# Maybe Now

Colleen Hoover

## Maybe Now Colleen Hoover

What is more important? Friendship, loyalty or love?

Colleen Hoover and Griffin Peterson collaborate once again to bring fans of Maybe Someday back into the musical world of Ridge and Sydney.

And Maggie.

And Warren and Bridgette.

This is a free follow-up to the NYT bestselling novel, Maybe Someday. It should be read after Maybe Someday and the novella spinoff, Maybe Not in the series.

Completed.

### Pick a Book says

4 estrelas

Amo demais a história de MAYBE SOMEDAY. Ridge, Syd, Warren, Brigitte e Maggie são personagens que amei demais conhecer. Quando veio MAYBE NOW dei aquele grito da felicidade que tenho certeza que escutaram em outro país. Entretanto, a Colleen escreveu vários capítulos até o mês de abril ( acho) desse ano e depois parou deixando a história em suspense. Hoje (10 de novembro de 2018) ela postou que a história já estava terminada. Então, fui ao Wattpad e reli o último que eu havia lido e então li os 10 capítulos finais. Achei fofo, achei engraçado, mas não sei se por causa dessa quebra de tempo, também achei corrido. Principalmente o último capítulo. Olha..., eu ri horrores, chegou a sair umas lágrimas de tão lindo que foi a última música, mas também foi bem surreal. Acho que esse final poderia ter sido melhor. Mas não deixei de apreciar a história.

Se valeu a pena? Muito. Apesar de tudo, esses personagens ainda são os meus favoritos da Colleen. Talvez eu releia tudo pra ver se foi falha minha. Mas o final foi mesmo de "outro mundo". Mesmo assim, é Colleen né. Então, claro que recomendo.

#### Maybe someday was a fav of mine and still is.

This was a good sequel but it wasn't really needed, I mean it's always nice to read about the characters you **love** but yeah, an okay sequel :)

---

### Adilene Garcia says

Warning: IF YOU LOVED MAYBE SOMEDAY PLEASE DON'T READ THIS.

This isn't a sequel or continuation to Ridge and Sydney's story, not really this is pretty much Maggie's book and it's an unrealistic and delusional one at that. I get it this is fiction, but I was baffled at the lack of research displayed in this book towards Maggie's illness and to be honest even disrespectful to people who suffer from CF. Don't let me get started on how everyone was magically "adapting" to their very messed up situation. The way Maggie kept on tangling herself into everyone's lives and how everyone went from 0 to 100 with her ended up being sickingly sweet, unrealistic and straight up toxic. I was never particularly fond of Maggie but I could empathize for her situation in MS but this book made her completely unlikeable to me and I completely hated how Ridge and Sydney were portrayed, it's like their personalities completely changed

and they never were the couple we we're routing for in MS. Im definitely not here for ruining one great book for the sake of making an unlikable character who gets off in playing victim get her way.

---

### **peachygirl says**

Seriously?? Sydney is still the saint, Ridge is the best boyfriend on the planet and everyone gets their happy endings after all that went down. Bull.

2.5 stars, that too only because of Maggie and Jake!

---

### **Ilse says**

Im glad I got a little bit more of these characters which I love but I don't know the ending just didn't seem completely right tbh but thats just me.

---

### **Emma says**

Did I feel the need to have a new book about the characters from Maybe someday? No, I did not.

Did I read said book anyway because I'm trash and I would read everything Colleen Hoover decides to give us? Well yes, of course I did read it!

This book was okay, it didn't feel that special to me. I'm just happy to have read it because Maybe someday is my favourite Colleen Hoover's book and so I had to see what the characters were up to.

5★

Terminar un libro con la cara llena de lágrimas, apagar tu celular y seguir llorando, de emoción, de alegría, de tristeza, y todo junto.

Eso es terminar un libro que te encanta.

Eso es lo que me pasó con este. Lo termine de leer en Wattpad, ya que lo venía siguiendo desde marzo a esta tercera parte, y segunda parte de la historia de Ridge y Sydney.

Les tengo un cariño enorme a estos personajes desde Maybe Someday, es que amo esa historia con mi vida y creo que es la mejor de Colleen para mí (después le sigue All Your Perfect). Y eso que cuando arranqué ese libro no esperaba que me iba a gustar un montón, y al final me gustó mucho más que eso..

Y cuando me enteré que la historia continuaba en Maybe Now no podía estar más feliz y era una tortura cuando Colleen no actualizaba la historia.

Pero la espera valió la pena.

Cada vez que subía un capítulo nuevo dejaba todo lo que estaba haciendo en ese momento y me lo ponía a leer, y por ahí no tenía nada de impresionante el capítulo y yo me emocionaba igual.

Por qué les agarre cariño a todos los personajes.

Maggie siempre fue mi favorita, ojo también amo a Sydney, pero Maggie siempre me pareció una persona madura, una chica real, que de todas las cosas de mierda que le pasaron ella nunca se rindió, siempre quiso hacer más de lo que podía. No tenía miedo a arriesgarse, y se me hizo un personaje tan real, nunca la pude odiar, siempre le tuve un cariño. Y me encantó este final para ella.

Ahora con Bridgette y Warren, estos dos siempre me hacían reír muchísimo, A veces no los toleraba, pero me encantó su relación, fue diferente a la de los demás y eso al mismo tiempo la hacía única.

Ahora mis Sydney y Ridge, una de mis parejas favoritas, voy a extrañar tanto a estos dos. En este libro su relación fue madurando, y se fueron conociendo más el uno al otro. Fue preciosos leer todo eso, no puedo explicar con palabras, me emocionaba cada vez que Ridge le cantaba a Sydney, o cuando Sydney bailaba con Ridge. Todos sus momentos fueron únicos. El comienzo de su enamoramiento fue creíble, como los dos finalmente se volvieron novios, todo fue hermoso y no siempre disfruto de leer tanto a una pareja, pero con estos era un deleite leerlos.

Amé a Jake por como era con Maggie, Me encantó su relación.

Pero la de Ridge y Sydney es un clásico (para mí), y espero ansiosamente que Colleen publique un epílogo de cómo están todos dentro de varios años.

Ya cerrando, calculo que la reseña me está quedando larguísima pero entiendan que este libro me encanta, y lo vengo siguiendo hace como diez meses a la historia.

La verdad fue precioso, y si sentí algo apresurado el final, pero de todos modos me encantó y lo acepte.

Colleen otra vez hiciste magia con tus libros. Y gracias por darnos esta historia espectacular.

Lo super recomiendo.

4 ?'s

**“She’s about to melt, just like her bowl of ice cream.”**

I'm not one for books that are released by chapter or newsletter - mostly weekly...it's an excruciating wait especially when you read 2-3 books a week. I've been trying to just wait until the whole book is released and that's what I did with this one and I'm glad I did. Plus I can't really complain when the author makes them free. (thank you CH)

I really love Ridge and Sydney together and I couldn't wait for more of them. What I didn't like was hearing more of Ridge and Maggie...that was no bueno.

However, I did -sort of- like Maggie and Jake together. And all my reasonings for not liking them a lot boils down to it being hard to accept the "other" woman. Even though we get to know Maggie better, I think that her situation and everything just made things hard.

Ridge is also a horndog...and very sappy. He was *almost* too sweet.

I -somewhat- enjoyed Warren and Bridgette...what a crazy couple. At every juncture, I expected a break up.

Then there's that ending, cheesy for sure but definitely different.

---

### **Katie says**

This was almost sickeningly sweet. I could have done with less Maggie and more Ridge & Sydney (and Warren & Bridgette!). It would have been nice to see how their relationship evolved without the constant presence of Ridge's ex in their lives.

---

### **Lola Davenport says**

\*\*\*\*spoilers from the first book will be mentioned\*\*\*\*

Colleen Hoover basically took my all time favorite couple and ruined them beyond repair. In my opinion it was also an awful interpretation of a person living with CF and I feel bad for anyone with CF reading this book. You could tell by the end even Colleen must hate this book since after taking months off from writing it she came back and rushed the ending with such unbelievable events that it was like a 14 year old writing amateur fan fiction.

Ridge and Sydney were two amazing characters and Maybe Someday ended with them finally coming together yet still having a communication barrier. There were so many awesome directions a sequel could take. How do you navigate a relationship when one is deaf and the other is just learning ASL? What would it be like to travel and tour with a band? What is the deal with Brennen?

Yet Maybe Now doesn't take any of those choices instead focusing on a character that didn't really need a story and that is Maggie. In Maybe Someday she was this mythical perfect woman that Ridge put on a pedestal, the delicate flower that needed to be protected at all costs even Ridge's own happiness. And in the brief glimpse we get of her in the story she is kind of like cardboard and really boring that I didn't care what happened to her.

But even I could admit there is potential for a good story for her like how is it like living with CF? How do you move on and make your own friends and relationships now that the guy you depended on is gone? But we get none of that instead we get Maggie acting like a 2 year old and making her ex boyfriends jump every time she snaps her fingers because she never made any friends of her own.

At this point in the story I was just hoping she would hurry up and die so Ridge and to some extent Warren could finally be free of her.

I won't say anything else that happens in the story in case you are a glutton for punishment and want to put yourself through the torture of reading this book.

However if you loved Ridge and Sydney at all then please please do not read this book. Because you will hate them by the end of Maybe Now.

I am hoping in a year or so I will have forgotten this story and maybe just maybe I will be able to read Maybe Someday for the 15th time and enjoy it again.

---

### **Jennifer Kyle says**

3.7 Stars ??

---

### **Laura Lovely says**

I can't believe I didn't know this book existed until today, it was such a delight to continue reading all of these characters stories. I have to say I love each and every single character in the maybe someday world and I'm so happy that I finally read this.

---

### **Annie's reading corner says**

*3.75 stars*

Maybe Someday is still my favorite CH book, so I was beyond thrilled when I knew that the sequel was finally going to happen.

I may be biased here because I love Ridge and Sydney together, but their part of the story I really really like it. Their relationship was perfect to me. What I didn't like was some (very drastic) changes to Sydney's personality that were... not very believable.

Then we have Maggie. It was ok her part. I enjoyed getting to know more of her but it was an extra to me. I just wanted more Sydney and Ridge.

The ending.... was a bit too much, but overall if you like Maybe Someday, you'll probably like this one as well.

---

### **Francesca says**

I was curious if this new Colleen's story on Wattpad after the awesome Too late. I was happy to see Maybe Someday's characters again, and not very happy to see that Ridge and Sydney's problems with Maggie were not resolved at all. She's too related to them, I can't be friend with my lover's ex, sorry.

Jake is my new crush and I would love to see more of him and his story. But I think after a long break, Colleen was fed up with this story and fans crazy reactions, so she ends it in a sweet but too rush way, and I'm disappointed.
