Letting Go of You

J.M. Witt

Letting Go of You J.M. Witt

Strong adult sexual content and loads of mental anguish. Grab your tissues! 18+ only.

James,

Letting Go of You will be the hardest decision of my life.

We were devoted and committed to one another. Secret clubs, family, friends, careers and undeniable chemistry filled our lives. Previous troubles seemed nonexistent. We were ready and willing for whatever life had to offer. Life was perfect. If only 'perfect' really existed.

What I didn't expect was that one tragic event would trigger the demons you kept hidden from me. I had to decide if I could live with not knowing your secrets. And just when I thought we would make it through, another hurdle was placed in front of us. Tragedy, murder, first loves, old enemies, and death lingered at every turn.

Will your demons be the death of us? Or will my anchored heart be strong enough to hold on?

Only You
~Cassidy

From Reader Review Letting Go of You for online ebook

Monique says

This book is very emotional it pulls you in from the beginning. While reading this book I would get angry, and sad all at the same time...While reading this I would feel the emotions of the characters. the writer is really good at writing and you can feel the pain the characters go through.

I really enjoyed reading the story. I loved the other two books in the series both finished with cliffhangers just like the first two books this one has a cliffhanger and leaves you wanting more.

There is a lot of drama and sex. If you like reading about a strong female and a strong male with drama and lots and lots of sex then read this book..

The only thing I didn't like is how the two main leads would have so much drama and struggle with each other, but only seemed to connect and be happy during sex. I love reading romance and hot steamy scenes, but sometimes I also want more then just sex in every chapter.

Can't wait to read more... and see how their story ends.

Heather says

I think Letting Go Of You is my favorite book in the Anchored Hearts series to date.

James and Cassidy are back as are Cal and Jane. Some of this lines up with timelines in Cal and Jane's book and then continues on so we get a peek at what was going in Cassidy and James's mind for some of these situations.

We get to know Melissa a little more, and dare I say it, I managed to drum up a little teeny tiny bit of empathy for her. Not enough to want her and Cassidy to be BFFs, but enough to not want to plant her in the ocean with cement shoes on.

Paul enters the story and we get to know him as well.

There is so much tragedy, so much heartache, but still so much heat between these two in classic J.M. Witt style. The woman knows how to write a sex scene or three. Amazingly hot.

J.M. did such a good job bring Cassidy's frustrations and heartache across the pages to us. She had me sympathizing with James and what he was going through while wanting to knock some sense in him.

She also had me internally bucking against something that feels like it could happen coming up when I want something else to happen. Way to be vague, eh? :)

Absolutely amazing book and a great addition to this series that I have come to love.

I cannot wait to read the next one, Fading Away, when it comes out. I am addicted to these people and their stories.

Thank you so much for my copy of Letting Go Of You!

5 stars!

5 emotional ☆★☆★☆'s

Cassidy meets James's mom and automatically clicked. She told Cassidy that she is dying and when it does happen, she needs to be patient with James.

OMG! Reading the first chapter I was already sold. The sexy-electrifying scenes just got me all blushing and other stuff I can't say.(winks) I felt the love James had for Cassidy like it was me in her shoes. So realistic and it made me want to do so many bad things to James, a girl could ever think of. I have been waiting for book #2 and as soon as I started reading I just could not put it down.

James is still afraid of committing to forever, but for Cassidy he knows she means forever. It hurts knowing that someone your with doesn't see you as his forever. Every time they fight James tends to just walk away instead of solving the problem and see it head on. But he's not the type to have a talk with, when it comes to a conversation about something he's never done before. Like commitment is a new territory for him. I love that he is doing the best he can to let go all the doubts he has from his past. He's basically living in the past, that it's affecting his relationship with Cassidy. Until one tragedy happened, the walls had to be broken down in order to fix the mistakes done and they both have to decide if this is what they both really want or time to walk away from each other.

This book was emotionally wrenching and really pulls at you. You get angry, furious and you definitely feel heartbreak, but there's also the love between Cassidy and James and you see the confusion they both dealt with because of the back to back hurdles they had. This is a book you don't want to miss!! What an emotional rollercoaster journey. I can't wait for the next book. Be WARNED there is a CLIFFHANGER!!!

Tami czenkus says

What happens when your past collides with your future with the one you love? Will you fight? Or are you strong enough to let them go?

James and Cassidy Love each other immensely, Their love is the type of love that can be toxic if allowed to be.....

Ugh! I was one of the lucky ones to have had the honor of being a beta for Letting Go Of You, and I will warn you now, ROLLERCOASTER of the best kind! I had EVERY emotion pulled out of me throughout the entire book!

James and Cassidy go through tremendous trials and tribulations, Cassidy wants James to trust her with his past to help him heal, but James will do ANYTHING to protect her from his demons!!

Take the journey with James and Cassidy and connect with them and they try to protect and heal one another, Will James push Cassidy into an old loves arms just to protect her? Hold on tight for a bumpy ride!!

I am in love with this series, full of tragedy and angst, love and humor as well!

Karen Hrdlicka says

With each book JM Witt's writing becomes tighter and more focused. After reading Letting Go of You, I may suffer from a severe case of emotional whiplash. The intensity of the storyline and the emotions have the reader all over the place; the highest highs and the lowest lows. At times the book is humorous and other times it is brutal. There is no way a reader can not become emotionally involved with James, Cassidy, Paul, Jane and Cal.

This book is well plotted and paced. The characters are more defined and the exchanges between them are realistic. As in all good romances, the sex is sizzling. Like a an amusement park ride, just when the reader gets comfortable with the story; the bottom drops out. The reader is plunged into the darkest secrets of the characters. The secrets that can break them all. When a past love re-enters the scene, the plot twists again. I grew to love the characters through Ms. Witt's books and the angst they suffer is truly moving. The chemistry between James and Cassidy is explosive, but will it end up blowing them out of the water?

Margaret says

4.5 “Damn You Witt” Stars

After the ending in Hiding Away, I couldn't wait to get to the next book in this series and JM Witt did not disappoint! This series is quickly becoming one of my favorites – and I just loved everything about this book and James & Cassidy's story. I love when two people who are broken find each other and make those broken pieces fit together. I love when there are surprise twists and turns to a story that keep me off-balance, causing me to re-think what I thought I knew, or showing me how I have totally misjudged a situation. And as much as it hurts, I love when a book can feel so real that my heart breaks with that of a characters. Letting Go of

You did all those things, and had me riding the waves of emotions with James and Cassidy, as well as many of the other characters in the book.

There is a lot that is going on in this book, and there are so many interwoven storylines. In addition to James & Cassidy's story, we get to know more about the people in their lives who impact them and their relationship. We learn more about Paul and his relationship and past with both Cassidy and James. We learn more about Melissa and I almost start to like her...almost! We find out what happens to Cal and see how Jane's past affects and effects everyone's lives. We see James go into uber-protective mode when Cassidy is still being threatened. And all the while I found myself falling even more in love with both James and Cassidy as they tried to deal with things the best they knew how.

From James trying to keep parts of himself from Cassidy to protect her...

"Cassidy, please don't over analyze this. Us. We've got a good thing going. I love you. I don't know what else you want me to say."

....to Cassidy not being able to resist James, even though she knows she needs him to open up to her...

He pulled back and kissed me. His lips were like my kryptonite. The minute they touched my body I was a goner. I'd do anything, say anything, and be anything he wanted me to be.

...I found myself riding the waves of emotions with the characters – from heartbreak to love, from anger to joy, from confusion to clarity, I felt every one of them.

"I'm sorry about everything. I'm a work in progress. But always know that I love you and I won't give up on us. Ever."

And once again JM Witt leaves us on the edge, hanging on for the next book to find out what happens with James and Cassidy and many of the other characters. So, damn you Witt...you've done it again! You've given me a great story with wonderful characters and left feeling satisfied, for now, but hungry for more!

I was given a copy of this book from the author for an honest review.

Letty (Cover to Cover Book Blog Reviewer) says

J.M. Witt did a fantabulous job keeping me on the edge of my seat, tapping my feet, and moving like I needed a potty break.

Having been left with my hands pulling my hair and tears running down my face after reading *Hiding Away*, I couldn't wait to get my hands on this book and find out what happened to Cal, Jane, Cassidy, and James. This was a definite rollercoaster...similar to Disney's Space Mountain. You are riding along, adrenaline pumping in your veins, and the screams stuck in your throat. Just when you think the end is near and

everything will be resolved, you are thrown for another twist.

We know that Cassidy and James love each other. Their love is explosive and sexual. It is sensual to the extreme and you can't help get all hot and bothered when they're on the scene. The pull between them is so magnetic, that any trouble between them is impossible to see. Yet, trouble there is. The past comes back into play and it wants to stay. Cassidy is so determined to have James trust her with his issues and he's so adamant about keeping her away from his demons, that wrong decisions will be made.

Emotions will run rampant and you will be like a chicken without a head, trying to make sense of what you're feeling. Crying, laughing, love, anxiety, will all take residence in your soul and you will end up on the verge of kissing the wall with your reading device. Your head will be spinning (remember the Exorcist?) and your body will be shaking... your heart will be pumping erratically, but you will not regret reading any second of Letting Go of You. I can't express how much I loved reading this book and the story is so fantastically written, that once I sat down to read it, I couldn't stop until I was done.

J.M. Witt, hurry up with the next one!!!!

Estelle Martinez says

J M Witt has given us yet another amazing read. We all love JB3 and Cal But theirs a new man in the mix and you are not going to want to miss out.

We all know that JB3 has some inner demons but what happens when the demons get the best of him. Let's not forget some very tragic moments that will have you in tears. Well at least for me I was.

Cassidy the sweet heart with some feisty claws we have all come to love seems to be in danger once again but you have to wonder is the threat to her closer than we all think. Cassidy is always fighting a love battle but what happens when your past comes home.

Jane and cal the rocks in both James and Cassidy lives have some battles of their own but their love pulls them through if only their love could be transferred to others.

We not only get drama, murder but we get the hottest scenes every. Wow JB3 can be one sexy Man if you like to be spanked lol well I won't give any more details you will have to read this Steamy Drama filled book for yourself

Julie says

5 STARS

This is tearing me up inside. James is so loving, protective,

and sweet yet too hard on himself. In this second book there are so many twists and turns, ups and downs, and pasts that are coming to surface and causing chaos in their relationship. A major occurrence is James undoing and the heartbreak begins in a downward spiral. To top it all off an arrival of an old friend proves it's a small world indeed and may cause more problems unexpectedly. This is worth the read. On to book #3

Tracey Marec says

*****Warning*****

Letting Go of You by the amazing J.M. Witt will leave you daydreaming of unfulfilled fantasies that only JB3 can fulfill. And by the end of this book you will have the inability to eat, sleep or think clearly. Your only thought you will be left with is... What's next and how soon will the next book be out?

I was lucky enough to have been one of the Beta readers for this book.

James and Cassidy have such a magnetic pull toward each other. They can feel when the other walks into a room without even looking. They have had that connection since night one at the bar. They know when the other is hurting or needs to be held or just listened to. James and Cassidy know how to love each other whole heartily. However, they also know how to destroy each other like no else. James is fiercely in love and very protective of Cassidy. Cassidy's overwhelming love and devotion for James will be put to the ultimate test in Letting Go of You.

The character development is astounding and can only be accredited to Witts impressive and skillfull writing. She gives us more of Cal and Jane as they progress through their relationship. We find out just who Paul is and exactly what he wants. Witt also gives us more of James and Cassidy. The love they have for each other will make your heart beat rapidly, weak in the knees and panties soaked.

Personally you will go through a whirlwind of emotions from crying, laughing, yelling, anxiety and some relief. You will want to throw your Kindle/book at the wall and take a time out! But trust me when I say that this book is one that will leave your head spinning and your heart unrecognizable.

I cannot wait for J.M's next book in her Anchored Heart series. Letting Go of You is by far my favorite in the series so far and I've loved each and every one of her books!

Skye Turner says

Damn you!

I have read this series from the get go and I've loved every book.

Letting Go of You did not disappoint. I was involved and invested in the story from page 1 and it never let me go until I cussed JM out with the last page. (I do this with every book, but I LOVE them!)

Letting Go of You delves deeper into Cassidy and James's love affair. It's touching and complex and gritty and emotional and makes you want to scream and throw things, but that just makes it all the more real.

You WANT to pull for this couple, yet in this book, there are obstacles thrown in the path and the navigation is enthralling.

Cal is still my fave and I love that he's back in this installment, but now we have more characters to contend with.

There is a lot going on in the story, but it's well executed and not at all confusing.

I was left at the end with a clenching gut and twitchy fingers...

I'll be continuing on this journey and highly recommend that you jump on this thrill ride if you're a fan of roller coasters.

5 complex stars and one fan of JM Witt from this reader!

Marina (Living In Our Own Story) says

WOW!!!!

I was lucky enough to BETA read this book and...

I have no words. The book is just amazing. And yes, the first two book in the series were good, but this one is so much better. It has a little bit of everything:, romance, suspense, danger... And of course, it is burning HOT!!!

I loved seeing how James and Cassidy's relationship develops and how they deal and try to overcome all the difficulties they stumble upon. It was also quite interesting seeing some of the characters in a new light and meeting new ones (first loves, old friends, people from the past...)

Once I started reading, I just couldn't stop. The book is so captivating and I am sure everyone will find something they will like.

The only thing I didn't like is that now I would have to wait few months for the next one to come out ;)

Definitely a recommended read :)

C.M. Johnson says

Letting Go of You by J.M. Witt is the perfect continuation of the Anchored Hearts series and, just as Letting Go would not and worked with Hiding Away to keep you doing just that until you devoured every word, Letting Go of You will also hold you trapped in the world of James and Cassidy. The chemistry between them flares off the pages in a firestorm of heated passion threatening to turn the fragile pages of their lives into so much kindling.

From the moment you begin reading, you are drawn into the amazing world James promised to introduce Cassidy to at the end of Letting Go. The attraction between them is undeniable and seems to be unbreakable until tragedy, murder, and secrets begin to pile up. Can a love that burns like a supernova survive so much adversity? As the turmoil reaches its inevitable head, you will want to reach into the pages of the book to slap both James and Cassidy.

As the third installment in the series, this book promises that the whole Anchored Hearts series will not be

Letting Go of You anytime soon...

Elaine says

This is one of the best books that I have read in awhile. As the story continues for James and Cassidy, J.M. has gotten better...I love this woman...She know how to pull you and rip you soul..This book needs to come with a warnings,it is very emotional and I know that I cried every time I turned the corner with this story.. This book is a must read of 2014....

Love you lady...

Claudine Van says

Wow! 4.5 stars I'm really enjoying these books cant wait for the next one!!!
