**The only one who'll break her in this spring is me.**

For the next week, a group of billionaires who call themselves The Exchange have taken over my Gulf Coast resort.

The desperate assholes buy and sell women like livestock.

Please. I've never paid for a woman's company in my life, and I don't intend to start.

That all changes the second I wrap my arms around Mallory Crane's soft curves and save her from drowning.

The sweet nineteen-year-old is too pure to fulfill my dark and dominant needs, but I'll pay whatever it costs to make sure I'm the highest bidder.

I'll buy her so no one else can have her.

But when she shows how much she enjoys being under my control, I decide to cash in and take what's mine.

The million-dollar f\*\*k will be worth every penny.

And when spring break ends, she'll go back to her life and I'll go back to mine.

No falling in love.

No happily ever after.

Just pure unadulterated first-time f\*\*king.

A win-win for both of us.

**But what if my heart refuses to let her go?**

*\*Sold on Spring Break is a standalone romance novella with no cliffhanger and no cheating. It features a dominant billionaire alpha male and a strong BBW heroine who earn their happily ever after. This novella is a super steamy little treat. Bonus Content included*

I am always amazed by these SOLD stories. I like the strong heroin and the hero that must get soft to get his HEA. Absolutely once again a story that is well written with a great storyline and plot. The characters are likeable and strong. Their chemistry is over the top and they are very passionate. Absolutely a fantastic read.

CONNERS STRIKES GOLD AGAIN!!!

Here's another fast paced, pulse racing, heart pounding, smooth flowing read that capture your attention from the start. A no-holds-barred kind of romance that will definitely get your motor running in high gear just to cruise on through. The characters were well paired, intriguing and complex as the story unfolds. Following them along I was mesmerized as their personalities transformed and grew stronger. The chemistry between the two main characters was white-hot and explosive you could almost feel the flames as the heat rose. The scenes were so vividly detailed and descriptive it was an incredible feeling as it came alive before my eyes. Connors does not know the meaning of can't, because she can sure push the limits for her readers enjoyment. Incredible job Connors, thanks for sharing this little guy with us.

Being tricked into going to an Exchange Club event where wealthy men but the company of young beautiful women, Mallory meets the man of her dreams. Bryant doesn't want anything to do with the event but pays the highest bid for Mallory.

The best part of the story was it was cowritten by CA Quigg and Julianna Connors.

#### **Sexy little read**

Loved the storyline - great when a nasty person gets their comeuppance. Love the kink and the innocence

and the love that develops and the reasons for why people choose to do these things!

I have read some of C.A. Quigg's work before and fell in love with it, so when I heard that she was teaming up with Juliana Conners, I was seriously looking forward to reading this book. I love short stories but at times when the authors have written the characters so that you just fall in love with them, you can't help but get attached to them, I was gutted when I got to the end as I wanted more from them. I am seriously looking forward to what else both C.A. Quigg and Juliana Conners bring us as they are both talented authors.

Mallory is a 19 year old virgin who is the daughter of an overbearing politician that has made her mother go mad. Her best friend tells her that they won a vacation at a resort in Florida but doesn't tell her how they won this until they are almost there. They are going to be auctioned off to the highest bidder for Spring Break. Mallory absolutely is against this and states that fact when they go to check into the hotel. She decides to go to beach but gets tugged into the under current and feels she is going to die. When a very sexy man rescues her then gives her a lecture especially while naked since she lost her suit, she is completely stunned and embarrassed. She goes back to her room and he doesn't leave her mind for the rest of her time there. Bryant is the owner of this resort and when he finds Mallory in the water and saves her, he is instantly attracted to her. He's so attracted he figures she is there to be part of the convention that he isn't too happy about hosting at his resort. When she confides to him that she is not selling her virginity, this gets him more excited and attracted to her. When Mallory's friends becomes sick and cannot participate in the auction, she has no choice but to do so otherwise pay a fine of ten thousand dollars. She concedes and decides to go through with this so she can help her friends mother with a camp she has for under privileged kids and she can also use some money herself to get away from her dad. When it's her turn to be auctioned, she cannot see anything or anyone due to being blindfolded. When she hears that someone has bid 1 million dollars for her she is absolutely confused. She's told to go to this office in the building and wouldn't you know it when the door opens there is Bryant. He couldn't stand anyone else having her. What will happen next you ask, well you will have to read the book to find out. It's a very steamy, sexy and quick read. I voluntarily read an Advanced Reader's Copy of this book. Enjoy

#### **Good collection of stories**

A good collection first meetings between sexual partners that leads to something more and won't leave you

hanging and wondering 'What's next?' from each one.

Definitely worth picking up for a good series of reads when on long trips or to past them time.?

Well written quick read by Julian Connors that have you hooked from the moment you turn the first page until the turn of the very last page! This book is smoking hot!!!!

---

### **Lisa says**

This book is filled with stuff and things, jk (you will get it when you read it).

These two kind of both stumble into a situation they didn't intend to. She didn't plan on being in an auction and he didn't plan to participate. Fate through them together and there is instalust, instalove, instaHEAT in this novella.

This has a hea and 2 points of view and is a good weekend guilty pleasure read. It had a twist too that I wasn't expecting.

I received an arc of this.

### **Annette says**

Fast paced & quick read for those days when your reading time is limited. The plot is pretty much the same as the others that I had already read in this series but of course the author always adds some depth to the characters in order to make what the girls are doing more realistic or justified. I think this is a great concept and makes these short stories about more than just sex. Glad he rescued her and they found each other.

### **Candy says**

Mallory thinks she is headed to Florida with her best friend Tanya for an exciting Spring Break trip to a resort that Tanya won. This will be Mallory's first adventure away from home & her very strict father. But on the drive from Georgia to the Florida coast Tanya tells Mallory the truth about their 'free' vacation. They are signed up to auction off their v-cards to wealthy men belonging to a group call The Exchange. Mallory will have absolutely nothing to do with the whole affair & makes that known when they arrived & sign in. When circumstance beyond her control force her to take part in the auction she is most worried about the type of man who will bid on her. Will Mallory have to give up her v-card? Who will win his chance with Mallory? What will happen when Mallory returns home?

This third installment of the Sold books is co-authored by Juliana Connors & CA Quigg. They do a remarkable job with this Sold story bringing to the reader. You feel empathy for the life Mallory has been forced to live to protect her younger sister & you feel pride in the fact that she steps up to the plate to help friend & herself out of a tough spot. Our male hero, Bryant, is one dominate alpha male but he can't help but fall for Mallory. This is a short novella with a HEA ending. This book is meant for mature readers.

I voluntarily reviewed an Advanced Reader's Copy of this book.

**Karina says**

A quick and sexy read about Mallory, a girl who dreams to get away from her controlling father and Bryant a business owner who doesn't think love is in the cards for him. A well written story with great characters. Two people not expecting to find love during spring break in Florida. Mallory and her friend Tanya go to a resort for spring break and Tanya has signed them up to be auctioned off. Mallory wants nothing to do with it but when Tanya falls ill and can not raise the money to save her mothers camp for underprivileged children, Mallory agrees to take her place. Bryant met Mallory earlier in the day of the auction and when he discovers she is in deed being auctioned off he makes sure his is the highest bid. I really enjoyed this story and the wonderful HEA.

I voluntarily reviewed an ARC of this book.
