## Chocolate SOS Sue Limb

Jess has broken up with Fred, though really she is waiting for him to come to her door and beg to get back together again. But is that the sort of thing Fred would do? He has said himself that he has no backbone . . . Meanwhile, a gorgeous boy has moved in next door and, to Jess's mingled horror and delight, is making it very, very obvious that he would like to be a lot closer than next door . . . Surely, now, Fred will be driven, in a fit of jealousy, to sweep Jess back off her feet? Won't he?

Full of Sue Limb's very funny take on early teenage life and problems, fans of Jess Jordan will be thrilled to have a new Fred and Jess story.

Oh I love Jess Jordan I do.

I discovered this series accidently a couple of years ago at my local library and I've laughed my way through each book ever since.

Chocolate SOS sees Jess in her newly single life after dumping Fred. Although Jess and Fred apart is totally heart-breaking, it was good to see how Jess tried to move on: enter cute new neighbour, Luke.

I think Luke is a fabulous addition to the awesome characters in this series, he really brings something new and refreshing to the story.

Of course, Jess was totally hilarious throughout and I especially loved the sarcastic comments she was constantly throwing at Fred and the loud mouthed Jodie. It was funny to read Jess's reaction to Fred's newly formed relationship. Even though she dumped Fred, she is so not over it!

This is a truly hilarious read and I can't wait to see what happens next when Party Disaster is released in June!

I've been reading the Jess Jordan series since I was 12, and as long as her life remains painfully hilarious and relatable, I'll continue to read until I'm 112.

From the Q&A with the author in the back of the book:

"Who do you imagine playing Jess, Flora and Fred in a movie?

Carey Mulligan would be Jess, Emma Watson would be Flora and Jamie Campbell Bower would be Fred."

L'édition française aura zappé de traduire le tome précédent Girl, 16: Five-Star Fiasco. Cela aurait pu expliquer pourquoi la mère de Jess file un mauvais coton et pourquoi son père squatte chez eux, après avoir tout perdu (hein ? quoi ? comment ?). Parfois, je vous jure... Sans quoi, le ton général est plutôt drôle, mais un peu forcé aussi. Les déboires de Jess ont sincèrement déteint sur l'ambiance générale (elle a rompu avec

Fred et s'en mord les doigts, le garçon sort déjà avec une autre fille, le goujat !). J'ai ressenti comme une certaine morosité dans l'air, j'ai moins accroché que les autres fois.

A clumsy heroine, a cowardly ex, a bubbly girl chasing said ex and a hot guy next door. A recipe for disaster? Definitely where Jess Jordan is concerned!

Jess has just dumped Fred. Why? Because he dumped her in the deep end, leaving her to organise a charity dinner all by herself before turning up and stealing the show! But really, all Jess is waiting for is for Fred to perform a chivalrous act to win her back. Only, soon, over-enthusiastic Jodie has her eyes set on Fred, and Jess is furious. But then... hottie Luke moves in next door. Can getting Fred back really be as easy as making him jealous? Well, Jess will find out soon, that's for sure!

I'm not sure how I thought I would find this one. I guess I was thinking that, being oh-so-mature myself, I wouldn't find Chocolate S.O.S quite as funny as I did. But the wonderful and wacky range of characters were ever amusing – even the gloomy, scary Mr Barclay. Yes: what I got was a book that really did make me laugh myself silly. With a loveable lead gal, a hot boy-next-door and a “spineless” ex-boyfriend, with a love square like no other, Chocolate S.O.S was really funny! In other words: an awesome book!

Jess Jordan was funny – and kind of a drama queen! She was really, hilariously snarky and rather absent-minded. But I loved that she was also a really quick thinker, because it made her really imaginative and witty. In social situations, Jess really did have to be the unluckiest person ever, and sometimes her own worst enemy. I mean, sometimes she believed her own lies! Clutzy, eccentric, bonkers and melodramatic, Jess Jordan was hilarious! She absolutely killed me! But I could also tell that Fred had really hurt her and she still really loved him... Though, her not-thinking-about-Fred routines were absolutely bananas and really funny!

Flora Barclay was the best friend: sweet, supportive. I loved Flo: she was such a good friend! Poor Flo's family was having a little bit of a crisis, and even though she did have a few minor saying-things-wrong crises, I knew she really loved Jess and that she was, as I said before, really sweet.

I got an outsiders view of Fred Parsons: having not read the books before (except for one before my blogging-days), I was purely judging Fred based of Chocolate S.O.S. I must admit, he baffled me for a while. He had the weirdest way of delivering compliments, and he seemed rather spiteful and odd. I couldn't figure him out, couldn't tell what he was thinking. Did he still love Jess? Did he just not care? What I did know was that he was absolutely hilarious – sarcastically and ironically funny. He was in his own words a coward, but I think, really, he's just shy and maybe insecure.

Luke Appleton, Jess' new next-door neighbour, was cute, great at cooking and surfing, plus he had a cute smile... He was really polite, but also really confident: rather (in Jess' own words): “daring and unexpected” in his actions. In my opinion, Luke was wonderfully bonkers and really funny, rather pushy and unpredictable – in a good way. But I found myself wondering more and more what his past was, 'cause I'm still not sure about the story he gave us...

Luke and Jess were so cute together. They really made me laugh! Dressing up as vamps, chasing each other: they were like little kids! And they wanted zombie babies on leads... And now I do too!

Jodie was a bit of a drama queen, as well as being really loud mouthed and energetic. Almost annoyingly so. She was occasionally sweet – ok, normally, always sweet, but as she's after Fred and Jess doesn't like her for that, I don't like her either.

I love the family dynamics in this, the range. You have Jess' close-knit, cosy family. The relaxed librarian mother, the sweet, funny, totally loveable gay father and the homicidal-obsessed grandmother (on TV, not in real life! She was hilarious, slightly inappropriate and really sweet!). The ideal family, all of whom felt so, so real to me: I just loved them! You also have Flora's more privileged family, with her stern father and graceful mother. Luke's family was also really lovely: just him and his dad, both of them really close. Still not sure about his Mum... something makes me think the story he gave isn't the truth...

I really do not read enough funny books. Chocolate S.O.S made me realise that I can't remember the last book I read that can be classed under comedy. Shocking, seeing as I do love a good laugh!

And I found Chocolate S.O.S hilarious! Jess was brilliant, Fred was snarky-funny, and all the other characters were funny in one way or another. But the scene that killed me most was one between Luke and Jess, when they were discussing how a fictional guy would kill his fictional girlfriend. I was almost crying by the time that scene had finished! Somehow Sue managed to portray various dramas in a way that cracked me up – even when I probably shouldn't be laughing! I found myself laughing at the silliest little every-day chore: Jess was just so bonkers and funny!

The writing was stunning! Normally, I'm not keen on the 3rd person, but I loved the way this was written! I totally got to know Jess and quickly fell in love with her wacky personality. I felt what she did, although my sympathy and cringing were usually accompanied by rather a lot of giggling. I love Sue's writing: simple, teen and completely hilarious! As for Jess' tips on getting over your ex... they were absolutely hilarious! And so original! (Lots of choccie involved, of course!)

Now, the chapters are dangerously short: be warned! The kind of short where you go: 'oh, five pages... It's only midnight!' And you end up reading the whole book! I read the book in one day, one day only, with many breaks to do your everyday stuff. It was addictive, hilarious and pure awesome! I loved every moment: even the cringey bits! The bonkers-ness is just irresistible! I can't wait for Jess' next book!

I decided to read this book because it was the next in the series. It fits into the category a book written by a female author. I can't remember any quotes from this book. Something I learned from this book was not to assume. A character from this book that I found interesting was Jodie because she seemed like a very interesting person and if she was real I would like to meet her. I also admire her confidence and strong personality.

Not my favourite Jess book in the series. I found this to be the first time that I really didn't like the character of Fred. I found he was immature and annoying. I really started to love the character of Luke instead!
