Navy Seal Rescuer by Shirlee McCoy

4 STARS Catherine Miller spent four years in prison for murders she did not commit. Now she was home in her family home with the grandma who raised her. She only wants to be left alone. Her house keeps getting vandalized and now someone tried to kill her. She tried to run to the house that was down the road and she fought her attacker enough that he had to stop choking her to get her hands off him and was able to scream loud. Darius Osborne was outside his house on the first day of his vacation when he heard a scream. He grabbed his hammer and found Catherine. She told him what her attacker was wearing and height. After he took her into his house, called 911 and got his gun out and loaded he went to search for her attacker. Darius was a Navy Seal and now a security contractor he was a good person to have on your side. He was able to follow the trail. Catherine's Grandmother Eileen was getting cancer treatment when Catherine was attacked. She did not want to wait for the police to take her statement and worry about her. When her car would not start he took her to the hospital. The policeman made comment about having a bodyguard for a neighbor was paying off now. Eileen tells Darius to go ahead and put in security system. After another attempt on her life Darius is determined to protect her and find out who was trying to kill her. Lots of drama, some tears, romance, car chases before its all over and done with. It keeps your attention and keeps you guessing who wants Catherine dead and why. I had no clue. Its amazing that Catherine is not filled more anger at being away from her grandmother and being in prison for four years. I was given this ebook to read in exchange for honest review from Netgalley. 09/03/2012 PUB Harlequin Imprint Harlequin Love Inspired Suspense

It was hard to read about all of the injustices done to Catherine. But I did like her hero and he came through for her wonderfully.

Have enjoyed all of Shirlee McCoy's LI Suspense books including this one. Didn't know who the bad guy was until the very end.

Cheri says

My first Love Inspired book and definitely not my last! Great suspense. Plots inside of plots!

This book was so good. It had mystery, action, suspense, and romance.

Catherine spent four years in prison for crimes she didn't commit. The sheriff's department had issued her an apology and gave her a lump sum of money for the trauma she went through. The money couldn't buy back the 4 years she missed of her life. It would never replace the time she could have spent with her grandmother Eileen. Once she got out of jail everyone still looked at her with disgust. The book starts out with someone vandalizing Her grandmother's home. They wrote Murderer in red paint on the old farm house. She only had an hour to repaint the porch before having to pick up her grandmother from the hospital who was having chemo done. Before she could finish she was attacked. Her neighbor Darius heard her screams for help and came to help. Someone wanted Catherine dead, and Darius stepped in as body guard, and also helped find the person behind the attacks.

Excellent! From the 1st page to the last the story kept you wanting to read " just one more chapter".

It was hard to put down. Interesting, believable and made me feel as if I was right there watching it unfold.

Wonderful

Wonderful, loved this story so much. It touched my heart in so many ways. Full of suspense and romance. Well written.

- The reason I gave this book three stars instead of five is because, even though there was good action, there could have been a lot more. The book focused mostly on their relationship, which was fine, but I think the plot could have been developed a little more. Still a good book though.

- Darius was a great guy. Almost too great actually. I didn't really see any of his flaws, which would have been nice to see. He did sound really attractive so that was cool. And I liked his friends from the agency where he worked. Also, I appreciated that he was a compassionate person and the author didn't do the whole sexy bad guy thing. Sweet guys are much better anyway.

- The walls that Catherine had in place were totally understandable after all that she had been through. It was interesting to see how she lowered her walls and let Darius in. I also like how she didn't take crap from people. At the end, she grabbed the gun out of Mitch's hands because she was like "I ain't goin out like that", and she also elbowed him in the gut. That was pretty epic and I'm happy she stood up for herself.

- I liked Eileen's spunk. I can see where Catherine got it from. I was sad that she passed away, but happy that she got to go to her home in glory.

- Great, quick read for people who like romance with a little of suspense.

Sooooooooooooo!

Judine Brey says

Darius is one of my favorite heroes because I like the fact that he was an amputee war veteran who didn't let this define who he was. Also, Catherine's emotional difficulties after her unjust incarceration add depth to her character. However, the physical descriptions were a bit too detailed for my taste.

An excellent thriller. After being cleared of a false conviction for murder, Catherine is suffering from repeated vandalism at her grandmother's home. When someone attempts to choke her to death when she's home alone, her screams bring her neighbor Darius running to help. He's a bodyguard—security contractor, more particularly—and is insistent that she let him make sure she and her grandmother are protected. When the attacks escalate, he's by her side.

I read this all in one sitting and will be on the lookout for more from this author.

Dana says

This was a well put together story. Catherine was wrongfully convicted and sent to prison. When she was exonerated, she went back to take care of her sick grandmother. Darius is a former Navy Seal who is now a body guard. He stumbles into protecting Catherine when her and her grandmother's lives are in danger. Catherine and Darius both have healing to do and they help each other in many ways. The plot has nice twists and the pacing is excellent. I want to check out the other books in this series!

Jill says

Like all the Love Inspired books you know what will happen. You just have to read the book to know how it will happen! Faith plays a part in each story, lost then found. When I got to the end of this one, I had to read a little late into the night to finish it! Catherine and Darius.

Judine says

Catherine's anger, as well as her desire for freedom and an independent life are understandable, but with a backstory as interesting as hers, I wish we had been given more details, instead of the glossing over that she does when she meets Darius. I like both of these characters, but think some of the physical language could have been toned down a bit.

Sandra Webb says

Just when I think the series can't get any better....it does! WOW...I really, really loved this book. The characters are great and the sweet, sweet romance that builds from the beginning just takes your breath away! Of course, lots of drama and suspense can also be found.
