Kiersten says

I loved the series. It was an interesting universe with solidly developed characters and a spellbinding plot - and a sad ending...but overall, a great series.

Josie says

I have not read #4....but I did like 1-3. Good characters.

Cindy says

I truly enjoyed each book in this series. The story is not so simplistic that it cannot be enjoyed by adults, but it is not so adult that a child would be lost either. It is a good combination of fantasy and adventure.

Aubrey Hinchman says

I loved the first 3 books. After that it just got boring.

Cody says

My absolute-favorite book series.

Marita Mendenhall says

Fairly good fantasy book, young girls would enjoy

Deelen says

i read all of theses books when i was younger and i absolutely loved them. the books are well written and very descriptive. Patrick Carman has a way of writing that captures and mesmerizes the reader. i'm not sure if it was intentional, but there seemed to be several religious parallels in these books (ex: Abaddon is one of the names for Satan, Elyon is one of the names of God, and Abaddon was cast into a pit just as Satan and the Beast are in the book of Revelations in the Bible. there are others but i dont want to spoil the books for anyone.)

when i read these books i found that reading "Into the Mist" (a sort of prequel to the series,) between "The Tenth City" and "Stargazer" was better than reading the series in order and then reading "Into the Mist". "Into the Mist" reveals a lot of information about histories of characters in the book that are useful to know in the series. plus, "Into the Mist" picks up where "The Tenth City" leaves off and ends where "Stargazer" begins.

all in all i say these books are a phenomenal read!

The Land of Elyon Book 1: The Dark Hills Divide

The Land of Elyon Book 2: Beyond the Valley of Thorns

The Land of Elyon Book 3: The Tenth City

The Land of Elyon trilogy by Patrick Carman is a fairly engaging fantasy featuring a spunky heroine who saves the world from evil. The religious allegory is a bit much at times, especially in the third book. These books are best for upper elementary to middle school readers; the plot may be too thin to keep older readers interested. My favorite character was Murphy the hyperactive squirrel, who appears in all three books.

Melissa says

this was a fantasy series i picked up in my school library. i really remember liking it and really liking the fantasy world this takes place in.

Ji Mei says

This series was very intriguing and new. I loved the animals and the surprising end of Tenth City. I haven't read Stargazer or Into the Mist, but I plan to!

Michelle Boulter says

My son started reading this series and he is now on book two. I wanted to know what he is reading so I picked it up and read them all in about a week.

The story is about a young twelve year old girl that longs for adventure and to go beyond the walls that surround her city. I think this is a great book and recomend it to parent and child alike.

Carrie says

These quick reads are ok - 3rd or 4th grade girls would probably like them more than I did.

Chantal says

GOSH THESE BOOKS WERE MY LIFE. i'm pretty sure the second one was the one that got me into reading, so i'm very sentimental about them. so whimsical and interesting and original and just everything you want in a 9-12 adventure series.

Cali says

Not exactly riveting, but a quick read and great for young readers.

Nate says

I think I read the first book in this series, but after that, I just didn't get into it enough to finish the series.
