I love this series about the Sculls, this time it's about Alex most of the club don't really consider Alex a Skull. He's a man that's generally in the background. He's also not very well liked, but Tiny president of the club and the members little realise all the sacrifices Alex has made over the years to make sure they were okay. That's just part of what's revealed about Alex in this story, when an old enemy resurfaces his only support is Sunshine, the unconventional way she'd come into his life might have caused most women to hate him. But Sunshine isn't most women.

Another great read from this author, this story had a lot of depth which I really enjoyed. There's still the hot sex scenes which are as always well done. Alex turned out to be one of my favourite stories of the series well worth reading.

IR book in the series! So worth the wait to read about Alex's tortured soul and awful past deeds. Yet his love of the sweet and innocent Sunshine was so sensual. Enjoyed the interactions of previous characters of the series from Tiny, Eva, Ned, Sully, Adam; Angel, Gash, Lash, Nash, Hardy and Rose.

Preston, the revenging nutcase was back to payback Alex for dropping the ball by neglecting a special person in his life... So WHAT HAPPENS NEXT? Read it to see! Lips sealed!

A must read of this series!!!!

I am very glad that I have Alex a chance. I was never very fond of this character but after this book, I have to say that he is actually becoming one of my favorites!! It goes to show you that everyone wears a mask and sometimes you never know them completely. I can't wait for Hardy and Rose's story!

This book made me so sad.

The way they're treating poor Butch. So not cool. And I blame Alex for that. But then poor Alex also got the short end of the stick.

But hopefully after everything was revealed about all the things he did for the club he will be treated better. And hope that now he will stop being an Ass to poor Cheryl and Butch. :-)

Well,...I don't know where to start. Well, if you had read previous books in the Skulls series, you know that Alex wasn't much of favorite guy. His desicions and actions, made me mad. So, when Sam said is Alex time to 'hear' his story, I think I'm not the only one who was kinda...Mmm...How to put it...Not looking forward for his story as others guys. Sam said, that she don't liked him, too, but then he showed her his other side, so give him a chance.

And let me tell you, at the beginning I didn't saw it. Alex was... Well, Alex. But the more I read, the more I started to understand, what Sam was talking about. There is so much more to Alex. He made so much sacrifice for the club and no one knew it. He didn't wanted anyone to know it.

Part what helped to sew the real Alex is Sunshine. She opened the door, where Alex keep his true self, his dreams.

And let me tell you, the true Alex is amazing. Okay, he still having some annoying views, but no one is perfect. And Alex showed, that he had enough in him to be our beloved book boyfriend. He become mine, that is for sure.

So, if you like me, having issues with Alex, which I did before I read his story, and are thinking, that you will pass his book...Don't. You will miss a great story. A story, which show to us once again, that you shouldn't judge book because of it's cover. There is always more to the story, then you are 'seeing' at the moment. And I'm asking you to give Alex a chance to prove to you this.

Rating: 2.75 Stars

Nothing special about this book. The story of Alex (Member of the Skulls MC) and Sunshine (Alex's 'purchased' housekeeper). We learned in *Whizz*, Alex 'purchased' Sunshine from her father (not a fan of this storyline either). Sunshine eventually learns about the deal, but manages to fall in love with Alex anyway. A new enemy has followed Alex from Las Vegas to Fort Willis, to cause trouble for Alex and The Skulls.

My favorite part of this book (and there were not many) was catching up with a few of the previous characters. It was good to check-in with Tiny/Eva, Lash/Angel, Devil, Gash, Stink, Butch, Cheryl, etc. There was a shake up within the club's leadership, that I was very, very pleased with.

I think I have come to the end of the road with this series. I'm no longer excited to continue reading the series.

Why Not 5 Stars?

Alex and Sunshine - I could not get into them at all!! Sunshine was 'purchased/sold' to Alex and yet she felt completely OK with the transaction. I also thought Sunshine's character was completely different from the young woman we met in the previous book, *Whizz*. She was portrayed as shy and reserved. The new and improved Sunshine in *Alex* seemed bold and brazen for her virgin years. I was OK with the age difference,

but I could not believe Alex and Sunshine as a couple in love. It happened way to fast for me. I have always liked Alex's character. He was mysterious and had some edge that was always present. I did not like how things went down with Alex, Butch and Cheryl, but I did not hold it against him. However, in this book, Alex's character just seemed off to me. Perhaps his head talk did not match the character that appeared in the previous books. I could not get into this Alex at all.

Patricia Bashing...really?? - I did not like the trashing of Tiny's first wife Patricia. It went on and on. The storyline on why she was hated was not believable and I did not like it. Yeah, I get that she was unhappy with her marriage, but for her to be hated and not missed, felt unfair.

Boring - The entire story was boring. The threat happened quickly and was disposed of even quicker. There was very little action to hold my attention. I had to force myself to keep reading it. Sad to say, but I think I'm over this series.

Arlene McIntosh says

Sunshine and Alex were so boring, did not feel anything between them. To be honest I think I am getting a little bored by Sam Crescent's book, I feel it's the same thing I am reading over and over again. Sometimes I connect with the characters and sometimes I don't. The way she describes them having sex also makes me want to throw up in my mouth sometimes - I felt nothing for Alex and Sunshine and couldn't care less about him. Now to be fair I did enjoy when she brings in the other characters to the book and I am looking forward to Hardy's book.

I think I need to give her books a break as I am getting fed up reading about the same type of women and talking about the same thing.

This series has always been one of my favorites. There was just something about this one that didn't do it for me. I just didn't like or relate to Alex or Sunshine. Alex kept going on that no one wanted to mess with him that he would bring a world of pain to them and yet when it came time for him to defend his family he was easily defeated. A gun against a bat and you lose???? He just seemed more talk and NO action. Then you have Sunshine who seems like this shy retiring young girl and then with no warning she is acting all hussy like. It just was a turn off.

Alex wanted to be accepted by the club and yet he gave them no reason to be accepting. If he keeps everything he has done a secret from them, how can they know the sacrifices he made for the club? In this book you also get a glimpse as to what is going on with Hardy and Rose. She put up with his cheating 10 years ago and now she is doing something about it. She should have stood up for herself instead of giving into Hardy. Where was her conviction that it was over and she wouldn't let him treat her that way any more? There was really no substance to this book for the most part. It was just sex and more sex that wasn't very

inspiring. It didn't get interesting until the incident with Ned and when Chaos Bleed MC entered into it. I did have a moment of needing a tissue but that had nothing to do with Sunshine or Alex. Tiny's decision was unexpected and a little tear jerky!

Emily says

The only reason Alex was part of The Skulls MC was his brother in law and President, Tiny. No one took the time to get to know Alex, nor see he was their biggest asset, not even Tiny. Now after a deal Alex arranged derailed, the club is ready to vote him out. Alex is devastated but when one road ends another begins and he finally has Sunshine where he wants her.

Sunshine believes in Alex, she knows there are layers to the intensely private man. Despite the treatment to Alex by his MC, Sunshine gives herself fully to Alex, she is his only ally. Sunshine knows though Alex needs the club, it's his life and blood. Sunshine is determined to show that Alex is better than any of the men in the MC, now she has to get Alex to believe it.

Completely different MC story for The Skulls series. I have been curious about Alex for awhile and this did not disappoint. Had several twists in not just the story but the series. Everything is evolving. One of the best in the series thus far.

CAN'T DO THIS ONE

Someday, I will have to read this whole series of Sam back to back. In my opinion, this book CAN'T be read as a standalone at all.

Two minutes into it and they are referencing events and character traits that I as a reader should know about. Thing like why this guy wanted Alex dead, what deal with her dad, and what's with this Tiny guy. Also, the hero has a son from this b*tch named Cheryl, and I am told the hero took her v-card one random weekend.

Now why in the hello would I even want to know that!?

Just not touching this right now.

One day I may read this whole series and understand it all.

BUT THAT DAY IS NOT TODAY!

I love AleX, great book, but a bit of a cliff. I can't wait to read 12

Hmm...

Got from some other reviews that Alex wasn't such a nice guy. Still hated the way the club treated him. He was disrespected, disregarded, and made out to be a non-factor or some hanger on at the club. The same club he helped to start with Tiny for his sister to be happy and Tiny could realize his vision. Now even if no one else knew that, Tiny at least knew that much. Tiny's wife even had the nerve to say he Alex wasn't Tiny's brother in law anymore, even though Alex was Tiny's first child's uncle. I also notice how there was never a notion to "buy" Alex out, just "vote" him out.

Anyway, the hero played the martyr, complete with everyone treating him bad and talking to him any type of way even though he's this powerful, rich, bad ass businessman, who's also their benefactor, and one of their founders, and has committed multiple murder in the name of the club, and doesn't want to tell anyone. But his girl stuck by him, revealed the truth, and told the mean bikers to stop picking on her man and play nice. The end.
