Louise Pledge says

Three beautiful stories written by three great authors. Since I thought I had read every book Ms Wiggs had written about Willow Lake, I was delighted to find yet another! How I hated to see The Lakeshore Chronicles end! Also, I was quite taken by the character of Molly in the last segment, the foster child whom no one wanted to keep. I found it to be very heartwarming.

Heidi says

Homecoming Season is the only one I read, it is part of the sweet life box set. I do like visiting this "town" and this touched on the characters from one of her popular series that I like. I think I would have liked more, but then again I always feel that way with novellas. I do like that the author works to highlight a worthy charity. Wonderful way to write a fictional story about a truly hard time in life and maybe help readers even more at the right time.

Eileen says

Despite them all being short stories, I enjoyed every single one of them. They didn't leave me feeling like something was missing or that they should have been longer.

Review for Homecoming Season by Susan Wiggs
From A Sweet Life Boxed Set

Miranda, a cancer survivor try to make up with her family after a year of treatment.

"You can't have today back. So make sure you spend it in the best possible way."

Katie says

This book comprised of 3 short stories, each based on an actual real life charity. IT was inspirational in the fact that you learn about some of the great charities out there who really are giving so much of their time in helping people.

My only qualm with it was that it was a bit predictable for me. It was a nice, easy, uplifting read though.

Sometimes it is nice to read a book about just happiness and nothing bad.

Jodi says

This anthology spotlights three different organizations that help others: Cottage Dreams which is a place for cancer survivors, patients and families can take a break; Second Wind Dreams which grants wishes made by the elderly; and Quilts from Caring Hands which makes quilts for foster children and ill children. The Wiggs story is connected to her Lakeshore Chronicles stories so it had a familiar touch. All the stories are sweet and uplifting.

Elena says

Enjoy the stories very much and the fact that they were to promote worthy causes like Cottage Dreams for instance made them more real for me. From a woman recovering from cancer to a couple too busy to even eat together and yet welcomed into their house a foster child. There is good in the world and I am glad this book showed it to me.

Kathleen Nalley says

A good idea with poor results - stories inspired by real life.

Dee says

Review for Homecoming Season by Susan Wiggs
From A Sweet Life Boxed Set

Two-haiku review:

She survived cancer
Year of treatment hurt family
Friend gives week away

Really nice story
Great insight into many
Effects of cancer

Paula says

This was an amazing book, based on real-life heroines and wonder, life-altering foundations. It is heartwarming to realize that there are such wonderful persons and foundations who are impacting lives in the

most wonderful and life-altering fashion. These stories were truly inspiring. I plan on reading more books from this series. Thanks to my friend, Deb, who lent me this terrific read!

Katherine says

I really enjoy this series. This second book, however, is three mini stories in one. I like how it's tailored to giving and cancer, etc. Will move on to book three soon, I'm sure. Just didn't have as much relevance as I would have wanted to the first book. (In that "carry it through" sort of way.)

Mari says

Wiggs story only.

Susan says

I love this book!!! It leaves you feeling uplifted as it delves into the healing process as well as compassion and service. I found myself evaluating my own life and how I can serve those around me better. Also putting things in my life into perspective. I loved learning about the 3 heroines who created service programs to help those around them. Each story centers around one of these programs but does not include the heroine in the story, just people affected by them.

It is a compilation of 3 short stories by 3 different authors. I read it because of Susan Wiggs story. Each story is written in a very compelling way with characters that are well developed. They all move forward smoothly and quickly so that it is a pleasant ride with positive feelings along the way. I could not put each story down. It is a good thing they are short. I loved all three stories. I will check out the other authors more because of this compilation.

A must read for everyone - probably more interesting for adults.

Lin Stepp says

This is one of a series of harlequin books where the base of each story in the anthology is based, in part, on real woman who made some sort of extraordinary and memorable commitment to their community. The anthology has three fine novellas: HOMECOMING SEASON by Susan Wiggs, THE YELLOW RIBBON by Sharon Sala, and HANGING BY A THREAD by Emilie Richards. I enjoyed each story and also the 'story behind each story.'

Virginia Markhart says

Three short stories in one book. They were all good. Kind of sappy but in a good way. Predictable. I like the involvement of real charities that help people out in different ways...Like the group that sends cancer survivors to a cottage for a healing family vacation. Then the quilts that are made with foster children in mind. that one I really love.

The third was a group that grants wishes to seniors. Kind of like Make a Wish, just for seniors. Very sappy storyline, but it was ok.
