# **From Reader Review Princeless: Raven the Pirate Princess Book 1: Captain Raven and the All-Girl Pirate Crew for online ebook**

**Sesana says**

Just as good as I'd hoped it would be. The tone is a little more mature than in Princeless, which suits the characters. I already liked Raven, and I'm happy to report that I really liked most of the new characters introduced in this book. This is an exposition heavy volume, so it really is just all about Raven putting her crew together. But it's fun and often funny, and it served as a good introduction to what will be the main cast. It's a great addition to the Princeless universe, and I'm excited to see more.

---

**lov2laf says**

Well, this was a fun read.

Raven, who was set to inherit her father's pirate empire, has been betrayed by her father and brothers and is now on a mission of revenge. But, before she can do anything, she needs a pirate crew.

Book 1 follows Raven's adventures in putting that crew together and each character she collects is unique, talented, and amusing in their own way.

Though the writer is male, the narrative is very pro-female and even includes jokes about mansplaining, etc, which I found highly entertaining.

In addition to the positive female representation, the ethnic diversity is off the charts. Raven is Asian (Chinese), Jay is black, Sunshine is mixed race, Ximena is Latina, and so on. I didn't find anything in the text that was overtly lesbian (as I usually read lesfic) but there was a hint here and there that it's possible. We'll see.

I'm happy to continue the series.

**stephanie says**

read issues 1-3. amazing. makes a "not all men" joke. like... you had me at hello.

---

**Jasmine says**

So hilarious that it made me tentatively overcome my dislike of pirates-as-heros. Because I'm not into murdering, kidnapping and stealing as a career choice, but GOODNESS this had a delightful nerdy joke on every page.

---

## **Kate (GirlReading) says**

I LOVED THIS SO MUCH.

What's not to love about a story about a group of kickass women with brilliant humour, wonderful characters and a fantastic plot?! My only issue with it is that it's far too short, I WANT MORE.

This was everything I didn't know I need right now. I'm going to need the next issue asap. (R.I.P my bank account.)

---

## **Miss says**

let me tell you the story of me reading this book friends. so i biked over to my library -- it's on the far-ish side, takes about 20 min at a normal pace -- and when i get there it's 15 minutes to close and i'm a little tired so i figure, hey, why not chill on a couch and read the first chapter or two till closing and then head back home

that is mostly what happened! however, i had failed to account for just how utterly delightful this book is and so when the librarians kicked me out instead of bundling up and biking home i elected to sit on the stone outside the library and read the rest of the book with the occasional break to warm my hands in my pockets before going back to flip pages again

it's was 100% worth it :D

do i even have a favourite character? i'm not sure i do because i am so entirely delighted by all of them! it'd be like asking somebody what do you like better: cheesecake or chocolate? the only possible answer is all of the above

the humour was great, there was a 'not all men' joke and a carrie scene and if you've ever been involved in any kind of social justice discussion on the internet ever you are going to laugh your head off

also i literally clapped my hands in joy at the ship options laid out so far: if you were kind of sad raven's flirting with adrienne didn't go anywhere in princeless don't worry about it, she is def getting a girlfriend here and the only point to which i'm torn is who i want her to date more

basically this is everything anyone could ever want in a comic, if you like pirates! and action! and kickass girls of colour! and excellent flirting! and joy!!!! come read this, i am officially giving it the Miss Susan Seal of Approval

5 stars

## **E. says**

4,5?

## **I!! MISSED!! RAVEN!! SO!! MUCH!!**

Raven is out to get back at her brothers who manipulated their father to get her locked up in a tower as it is done to 'land princesses'. There's only one thing she lacks to do so — *the crew* .

And the crew she gets. With many complications on the way, of course, but how else a pirate gets their crew, right? *And what a crew it is*. I **love the main five**. We have: A Muscles & D&D Girl, A Blow Shit Up Girl, A Really Fast & Jumpy Dancer, A Girl Who Knows Of Stars And Compasses, and our rightful Pirate Queen — Raven.

I like how the setting of *Princeless* is so different from our days but it still manages to call out many, many current issues and makes it sound *so natural*.

Also, *t h a t ATLA reference!!!*

## **Marion says**

I literally just finished this first volume and let me just say, I'm so glad I stumbled upon this. The diversity in this comic is comparable to Rat Queens' (which is one of my all-time favorites comic series), and it's just so so so refreshing. Every single time I get to read something where there are diverse characters (as in Not Just White, Straight, Cis, and Male), I swoon. These girls are AWESOME. This had me at "Pirate Princess" and "All-Girl Pirate Crew". Gosh, so so good. Also, there are "not all men" and "misandry!!!" jokes, topped with call-outs on the fetishization of asian women, fake-geek-girl turned fake-pirate-girl argument, and all around everyday sexism. I'm telling you, this comic is GREAT.

(I'm preemptively tagging this LGBT, but I'm pretty sure I'm right ~)

## **Amanda says**

4.5\*\*\*

---

## **Valerie says**

YES. This is what I want! Queer girls having adventures and doing cool shit. I want my ragtag multicultural group of friends to kick ass. I want stuff like this to be as ubiquitous as white men with daddy issues and love at first sight.

---

## **Kristin El says**

Such a kick butt girl power series. Love it.

---

**Lucy says**

Instant happiness, that's what Princeless is. (And somehow, Raven's storyline is even more awesome than Adrienne's!) I'm so glad I found out about this series because it's everything I've ever needed or wanted. I hope it runs for a long long time <3

---

**Laura (bbliophile) says**

Oh this was so much fun! And a lot funnier than I expected

---

**Sharon says**

I love everything about this book, from the wide variety of characters to the knowing in-jokes (all the male pirate applicants!), to the queer romantic tension. BRILLIANT.

---

**Rikki says**

This book made me so happy. This book was fun and funny and had some of the best references (My Cabbages!). I am really glad that I read this and I feel that it is important that younger women have access to books like this. Seeing Women of Color in leading, action roles in a story is so very profound that it's hard to articulate just what it means.
