To Love and To Kill

M. William Phelps

To Love and To Kill M. William Phelps

“Phelps dares to tread where few others will: into the mind of a killer.” — *TV Rage*

“Phelps is a true-crime veteran.” — *New York Post*

The missing-persons case of Heather Strong, a young, beautiful suburban mother, baffled Florida detectives. When the file was handed to a veteran investigator, he knew Heather was dead. The challenge was to find her body—and whoever killed her. Soon, a sordid triangle of sex, jealousy, and rage came to light. The killers were cunning, manipulative, depraved—and they were as close to Heather as a man and a woman could possibly be. Vividly recreated by master investigative journalist M. William Phelps, this riveting account of seething small-town passions is a classic tale of crime and justice.

Includes 16 Pages Of Dramatic Photos

From Reader Review To Love and To Kill for online ebook

Terry says

Terrible book. TimeLine of story is impossible to keep track of. Whole book is disjointed and hard to follow. Editing is poor. In one instance the victim's name is confused with the murderer's name in the same sentence.

Henry Lawrence says

The author kept repeating the same material over and over. Sometimes I felt like I had gone backwards in the book. Finally, about half-way through the book, we moved forward into the trial phase. There were additional flashbacks and repetitions, but not as bad as earlier.

I think the author took a 100 page story and fleshed it out into book length.

The story was interesting, but not worth the ponderous length.

Alisi ? wants to read too many books ? says

Dear lord, this is a book I should've listened to the reviews instead of ignoring them. This isn't the worst or second worst true crime book I've read but it's in the top five. The description makes it sound much more interesting. The crime itself was stupid. There was nothing cunning to it. The stupid morons basically confessed in the first interview.

So what, then, consists in this long-long book? Basically just rehashing the confessions over and over and over and OVER again, while adding details that were in terrible taste. Basically the killer hubby blamed his pregnant girlfriend and the girlfriend blamed the killer hubby. That's all there is to it. Hubby is a classic abusive SOB. He tries to add some reasoning (oh, I thought she dun let some guy molest my kids -- no proof what so ever -- this is classic abusive BS) and still blames her.

We get this over and over and over again. He never STOP rehashing this. Even during the fucking trials.

And the added details? Oh, like telling us the reason the killer hubby was sleeping with the pregnant girlfriend was because, even after 3 kids, her vagina was still tight. DID I NEED TO KNOW THIS? I THINK MY LIFE WOULD'VE BEEN WAY BETTER IF I HADN'T KNOWN THIS. THANKS PHELPS.

Ronnie Cramer says

This book has 106 short chapters, many of which end with a sort of wait-til-you-hear-what-happened-next kind of vibe. Phelps is a talented writer, but the case is rather average and lot of the material gets repeated; in my opinion the book would have been more effective at half the length.

Savanah Rae says

I love M. William Phelps and I enjoyed reading this book. I've read mostly all of this books.

Heather Strong goes missing and everyone that knows her, knows she wouldn't leave without her kids. She has a rocky relationship with her husband Jason. He's been in and out jail and he cheats on her all the time. She has two children with her and she's ready to move on with her life. She's a beautiful woman and she doesn't need him in her life.

Josh meets up with Emilia who is a wild girl. She has a few children herself and she ends up pregnant with Josh's baby. He now will have three children with two different women. He keeps leading Emilia on and keeps going back and forth trying to make things work with Heather.

Heather won't let them be happy together, Emilia thinks.

This book was crazy and all about revenge. I couldn't believe how much Heather Strong made a mistake getting involved with Josh in the first place.

Andy Nieradko says

Another perfectly written, well told true crime story by M. William Phelps. It's a tragic, disturbing case, but the reader is guided through all aspects of it in very thought provoking ways.

♥ Marlene♥ says

Terrible terrible terrible. What a struggle. The repetition! The lies! It seems the author wrote every thought they had in this book and then some.

I do not get why I am still reading it. (probably because I am not sure what to read next besides the 1 book

Newtown: An American Tragedy

which was a gift from my wish list but it is about the Sandy Hawkes shooting and not sure if that book is good for me at the moment how I've been feeling lately. I need something fictional. I need a good book that can sweep me away. Help!! Yes I know why. I was hoping for the truth. Nearly done.

Lorie says

Yet another home run

for Phelps in the true crime genre. I like his honest observations. It's ironic in this day and age of forensic evidence, that Carr was convicted without a shred of evidence, but just goes to show that the most tangible of

evidence was her own confession, albeit unintentional...via Josh's sister. Good read.

Bonnie Kernene says

This book was about the murder of Heather Strong by Josh Fulgham and Emilia Carr. The book is an in-depth look at the people involved, their pasts and what transpired between them. Throughout most of the book is the questioning of Josh and of Emilia. Both of them are vile, disgusting liars. To know that they took away Heather Strong from her children and her family is just heinous. They are right where they belong. The book was compelling and hard to put it down.

Thomas Swokowski says

Boring

Tedious and uninteresting. About white trash killing white trash. Usually like this author , not this time. Uh well, no bigs.

Rose says

I want to like M. William Phelps, but his editorializing is pretty snotty at times. If he could knock that off, his writing is pretty good.

Brandy says

I loved this book. I thought Josh and Emilia were cruel ppl. I hated them both. It was a really good book and I feel they both got what they deserved. I will read more by this author. #LoveTrueCrime!

Valerity (Val) says

A sad story of a bad relationship that staggers on for far too long, and eventually ends in the murder of the wife, a young mother trying to make a better life for her and her kids. She was likely killed in a very sick manner, just trying to get the means to get out with her kids.

Naomi says

Boring and dry. This is the second book that I have read by this author. While I found his show to be amazing, his writing style leaves me wanting more. Since I must purchase them, this will be the last.

Denise Wallace says

Atrocious killing...masterful writing.
