Manual of Mineralogy

Cornelis Klein , Cornelius S. Hurlbut

Manual of Mineralogy Cornelis Klein , Cornelius S. Hurlbut

The classic in the field since 1848, this extraordinary reference offers readers unsurpassed coverage of mineralogy and crystallography. Known for its complete coverage of concepts and principles along with a more systematic and descriptive treatment of mineralogy, the revised edition now includes a CD-ROM to let readers see the minerals and crystals, while also viewing chemical composition, symmetry, and morphological crystallography.

Manual of Mineralogy Details

Date : Published July 27th 1998 by John Wiley & Sons Inc (first published November 2nd 1977)

ISBN : 9780471312666

Author : Cornelis Klein , Cornelius S. Hurlbut

Syd says

Must love minerals. The crystallography section is pretty intense.

James says

One of my university textbooks that I was able to learn about minerals. It has some very decent pictures.

Jeneé says

First off I hate mineralogy. But I have definitely found and used much better mineralogy books then this one.
