Ok seriously. Do you HAVE To end all of your books with a cliffhanger? I SWEAR. I can't wait for number quattro. I think that's how you spell it. I am obviously not spanish though so I did my best. The good thing was that it was a good cliffhanger unlike FORBIDDEN. That made me pee my pants and cry at the same time. Ohhhhh. Ok. Enough of my rant. Good read Micalea's latest artwork/masterpiece.

This would have to be my favorite book in this series so far. First things first....THE AUTHOR USED HUNTERS SONG WANTED AND IT WAS THE CUTEST THING EVER I LOVE THAT SONG!! Anyway the story was good and I usually hate reading about weddings but this one was actually good and I felt myself tearing up. The fight scene was surprising and sad but the ending was predictable. I actually thought this was the last book so now that I know what I know I can't wait until the next installment. The only thing that irked me was Sophie's personality but she got more mature as the book went on which I'm glad about.

Holy Shit! To start this review off with a wow! I read this book the day it was released and I finished it within 2-3 hours and did not feel the need to stop or take a break. Actually I felt the need to keep reading and find out what was going to happen next. I'm going to be honest and say that I was bawling when I read this book. Not going to go into too much details but why Micalea?! Of all the things it to be that... the ending though I have to say made me smile and start jumping up and down. Now I really want the 4th one to come out and I feel like I will biting my nails until Micalea updates something regarding that on her blog. Caeden and Sophie made a lot of progress in their relationship and the hardships that they went through, were tearing my heart up. The other characters were amazing in this book. Bentley and Chris were cute and disgusting at the same time but overall humorous. Charlotte and Bryce well Charlotte was her usual shy but cute self and well Bryce is well... Bryce. Logan I felt I made a bigger connection with him especially after what happened to him in Insider and what you find out about him. Logan I feel may have been my favorite character and the most misunderstood but still overall loved in the end. Travis is well, how do I say this? Oh... CRAZY!!!! That boy needs some serious help and just the stuff he does is a whole new curve ball with a twist of WHAT?! Now the book overall was well written and I never doubted Micalea's writing skills. She amazes me every time she writes something new. She makes me cry, smile, laugh, and just want to keep reading. The title FIGHTER had stayed true to its word and through OUTSIDER, you understand that Sophie felt that she didn't belong. In INSIDER, she made her connection with her shifter side and finally accepting who she is, and finally in FIGHTER we see Sophie make the choice to not be that small girl that never knew her past. She is the "she-wolf" that we know her as and she became the Alpha and the fighter that we wanted her to be from the beginning. So to finally end my review, I have to say this book blew me away and I have already read the book twice and I still cry, I still laugh, I still smile throughout the entire book. So here is my praise to Micalea, a wonderful writer and a wonderful person. Micalea, you remind me of Sophie and I know that your Caeden is waiting at the cupcake shop around the corner. SO GO GET HIM SHE-WOLF!

I've read many books and this is my FAVOURITE ! I cant say enough good things about this book, I would recommend it to ANYONE !!!

There are so many books that I like but NOTHING can outdo the OUTSIDER series !!!

[OUTSIDER #1 - INSIDER #2 - FIGHTER #3 - AVENGER #4]

I would advise NOT reading reviews (including this one) because I didn't and the book was so good with its surprises ... so turn away ...

There is some really good comedy in the book that had me laughing so much I was in tears. All I will say is, 'Thunder from down under' and 'dipshit here thought you was dead' - I know they're just little things but they made me laugh so much, as well as much more.

It starts off with Caeden and Sophie in their beach house after Caeden has just let out that Travis Grimm is alive ! Sophie is quite angry and storms off and drives around for the rest of the day trying to clear her mind. After getting sorted she goes back and talks to the pack like a true alpha and gets back on track with Caeden. They spend the rest of the trip forgetting about shifter life and have fun, including spending the day at the beach and going clubbing !

Once they return home its time to get rid of Travis and THE WEDDING !!!The chapter of the wedding made me so happy, its so lovely !!!

But once that's over Caeden and Sophie's life is surrounded by pack and trying to kill Travis.

Suddenly, on day when Caeden and Sophie are sitting in their lounge when somebody knocks on their door. It turns out to be Caeden's childhood friend Nolan (a tiger shifter). He is a couple of years older than Caeden. The pack soon locate Travis's whereabouts and are preparing for the fight. However that strange scent is still lingering.

Soon the fight plan is in place and everybody is in position to attack Travis. But there's a twist ... Mutants !! Travis has created mutants !!!

Sophie and the rest of the pack fight off the mutants while Caeden and Travis fight.

Sophie and the rest of the pack fight off the mutants very well, but one in particular was very big and strong and got Sophie at a bad time. He hurt her pretty bad and she couldn't fight back. As he was about to kill her Logan took him down and saved Sophie's life, but as he walked away, he didn't bother to check he was dead. The mutant grabbed Logan and killed him. Bryce come and got Sophie because Caeden needed her to heal him.

Next Sophie woke up in the hospital with Caeden sitting next to her. She finds out that some how Travis got away. She's torn up when she remembers that Logan's dead and to find out that Maria, another member of the pack, died to.

They have Logan's Funeral and I found myself crying ! - little bit embarrassing, I know ... -

But soon after everything gets back on track and their lives go on. Caeden's birthday approaches and Sophie organises party for him inviting the pack and the seven boys (Sophie's football mates) and everything is ok. They all exchange presents and Sophie has a little surprise to tell everybody.

The surprise is too good You should look away

THEY'RE HAVING A BABY !!!!!!

Like I said the book is **BRILLIANT**, I can't praise it enough !!! I think Micalea Smeltzer is the best writer EVER !!! I recommend the **OUTSIDER** series to anyone !!!!

If you want tell me anything, discuss anything with me, ask me anything about any of my books or any random question, please do! Comment or send me a private message if you'd rather. I really don't mind and i love hearing from people! :)

Fighter by Micalea Smeltzer is the third book of the Outsider Series. It was an amazing book which I finished in a day.

The book picks up at the very end of Insider when Caeden says that Travi's isn't dead..... Then in Fighter it goes on how Sophie is upset that Caeden didn't tell her.. Fighter has a lot of romance, surprises and action.

My favorite part was when Sophie give Caeden his last birthday present!!

Overall, this book was fabulous and Micalea has done it again!!!!

Cant wait to read the 4th and final book.

I just loved the book. But I hated the cliff hanger. I can't believe, and this will be a spoiler for those who have not read the book yet, but, I CAN'T BELIEVE CAEDEN AND SOPHIE ARE GOING TO HAVE A BABY!!!!!!!!!!!!!! I just can't wait for the 4th book.
