Filthy Rich Raine Miller

Billionaire Caleb Blackstone lives in the glamorous world of wealth and success, with every material luxury. But the moment he sees Brooke Casterley, none of that matters. Caleb is filled with a raw, undeniable need that he can't ignore...for a girl who is so completely different from everything and everyone he's ever known.

Only Brooke isn't looking for love. She knows all too well just how much damage the wrong guy can do. Still, what sane, broke British girl can resist the charms of an incredibly sexy, chivalrous billionaire? What starts as flirtation quickly turns into all-consuming passion. Nothing could have prepared her for the searing heat of Caleb's touch—or just how much she craves him.

Their whirlwind romance is the stuff of high-society fantasy—but for every moment of pleasure, there is a cost. Past mistakes and tragedy shadow them both...and falling for him might be the kind of trouble she can't afford.

Astrid - The Bookish Sweet Tooth says

2.5 Meatballs Stars

Brooke and Caleb bond over meatballs and Caleb rushing to her defense when she is being hit on by a slimy rich guy. Caleb has seen her before and is enchanted from the first second he lays eyes on her. He has broken up with his girlfriend recently and up until now he has never considered a serious relationship. Until he looks into a pair of sad eyes.

Brooke isn't on the market for something more than a hook up with a gorgeous guy but the more she gets to know Caleb, the more intrigued she is. She is honest and tells Caleb right away her sad story thinking it will scare him away...but she didn't expect Caleb's resilience and his desire to extinguish the sadness in her.

The story had a lovely premise and I was looking forward to reading the journey of those two. Everything was pretty insta with them. Insta-lust, insta-love, insta-forget-about-the-past. I have known authors who pulled off insta. Unfortunately this wasn't the case here. While I loved the first bit of this book the more I advanced, the cheesier it got. The I-love-yous started early on and Brooke's willingness to revise her decision to not have a relationship was too fast. Even the wrench thrown into the game by a vengeful ex and some paparazzi didn't make for an exciting twist.

On the plus side was the insane chemistry these two had. The smexy times were incredibly hot and so much better than the dialogues which didn't feel natural to me. Another plus were likable characters. Overall though it wasn't enough to wow me. I keep hearing that I should read Raine Miller's first series, especially Naked and I definitely will. I will also continue reading this series hoping that this one was a fluke.

Sabrina says

NOW LIVE!

<http://amzn.to/2v8Cmp5>

The billionaire falls for the destitute woman. It's nothing new and has been done many times. Yet Raine Miller was able to take this trope and put her own unique spin on it, keeping the story interesting and enjoyable. I liked that Caleb wasn't your typical billionaire, and he could be really sweet at times. I loved him and Brooke together and thought they made a perfect couple.

Brooke didn't let Caleb's money dissuade her from being with him and I liked that she was comfortable with

their relationship. There are also some secondary characters that I can't wait to read more about so I'm looking forward to getting more from this series. Hopefully we won't have to wait too long!

Coco.V says

ARC generously provided to me by NetGalley and Montlake Romance in exchange for an honest review.

An amazing, heart-warming start to the series!

The anxiously awaited first book of The Blackstone Dynasty did not only live up to my expectations, it exceeded them and then some. It was definitely worth the wait.

My heart raced from the first page, every word in this exhilarating romance making me forget the world around me and immerse myself blissfully in yet another beautiful Raine Miller story that I adored.

Brooke Casterley is a young British Interior designer. She left a painful past behind her, hopeful to start a new life in Boston as far away from her old home as possible. She's now living on the high-end, touristy retreat called Blackstone Island with her Nan who needs her. There wasn't anything Brooke wouldn't do for the woman who had taken her in at fifteen after her parents were killed in a car crash. When Brooke left LA five months ago and came back to Boston her only goal was all about getting her life back. Brooke made a promise to herself not to let the bad parts of her past hurt her anymore. She's not looking for love and she's determined to keep moving forward.

Caleb Blackstone is a business mogul travelling all around the world since he'd taken over the reins at Blackstone Global Enterprises. For the last height years, his life was all about working hard and living every aspect that came with the lifestyle of wealthy people. Until her. One look at Brooke and Caleb is utterly bewitched, making him believe what his father had said to him before he'd died « ***when you find whatever it is that makes you happy, Caleb, hold on to it with everything you've got. Your heart will let you know.***»

For Caleb, Brooke is his fate personified. He thinks that his path to finding her was set in motion a long time ago. Caleb is intoxicated by her presence, wanting her with a primal desire and embracing that desire wholeheartedly even knowing that his mother would never approve of us together neither the New England high-society. But the heart wants what it wants, and his was irrevocably wrapped up in the package that was Brooke. It was just fate doing its thing. Brooke has brutally and savagely ripped right into his heart.

« I knew it down in my bones. I was going to marry that lovely, beautiful girl from England, and she would be mine. »

Caleb Blackstone is pure alpha yumminess! He is simply a remarkable man and inside-out beautiful. After he meets her all his actions from then on are driven only by his growing feelings for her and his almost-primal urge to protect her and claim her as his own. I loved him, all his sweet gestures and every thoughtful part of him.

Brooke is a woman in need of emotional healing and Caleb is the perfect man for her. His protectiveness makes Brooke feel safe for the first time in years, safe enough to show him all her fears. Their connection is

all-consuming and passionate. They awaken needs and desires in each other that they weren't even aware of having, their bodies responding to each other instinctively and effortlessly.

« I've ever known that sort of love. Never known unconditional, fearless love. »

« It's never been like this. It was filthy and beautiful and savage - it was filthy and precious ».

But Brooke's heart has been horribly wounded and she's desperately afraid of losing control of her life, to be vulnerable again. Can Caleb prove to her that what they share isn't just an intense physical relationship but an emotional connection strong enough to last forever?

This is a genuinely romantic and beautifully written story about wanting more out of life and finding someone to be your true self with. *Filthy Rich* is a story that will warm your heart and make it race all at the same time, every part of it done just right. The supporting characters are all amazing and Raine Miller has also once again, successfully transmitted her passion for history and heritage. My love for this author is absolute and I can't wait to read James and Winter's story.

Eve Recinella (Between The Bookends) says

Billionaire Caleb Blackstone is a player. He is successful, rich, and smoking hot. When he sets eyes on Brooke Casterley at a party he knows he will do anything and everything to have her.

Brooke Casterley knows all too well what a powerful man can do. She has the scars to prove it. Moving back home to help her Gram, she just wants to have a quiet life to heal her soul. That's until Caleb Blackstone comes to her rescue.

Can Brooke resist the charm that is Caleb Blackstone? Does she even want to? What could a filthy rich player have in common with a broke British girl?

I really enjoyed this one. It was super sweet. Very insta-love. Low angst. A tiny bit predictable. But I loved the characters (both main and secondary.) Caleb was SO sweet and one look at Brooke was all it took for him to give up his player ways and fall madly in love. Brooke was a sweet heroine. She had been through so much for such a young woman, but she handled it all so well. There is a fabulous cast of secondary characters, from Brooke's Gram to Caleb's siblings and best friend James. They all added an extra layer to the overall story. I can't wait to see what is in store for them.

That said, it did drag a little for me through the middle and I felt like we were left hanging about the heroine's husbands family. The author kept alluding to them being dangerous or potentially coming after the heroine, but nothing ever came of it. I also (as I mentioned above) found it a bit predictable. I saw the big surprise at the end coming from a mile away.

Overall, though, this was a fabulous little read that kept me entertained. So it gets two thumbs up from yours

truly.

Vi Keeland says

Raine Miller writes beautiful romance! There's just something so classic and sexy about the way she weaves a story. Her words capture you in the first chapter and transport you into Caleb and Brooke's relationship. From the first page to the last, it's sexy and emotional. Five rich-in-so-many-ways stars!

Alba and Her Secrets..♥ says

4.5 'Wonderful Moments' Stars!

ARC provided via Netgalley in exchange for an honest review.

I fell in love with Raine Miller when she created and gave us Ethan Blackstone and his love story with Brynne Bennett. Now, you can imagine how excited I was when she announced she was writing a new series called *Blackstone Dynasty*! I haven't read anything by her for a long time and I was left completely satisfied when I finished reading her upcoming release.

Filthy Rich is the first installment of this series and it's focused on a new generation of Blackstones that includes Caleb (of course) and his brothers and sisters. But let's talk about this novel. *Filthy Rich* is the love story between Caleb Blackstone (the sexy CEO of Blackstone Global Enterprises, a man focused on his work -especially after losing his father- who will become obsessed with certain British interior designer) and Brooke Casterley (a woman who comes with a difficult past but wants to move on and that seems to be the case when Caleb starts wooing her).

Brooke and I were inevitable.

Inevitable.

Ladies, if you have read anything by this woman you know she can create sexy and swoon worthy heroes. Well, Caleb Blackstone is not an exception. The man is hot, smart, funny and completely intoxicated by Brooke's presence. He falls in love instantly and he is determined to claim what he considers his. I mean, what is not to love?

I fucked her like a madman, hard... deep... and wildly.

It's never been like this. It was beautiful and savage—it was filthy and precious.

It makes me sigh with satisfaction when I read a well-written and well-developed love story. Raine Miller's writing is flawless and fluent. I mean, I devoured this book in such a short time! I felt so connected with the story and the chemistry between the main characters that I could not stop reading. Damn, it has some hot

scenes in there! And that's why I can assure *Filthy Rich* is a wonderful reading journey.

I love him—every beautiful, generous, thoughtful part of him. And it was so easy to do so, as if he'd been made for me.

The only thing I have to say stopped me from rating this book with 5 or even 6 stars is that the love story between these two almost seems surreal. It happens in such a short period of time, especially for Caleb! I do get it's like love at first sight but everything happens quite rapidly. Still, I felt the love and the strong connection between the couple so it's all good for me!

Being loved by him was the best thing to ever happen to me.

Therefore, my rating for *Filthy Rich* is 4.5 STARS because this was a fantastic way to introduce Raine's new series and new characters. I am so excited to see all this Blackstones falling in love, I cannot wait for the next books! I highly recommend this, especially if you loved Ethan Blackstone and you want a new swoony hero!

Candace says

Please check out more of my reviews at www.bookaddicthaven.com

I listened to the Audible version of this book and it was just the type of light, uncomplicated story that I love for audiobook selections. It was sweet, predictable and admittedly cliché...but I enjoyed every minute! Sometimes you just need a little "fluff" in your reading regimen!

Caleb Blackstone is the dreamy, billionaire playboy. When he sets his eyes on Brooke Casterley, who is working as a server at a black tie event, he is immediately taken aback. It is insta-love.

After coming to her rescue when another rich party guest sets his sights on her and gets a little grabby, she leaves. Caleb resorts to some creepy, stalker behavior to obtain her name and address, even talking to her boss and following her home. (Of course, this type of behavior is only a problem in real life. In a romance novel, it is perfectly acceptable and doesn't raise any red flags. LOL.)

Once he has her information, she doesn't stand a chance. He comes on strong, wooing her with flowers and a new dream job. In literally one date, he manages to have her completely at his mercy.

Yes, it is as over-the-top and sweet as it sounds. You need to be in the mood for this type of book, or you'll spend a lot of time rolling your eyes. I was, so it was a good choice, but be forewarned.

As expected, when the happy couple starts to get cozy in their new relationship something happens to upset the balance. No big surprise here, but the billionaire playboy has a psycho ex-girlfriend that isn't ready to give up her fantasies of being Mrs. Blackstone anytime soon. Similarly, Brooke has a past that continues to haunt her and scare her away from men. After all, what good would a story be if there wasn't a little tension?

In the case of 'Filthy Rich', the dramatics are pretty short-lived. For the most part, it was a happy-go-lucky

type of story. Poor little Brooke is working her butt off to get by one day and she won the billionaire lotto the next. Bam!

Even when there was a huge - and pretty crazy - attack on the happy couple, it was passed over like nothing more than a small bump on the road to their HEA. Then, it is back to perfection for these two. I think this might have been the least angsty romance that I've ever read.

Overall, if you're looking for a straightforward, sweet and heartwarming type of story, this is a good choice. In fact, it was so straightforward that I questioned whether or not there was something going on beneath the surface. It just seemed too simple and I was sure that I was going to be blindsided by some big twist at the end. However, it didn't happen.

I listened to this audiobook while doing housework and cooking dinner for the evening. It was a great choice because it didn't require a lot of concentration and I could divide my attention between the story and other things. Literally, it was so straightforward that I felt like I didn't even have to think.

It was sweet, uncomplicated and cute. No twists or surprises here. Will it make a lasting impression on me? Certainly not. However, it was a good way to pass the afternoon and I enjoyed it. It left me with a smile.

Hulya Kara Yuksel says

Caleb Blackstone *sigh* <3 OMG I'm melting in here... :) I'm absolutely in love with this book!!!
Caleb is my new book boyfriend now. :) He's smart, so sexy but he's also so kind and thoughtful too.
My God, I just can't get enough of him and I can talk about him on and on... :)

Ps. Can't wait to read 2nd book too. James & Winter's story. <3

Deborah says

Beautiful sweet romance

I can't remember the last time I enjoyed a simple romance so much and when I say simple it's not an insult in any way I just mean it's a pure romance, no MC's, Mafia, Vampires or Shifters just a lovely sweet read.
Brooke is twenty-three years old and her life has been a bit of a roller coaster, we know she lost both her parents when she was fifteen years old and had to leave England to live with her grandma on Blackstone Island Massachusetts the rest of Brooke's story is slowly revealed as the book progresses.

Caleb Blackstone has the world at his feet, he's rich successful and enjoys women, his life is good and he's happy as a bachelor until everything changes the minute he sees Brooke and he knows she's the one.

Caleb can see the sadness behind her eyes he knows he has to tread carefully but once he realises his heart is committed there's nothing he wouldn't do for her.

This is the first book I've read by this author but it was a lovely read, if you're looking for sweet, a romance

where the man is 100% committed and madly in love then look no further.

ARC provided by NetGalley and Montlake Romance.

☆ Bianca ☆ BJ's Book Blog ☆ says

CALEB BLACKSTONE

His life is great. He's filthy rich. He loves his job. He loves uncomplicated one-night stands. Nothing is missing from his perfect bachelor-life. Until he sees her....Brooke Casterley.

I knew it the first time I ever felt the heat of her eyes as they burned me from across the room. I knew it down to in my bones. I was going to marry that lovely, beautiful girl from England, and she would be mine.

He's instantly fascinated. She's beautiful, strong, smart, funny, sad...
He knew the moment he met her that she'll be the future Mrs. Blackstone.
But of course it's not as easy as that.
Brooke's been hurt pretty badly in her past relationship. Both emotionally and physically.
She doesn't really trust that Caleb is as great as he appears.

And then there's the fact that Brooke's and Caleb's lives are connected in a small way.
Brooke grew up on Blackstone Island. As the granddaughter of the lady who ran the Blackstone family household.
But Caleb hasn't been on the Island for years, and after his dad died recently, his mom wants to sell the house. The house that meant so much to his dad and him.

Caleb doesn't want to seem too stalkerish. That's why he hires Brooke to redesign his Boston apartment. And of course all of her 'stay-strong' promises fly right out this million-dollar-view-window once she's in that apartment with him.

**What will happen with Brooke & Caleb?
Will there be a HEA?**

Or will there be a horrible Clifffy?

I'm not telling you that of course ? ?

?????????????????????????????

Amazing Story!

I loved it from the prologue all the way through to the end.

The whole Boston and Blackstone Island atmosphere is so beautifully comfortable somehow.

I just loved everything about the story without even including the main characters.

I loved Brooke's place of work - her co-worker: super-gay Eduardo. Adorably hilarious.

The ferry-ride into Boston and the talks with Herman.

Caleb's brother Lucas. Caleb's best friend James and his sister - who is Caleb's PA - who will probably get her own story with Lucas one day. ? Same with Caleb's buddie James and Caleb's sister Winter.

If this were a movie, I would say they had the most perfect casting director, script-writer and location-scout!

And now Brooke and Caleb. Perfect. The perfect match.

They just belong together. And we just want to fast-forward to their Happy End. But of course it's not as easy as that.

I loved how 'I-will-never-get-serious-with-one-girl' bachelor Caleb is so insta in love with Brooke. Totally adorable.

And Brooke. She's just as charmed. But of course she wants things to go slow, she has to be careful. She doesn't want to get hurt again.

Some problems are still left to overcome for the new couple - like sad pasts, family and exes, the paparazzi et cetera....but keep on reading...they'll get there. ?

I especially love the end of the book!

Can't wait for more in this great new series!!!

FILTHY RICH was such a beautiful and adorable love story. Run to your nearest amazon to find out how Brooke & Caleb will fight for their HEA!!!

If I had to name some things I didn't like. Hm...maybe only Caleb's mega insta-love. Usually it's the guys who have to be convinced that they're in love, but here it's the other way around. And all this insta-loving makes Caleb appear a tiny little bit mushy. Too soft. He doesn't come across as this mega, dominant, alpha male. Also the way he always asks her: Do you really like it? So unsure and unsexy :/ BUT - doesn't mean that he's all super-soft and ewww. I still loved him A LOT!!!!

And then the writing. I didn't like some parts of it. Maybe Raine was trying too hard to make Brooke british. Sometimes it worked and sometimes really not. Also, there were way too many I AMs and YOU AREs. I hate that. It's totally okay to use it to underline what someone says, but just to make someone appear more british or no idea what... Please use I'M and YOU'RE - it totally breaks up my reading flow???

BUT ALL THAT DIDN'T MAKE ME LOVE THE BOOK ANY LESS!

? ?
? ?

Penelope Ward says

Caleb and Brooke's story is the very definition of true romance. My heart is full. FIVE FILTHY FEEL GOOD STARS!

SueBee★bring me an alpha!★ says

★★★★★! Filthy Rich (stand-alone, book 1 of X). British girl is swept off her feet by larger-than-life Caleb Blackstone who will stop at nothing to have her!

“She'd turned me into one horny fucking creature, that side of me wanting to get buck-ass naked and lick each other's privates for a day.”

Books in Blackstone Dynasty series are stand-alones:

Book 1: Filthy Rich - Caleb & Brooke

Book 2: Filthy Lies - James & Winter

Book 3: Untitled

Filthy Rich opens up to heir, playboy and venture capitalist **Caleb J. W. Blackstone**'s life the day before it derails. Everything he knows or thought he knew, felt and believed will be rocked by an encounter with Junior designer **Brooke E. Casterley**.

From different worlds, a regular girl is about to get swept off her feet....

Caleb is determined to have Brooke and will stop at nothing to master-mind a rendezvous. Off-the-chart sex, candid conversation and an eerie connection has them both coming back for more, falling deeper into an affair.

With the odds stacked against them, they must discover what ties them together and sets them apart...

For the first time in his life the commanding and self-assured **Caleb J. W. Blackstone** finds himself intrigued by a woman. Seven words to describe **Caleb**: Captivating, controlling, worldly, determined, confident, dirty-talker and possessive.

Seven words to describe **Brooke E. Casterley**: Innocent, unassuming, naive, loyal, caring, broken and private.

Filthy Rich, told from dual POVs, is a **whirlwind affair** with a larger-than-life hero and a heroine who can hold her own. There is **seduction, steam, secrets, painful pasts, set-backs** and a destined **butterflies-in-your-belly** romance that ends perfectly. I cannot wait for the next story about Caleb's sister and best friend in book 2, **Filthy Lies**.

“I was a motherfucking caveman with my woman beneath me.”

*******FOUR STARS*******

{ARC Generously Provided by Author}

Nothing was familiar when it came to Brooke. Each new thing we shared together felt to me as if I'd never done it before, and more importantly, as if I never wanted to do it again with anyone other than her—ever.

Fans of Raine Miller are in for a treat with this new spin-off series, *The Blackstone Dynasty*. I was a little sad that Ethan Blackstone never makes an appearance in this one but I do believe that Caleb Blackstone will melt a few hearts out there. Those of you who have read Raine's other books, know all too well that she can deliver the decadent steam like no other and we get it and then some in **Filthy Rich!!**

Caleb Blackstone has kept himself very busy running the family's empire for the past several years and hasn't had much time for anything else. His personal life has been filled with one-night-stands and a few meaningless relationships that never outlived more than a few months. He's never been tempted to want anything more with a woman until the day he sees a strikingly beautiful woman leaving the Starbucks he frequents and entering an interior design office next door. He's even more surprised when he sees the woman again, serving hors d'oeuvres at a charity dinner later that evening. He ends up coming to the rescue when one of the guests gets a little too handsy with Brooke. Caleb later learns that it really is a small world, when he finds out that she lives on Blackstone Island with her grandmother, who was the cook for the Blackstone family for over thirty years.

Brooke Casterley is no stranger to heartbreak. She lost both of her parents when she was only fifteen and had to leave her home in England to go live with her Grandmother in Massachusetts. Her life on Blackstone Island turned out to be a good one but while she went off to college she became involved with a man who would turn out to be a master manipulator and abusive. Once again, tragedy brings Brooke back to Blackstone Island. She's trying to get her life back on track and a relationship with another man is the last thing that she needs or wants. But sometimes the one thing you think you can do without, happens to be what you need the most!!

There is no mistaking the insta-love factor in this story. Caleb has hearts and flowers coming out of his eyeballs the moment he sees Brooke and he vigorously pursues her. But he's so very charismatic and I couldn't deny the fact that I might have been wishing I were in Brooke's shoes. Don't even get me started on how incredibly hot the shmexy factor is in this book!!

Danielle ♥? Pretty Mess Reading ♥? says

****4 STARS****

This book was just what I needed right now! Filthy Rich (Blackstone Dynasty Book 1) by Raine Miller was the perfect book to bring me out of my “dramatic” book run.

I'll start by saying everything about this book is cliche and I hate cliche. Now, I will also tell that this book does cliche so damn good that I ended up loving cliche. There's no huge plot or drama, just two people getting to know one other.

Caleb is so damn sweet and cute! He is everything you need for a book boyfriend. The number one thing I love in my book boyfriends is their looks and he is sexy as hell. Now we can obviously throw in the fact that he is a billionaire. Yes, it may be a bit shallow but I've been called worse. He is also loving, sensitive, open minded, generous and thoughtful.

Brooke is healing from a pretty significant loss, bless her heart. What do beautiful girls in romance books do when they need heal? They move back home with family and friends. (I told ya, cliche. All the way down to gay male best friend.) I didn't like nor dislike Brooke, I was just indifferent. Not in a bad way, she was just the type of girl who blends in to me.

Brooke is a crier, not your normal crier either, she just randomly starts crying for any reason. Caleb is sweet about it though, he's not weirded out by it like I was. I'm like a man – it makes me uncomfortable and I don't know what to do.

It's like I want to give you a hug or something but I don't know if that's going to make you cry more or less. So, yes, crying makes me uncomfortable. Which in turn made me feel indifferent about Brooke. I needed to separate myself from all that.

When the crying really started to get on damn nerves my question were answered and the reason she cried all the time made sense. I was so happy about that because the crying was starting to work my nerves.

Caleb, like any man, wanted Brooke in his bed. He was open about it but he never forced himself on her. He was patient with her and never forced the issue and I appreciated that in him. Brooke loved his honesty too.

Caleb and Brooke's relationship progressed well, even though he fell in love with her a little bit quicker than I would have liked. The whole "I love you" thing freaks me out. *OMG, I really am the female version of a man.* Yeah, anyways Brooke was okay with it after a while and that's all that matters. I can respect her feelings about Caleb telling her a little bit too soon that he loved her. I would have been running for the hills! LOL!

All in all Caleb and Brooke worked well together and it makes you believe some people can experience love at first sight.

I'm recommending this one for our true romance readers who love simple, modern day novels.
