stole her heart when he left town. Fast forward eight years and Kade returns to his hometown when his estranged brother and sister-in-law are tragically killed. A dead cell phone battery puts him back into Genny's life and they both realize that the attraction has never faded.

Kade gets way more than he expected following his brother's death and needs Genny's help. Genny has her hands full running her family's soap business and is exploring new avenues to bolster floundering sales and satisfy recalcitrant suppliers. Surprises abound and both Kade and Genny must reevaluate their shared past in order to move into the future. This is a short, sweet story of how two people confront what they thought was true and learn how to put the past where it belongs, the past. And how they compromise and complement one another.

I hope these two authors plan to write together again. Perhaps a future Kade and Genny story?

Good story-line. Strong characters. There is good push and pull with the tension between the main characters, and there was a perfect amount of lead up to the plot, and there wasn't a let down with the ending. Live Jackson Kane, but this was my first experience with Mickey Miller. I'll be looking for more.

### **Samantha I Love HEA Romance Book Blog says**

This book is a collaboration from two fantastic authors. Jackson and Mickey bring us a sweet, quick romance that will give you all the feels

Kade is a Seal who left town at 18 to get away from troubles that plagued him. He left one thing behind that meant something to him, Genevieve. Now he is back in town to look after his brother's baby.

Genevieve is a bit of a hippy, and owns her families soap shop. Genny comes across as a sweet and caring character, that is unless you cross her!

This book was a short, fast paced second chance romance. The book I found to be a little funny in some parts, and also sad in others. I felt so bad for Genny with how she was treated in one part of the book, and I also teared up from the letters Kade found. This book definitely gave me a wide variety of emotions. I did want to slap Kade at one stage with how clueless he seemed to be but he redeemed himself by the end for me. I enjoyed reading this story and hope to see more collaborations from Jackson and Mickey in the future.

### **Luisa Rivas says**

Jackson Kane's books show a lot of promise but IMO he still has to hone his craft a little more. In this book, some parts were more amateurish than other books I've read written by him. The story is a good one, the pace was great, but some of the character's thoughts processes were rough, needed some refining. The main character, Cade Houston, is returning to his hometown after an absence of eight years. He had left, straight out of high school, to join the Navy SEALs, abandoning an abusive home situation with an alcoholic father. He was estranged from his brother, who was killed with his wife in a car accident and left everything to Cade. Now Cade came to town to deal with his brother's house and estate and found out that he also inherited a six month baby girl Emma.

He also returned to see the girlfriend he had left behind when he joined the Navy. Genny had taken over her parents' soap factory and is making ends meet, but barely. She's having a hard time and her sister is not helping at all, but rather sabotaging her efforts. When she saw Cade, she was not very happy to see him. Cade asks for help dealing with Emma and Genny accepts, in exchange for a hefty compensation. Being together brings back memories of how well they got along, and re-kindles their chemistry. There were some ghastly sex scenes; after I read the first one, I skipped the other ones. I didn't like the language and some references to size. The sex scenes needed a lot of refinement.

I found Cade a negative character. He had problems with his brother, something about the brother abandoning the home situation, which was not very clear in the story. Consequently, they had a rift and when his brother tried to renew contact, Cade blew him off. Now that he has custody of his niece, he has guilt feelings about making amends. I hated the fact that he didn't want to get attached to his beautiful niece and

was calling her Baby instead of Emma so he wouldn't form a relation with her and start loving her. He had plans of giving her away and started calling his brother's friends to see who would take her. I found this such a despicable act! I got the impression he was an excellent soldier, but needed to learn to be a regular citizen. He had good intentions, but he was truly clueless on some concerns.

The scene I loved best in the book is when Genny confronts her sister, evicts her from her house and burns her clothes. It was a savage act, but so releasing, and so well-deserved. I really liked the plot about Genny and her work woes and her family relations better than the story about Cade and his conflicts about his brother, his desire to return to his military life versus accepting responsibility for Emma and his feelings about Genny. IMO, this had all the elements for a good plot, but the execution lacked technique and better phrasing.

### **BookAddict says**

Kade left Ginny right after high school to join the military, but now he's back. His brother has died, leaving his home, his worldly possessions and his infant daughter all to Kade. Only on temporary leave and planning to reenlist for another four years, Kade has a short amount of time to take care of things. He didn't expect to see Genny again, but maybe he can enlist her help temporarily with baby Emma. Except Genny isn't so eager to help. It still stings that Kade left things between them the way he did, and she has her own set of problems. She's trying to breathe life back into her retired parents' failing soap company that's been in the family for generations, as well as dealing with her vapid, shallow sister, a wannabe social media sensation who puts more effort into sponging off of and undermining Genny than helping with a business that's half hers. But with those old feelings for Kade that never died and her instalove of Emma, how can she refuse Kade?

When I saw that two of my favorite male romance authors were collaborating, I had to get an advance copy to read. There's a reason I like these two accomplished authors individually, but together they're dynamite! Not only are the characters well developed, realistic and likeable, the storyline is interesting and sucked me in from beginning to end. Add to that some pretty hilarious situations, an adorable baby and some fantastic symbolism, and this story is an amazing, five-star success and not to be missed! With some sad, sweet and poignant moments and a sister you'll love to hate, this second chance romance had a little of everything and is sure to please. I hope Jackson and Mickey work together again in the future because they make a heck of a team, compliment each other's skill and do a bang up job!

### **Audrey Lei Lacambra says**

This is the first co-writing novel of my two favorite Frat Male Romance Authors, Mickey Miller and Jackson Kane. Kade and Genny's reuniting/second chance encounter started like a whirlwind when Kade just suddenly come back to his home town to take care the things what his late older brother and sister in law die suddenly from car accident and saw his Ex-girlfriend high school sweetheart Genevieve, added up some adorable baby to take care after 8 years of absence for being part of Navy SEALs. A little Drama, second chance romance, funny scenes about taking care of babies, the past, misunderstanding and everything, ALL CHECK!!

It's Mickey and Jackson's first co-writing project and It's a good book to read. I love Kade and Genevieve both of them are strong characters and Kade's misunderstood past with his brother and his love for

Genevieve and Emma, he's not perfect but he's a kind of guy you will fall in love with. Genevieve, I love her character so much, she's strong and even if one time she decided to give up everything she will bounce back and fight for it. I love the confrontation between Gen and her awful sister. The plot is okay and it's a novella and it has a good story line.

I'm hoping for a new co-writing novels from Mickey and Jackson.

I rate this 4.5 stars

Another great read by Jackson Kane and Mickey Miller. Also another a guy leaves a girl for the military and comes back to town and they get reacquainted and he decides he wants her back story. Even though she's still attracted to him, Genny's not so sure she wants Kade back, however, because she's still hurt that he left her. She's also trying to keep her family's business afloat and thinks Kade will just get in the way of that. But Kade makes Genny an offer she can't refuse to help him out while he's taking care of some of his family business.

There's a lot of humor in this book and that's a big plus for me. And it was great getting a two-fer from two of the best romance authors in the biz. I felt like I might've got whiplash a few times, though, because I'd suddenly be pulled out of Jackson Kane book and into a Mickey Miller book (and vice versa) but that only added to the charm of this read for me. I'd definitely recommend. I voluntarily read an ARC of this book and have decided to provide my honest opinion in a review.

### **Donna says**

This a fantastic holiday read by Mickey Miller and Jackson Kane. What a fantastic read!

I'm now back in town and it's been a eight long years. Genevieve's the only thing that's on my mind, she never leaves my thoughts. This girl is my addiction.

I know for one thing and that is I'm not leaving until Gen's with me once again.

The problem that I have now is that I'm suddenly and unexpectedly the guardian of a newborn baby. That means now that things in this small town; well now know that they just got a whole lot more complicated.

Kade

The name's Kade Houston. I know that it's a shock to everyone but after eight long years I've decided that I'm returning home for the Holidays.

You see I'm not home to clear some things up. However it's not for the reasons you think they are.

You see the thing you need to know is that my estranged brother has died. The problem now is that I have one week to sell his estate.

Did I forget to mention that I serve my country? Hell yeah I do and proud of it too. The other thing yo need

to know is that I'm cocky, arrogant, and most of all is that my Navy SEAL training made me ready for anything.

Well Let me re-phrase that. I'm prepared for most things anyway but this being the surprise. Are you ready for it?: Yeah I'm guardian of my late brother's newborn baby.

I can honestly say that for the first time in my life, I feel that I'm in way too deep and over my head. There is only person who I can turn to. This person is my first and only girl that I've ever loved; and always will love.

I know that since I've been gone. That her super smart mouth, emerald green eyes, oh and those curves of hers have only gotten sexier.

The downside to all if this is that it's way too bad that the sexy Genny Shepherd still hates my guts.

Genevieve

Hey everyone My name is Genevieve but most people call me Genny. It was always my dream to inherit the family business.

The problem is that now I have it. We're almost bankrupt.

I can possible save the family business is that by doing something totally and irrationally crazy.

The problem is that if anyone found out what I had planned; I'd lose everything.

Now this problem is not helped by the fact that is this is one of the worst times for him to come crashing back into my life. Of course I mean Kade. Who else did you think I meant?

This is so not the time for Kade to come home its the time I need to be the most focused...

Oh my Kade's got ripped muscles and smouldering take me now , hard and fast stare is all I can think about!

Oh my this holiday season, why on earth does everything go so wrong? Well that everything i think can't go wrong ends up going wrong! Why does this happen to me? Was I a horrible person in my past life???

Totally crazy and insane of me to admit this to myself and anyone else is that Kade is the only person who can save me. Another reason is that Kade is the one person I vowed to never trust again.

Can Kade and Genny make up and live happily ever after? Will the overcome all the obstacles that are thrown their way?

You need to read it to find out....

5\* book well done guys

Rough ARC was voluntary read and honestly reviewed.

It was a short story maybe 200 pages but read in full, no skipping and no cliffhanger. I really like this story, reunited old lovers, drama, mystery but the sex was more teasing then to deed.

SEAL Sargent Kade Houston just wanted some R&R in Lima but last minute change of planes brings him back to his small town childhood home for a tragic accident that left Kade with something he never thought he'd deal with. Now on break with a will, a house, a few month old babygirl, his Niece Emma, he don't know what to do but calling his high school ex girlfriend that still in town, for help. Kade needs to do something to get rid of attachments so he can go back to his renewed contact for the Navy. What will he do?

Kade isn't the only one having problems Genevieve 'Genny' is having the best days of her life, Not! She is the youngest daughter, her older sister, well how did I say... she is lazy and all she thinks about is her made up life and her viewers. Genny can't get Amber to help and what Genny finds out what really is going on with her family (3 generations) business her stress will sky rocket. And add a ghost of her ex Kade that's back after leaving her high and dry for 8 years back she don't know what to even do, not to mention a baby added into the mix... talk about locking the doors and hiding from the world...

Will Kade get rid of his attach,Mets and get back to active duty? Or will he take his brother's words and heed the advice in Black and white?

Big Daddy SEAL is a quick, fun second-chance love story. I am familiar with both authors and this is a great collaboration!

A family tragedy brings Kade back to his hometown and he finds himself face to face with the only women that he ever loved and walked away from. He did it for what he thought was a good reason back then, but when he sees Genevieve again he questions his decision. He also has to face the fact that everything from his past was not as it seemed.

I really enjoyed Kade as a character. Like many in the military they have to make choices and sacrifices and sometimes live with regrets.

Eight years away and when Kade walks back into Genevieve's life all of the old feelings come to a head. He is the last thing she needs to complicate her life or so she thinks. Genevieve is determined to keep her family's business afloat and in order for that to happen she has to get creative.

I love the strength and determination of Genevieve's character. She has a lot of love to give to both her parents, Emma and Kade when she finally lets him in. (Her sister, no so much)

### **Ashley Jasper says**

Both of these authors are completely news to me but I saw SEAL and Daddy in the title (I'm on a single parent kick) and was like gotta give this a shot. Couple that with it being written by not one but two male authors was just a fun bonus.

There was a lot going on in Big Daddy Seal for both of the main characters. While I want to say Kade was the best, it was Genny who stole the show. I adored her soft heart and how she finally found her voice. That's not to say Kade wasn't great- because he was. I really liked his protectiveness and how easily distracted the disciplined military man got when Genny came to mind.

I liked that these two were able to put years of hurt and longing behind them. That's not to say it was easy. There was more than one bump along the way but it didn't hurt that they were both so head over heels for the other. Add baby Emma into the mix and it was game over as Kade saw the possibility of what could've been.

While there were some parts of this story that were kinda cheesy, it only added to the overall charm. Kade and Genny both grew a lot in the short time frame and I was glad to see them grow together. I do think that this could've been cleaned up a bit but overall I enjoyed the hint of drama with a side of life challenges and changes.
