## Después del amanecer (Deseo) Cindy Gerard

Tras varias noches de pasión, empezó a preguntarse si lo que había entre ellos sobreviviría después del amanecer...

Un hombre alto, guapo y con una sonrisa demoledora como la de J.T. Tyler tenía siempre alguna mujer esperándolo. Pero entonces conoció a Alison Samuels, la nueva veterinaria de la ciudad, y se encontró con un desafío que no podía rechazar. J.T. no tenía el menor interés en renunciar a su condición de soltero, pero sí le interesaba saber cómo era Alison entre la medianoche y la mañana.

Alison se había trasladado a aquel lugar en mitad de ninguna parte para empezar una nueva vida, no un romance con aquel guapísimo ranchero. Pero tampoco podía negar los increíbles poderes de persuasión de J.T.

**TINNGG says**

3.5 stars

Heroine is older than hero by 8 years. She's a widow, and still hung up on her husband. She buys a vet practice in bumblefart nowhere both to get away from the identity of being someone's widow and because her late husband had wanted to move to the country.

Hero is a veteran and I'm somewhat baffled about his past... a Marine shrink told him he had PTSD, he had Navy buddies...but supposedly he was army. Ok, he was a medic so maybe a field hospital would put him in a position to be around all branches. Still... he wouldn't need to hide his issues from fellow medics, but he'd never told his Navy buddies what he'd seen. Seems more like a slip up there. In any case, his way of dealing with life now is not let anyone close. So he's apparently the local playboy. In a small town. Wouldn't that get awkward after a bit?

He starts hitting on the h practically the minute he sees her. The book starts a month after she moves. I wouldn't think she'd been around long enough to really establish herself. He has the somewhat belated thought that he needed to be careful not to screw up her reputation. In a small town? That would mean keeping your hands to yourself and your zipper zipped - which seems to be beyond him. He pursues her until she caves, and well, in a small town, someone is going to notice who is parked in front of whose house. Townsfolk seem more curious than anything.

Eventually, he finds out she's widowed, and runs. Sulks really. She finally goes and confronts him about it, then suggests he get another vet.

My issues - she said no, let it go man. Small town + reformed player = she's going to be meeting a lot of women who know him biblically. Sooner or later, she's going to run into someone who didn't like being cast aside.

**Lindy says**

Shallow would be the word I would use to describe this book. Not much here but a minimal plot.

### Book Description

A tall, cool cowboy with a heartbreaker smile, J.T. Tyler had a line of women swooning in his wake. Then he met Alison Samuels, the town's new veterinarian, and found himself face-to-face with a challenge he couldn't ignore. J.T. wasn't interested in relinquishing his bachelor status, but he was definitely interested in learning what the new doc was like between midnight and morning.

Alison had moved to middle-of-nowhere Montana to start a new life—not start a fiery affair with a hunky young rancher. But she couldn't deny J.T.'s persistence...or fever-inducing powers of persuasion. After a few passionate nights wrapped in his muscular arms, suddenly Alison wondered if their sizzling relationship could survive the hours after dawn....

### My Thoughts:

This book will leave you breathless. Although it is written in the third person, it is a very personal read. I felt like I was Ali being wooed by the dangerously sexy cowboy. J.T., the perpetual bachelor, comes across as the heartbreaking cowboy, who gets caught up with the one girl he can't have. Ali isn't the usual protagonist that you come across in a romance novel. Although she is fiercely independent, she has a loving disposition, which draws J.T. to her on an emotional level that he doesn't know he has.

I give this book five out of five stars and if there was a sixth one available, it would get that one too. This novel is beautifully written and will peak your interest from the very first page.
