Skye is a mum of two, and married to Darren. She has a dream - to own her own book store. But life got in the way, and her husbands dreams soon took over.

As much as she appreciates the life she has, Skye can't help but feel like her dreams aren't important.

Under appreciated and let down, her world falls apart when she finds out her husband has been having an affair.

Can she pick herself up and rediscover her own dreams?

This is one of those books that you start reading and before you know it you are almost all the way through the book and the entire day has flown by. This is Smith's début novel and she has succeeded in giving us the reader a book you can truly lose yourself in.

Skye is such a likeable character one that I could relate to right from the very beginning. She experiences something nobody wants to experience and she doesn't let her grief cripple her. She picks herself up, dusts herself off and sets out to achieve the life she has always dreamed of.

I started reading this book at lunch time and by dinner I was finished, that in itself says a lot for me as I don't often complete a book so quick. I literally could not put my kobo down. The story was fantastic, a mother and wife completely losing their dreams through every day routine, finally managed to fulfil her dreams after finding out her husband was a cheat. The way in which the author wrote the book left you feeling you were part of skye's journey and you felt everything with her and her children. I truly look forward to many more novels from Lisa and hope the wait isn't too long.

Wow what an amazing debut novel! and not only is the book amazing but I personally know the author. When I knew Lisa had completed her first novel I was just itching to get my hands on it, although I must admit I did have reservations being that Lisa is a personal friend! What if I didn't like it? how could you tell a friend her book was bad? but luckily I never had to cross these bridges as the book is AMAZING! Skye is a fantastic character and its brilliant reading how she goes from strength to strength and grows as a person throughout the book. I literally could not put this book down! it had me on a roller coaster of emotions and at times had me reduced to tears! I really cannot recommend this book enough! I cannot wait to read what else Lisa comes out with!

What a brilliant story. I instantly fell in love with the characters. Skye is a very strong woman and she kind of reminds me of my own mum. I felt a lot of emotions while reading and that is not like me so it shows just how well written it is. I started being so angry with the way she was treated by Darren but then i was glad she got rid of him, she deserved much better. Skye is the kind of person everyone would want as a best friend and i am so pleased she got the ending she deserved. I was sad when the story ended as it is the kind of story i that i could have read forever. Lisa is a very talented writer and i am excited for what the future as an author holds for her. I can't wait to read her next story. A massive well done.

A quick easy read. However it was all to cutesy and perfect for me and I felt it needed a bit more drama.

### **Linda Musson says**

Wow what a brilliant first Book!  
Written with so much feeling for books and for achieving your goal in life.  
Full of happy moments and also of course some sad ones, but, then it would not be life if you did not have both elements in it.  
Well done Lisa - cannot wait to read your next novel!!
