Christopher says

More of what we enjoyed / hated from the first book. One of the stories was about our Doctor Haledjian knowing what side of the skirt is on. Well good for him!

The good ones are a lot of fun but the bad ones are worse than groan-worthy. You're just left wondering where Doctor Haledjian lives that there are so many dead people!

There was one story where he wasn't in the jurisdiction of the death but since it was a close personal friend he went up there anyway, saying that he doesn't mind upsetting the sheriff. What?

Y says

This was so cute! Found it in one of those little free libraries, read it in a couple hours. I will say that it's very vintage, but that added to the appeal for me... even if I had no idea what telephone booths were like back in the day.

Dharia Scarab says

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

Robin Herrera says

I had the first book in this series when I was a child. I read #3 about a year ago, but tracking down #2 was

extremely hard. (I had two instances of getting #3 instead of #2!) But I finally got it, so I was able to read the remaining Haledjian mysteries.

This book is severely dated (the others are as well) and relies on tired stereotypes (one of the answers to a mystery is "No woman would hang up a mink coat she'd just bought - she'd try it on immediately!".... yeah, okay), but some of the mysteries are fun to try and solve, even if they make you feel stu[id for not knowing the answers. (Especially when the answer starts with, "As any student would know...")

Sarah Foote says

Okay this is one of my favorite books! Oh my word I was just reading it for fun because it is just really fun, then I looked in the cover and it is worth 3 points! So why not! Some of the questions are really, REALLY hard. So far I think I have gotten 7 or 8 right, but I am almost finished with the book! I suggest that you read this book if you like figuring mysteries out! :-)

Charles says

These are extremely short but kind of fun. I take books like this in the car with me. You can almost read a story at a stoplight.

Arwen says

A book of short stories/mysteries. Would be fun to read with kids, but not so interesting to an adult.

Jackson says

Ditto.

Muhajjah Saratini says

Bukunya belum ketemu lagi, hiks.

Nanti kalau beberes rak sudah selesai dan buku ini ketemu, baru lanjut baca.

Rebekah Alexander says

This book is captivating and good for the brain.

It makes you think 'Now what is hidden inside this story?'

i really liked this book and would definetly recommend it.

Katie says

It was pretty good, but some of the mysteries were so totally random that I was thinking that no one would ever get them. I was also thinking that the evidence wasn't enough to arrest someone, like a typo or a certain page number. The suspect was immediately arrested after that found one little bit of information

Courtney says

Quick brainteaser stories for kids.

Siskiyou-Suzy says

In this bizarro world, people make mistakes in their made-up alibi stories, but they do not make mistakes otherwise. Therefore, if somebody describes looking to the left when they meant looking to the right, and that messes up their story, they should be arrested.

Susan says

Some of the solutions are a little dated in their "as everyone knows..." statements, but these mysteries are fun, quick, and easy to read.

Brittany says

Enjoyable short mysteries to get your brain working.
