When Brynn lost the boyfriend who never loved her, the friends who feel she betrayed their trust, and the new life just beginning to grow inside her, she believes her future is as empty as her body. But then Christian, the boy next door, starts coming around. Playing his guitar and pushing her to create art once more. She meets some new friends at the local community center, plus even gets her dad to look her in the eye again...sort of.

## Valerie says

I love Nyrae Dawn books. They deal with emotional, real things and have characters that get to me.

I just didn't feel that way this time. I had a hard time connecting to Brynn. She's 16 but her character felt more like my 13 year old students. I didn't like Jason at all. I didn't like her friends. I felt sorry for her dad.

The story was hard to accept. Problems were fixed too easily. I had a hard time with the flow of before and after chapters that took us back and forth between "the incident".

This makes me very sad but I just didn't like it.

This book is fantastic! It deals with some powerful issues in a sensitive but not overdone way? I highly recommend this to YA readers everywhere! The characters are believable and loveable and you cry one minute and laughter the next as you read. The reader leaves the story feeling affirmed about the power of love, strength, family and friendship.

### Another 5 star review for Nyrae Dawn

Let me just say I am a huge fan of Dawn's writing and she has always done such a marvelous job writing broken characters. Well she does it yet again. Most of her books that I have read are in the NA genre and this one is more YA/teen so the steamy is not there but the feelings and chemistry of the characters certainly is.

The story is told from Brynn's POV. She is a 16 year old girl who has had her world torn apart at home, at school, and everywhere in between. Brynn is simply a young girl who closed herself off from her friends after tragedy strikes only to let someone else in. Unfortunately, that someone else only makes matters worse for Brynn and she has to deal with even more heartache. You would think her friends would be there to help, but they are too upset with Brynn and her choices. She finds herself closing off, existing but not living.

Then along comes Christian, the boy she thought she loved in seventh grade. He is back and living right next door. She develops a beautiful relationship with him and she even makes another new friend along the way. But it is with Christian's help that she finds her way back and despite all her reservations, she eventually opens herself up to love again.

This story was wonderful. Dawn always does such a great job of immersing you in the story. Rather than just reading what is happening, you really feel as if you are experiencing the story with the characters. Initially I did have a little problem with the alternating between past and present and getting confused a little about what happened when, but then I did get used to the flow. It is a sweet story about healing and finding your

way back after something which really could have been devastating.

I loved this story and I think teenagers and parent's alike would benefit from reading it. Dawn as always does an amazing job!!!

Recensione anche sul mio blog:

<http://pleaseanotherbook.tumblr.com/p...>

“Searching for beautiful” è uno young adult uscito dalla fantasia di Nyrae Dawn che ho sempre apprezzato molto per il suo modo di scrivere e... ok ho iniziato a leggere new adult con lei & Abbi Glines e le sono molto affezionata. Avevo accettato di leggere e recensire questo libro, perché molto attirata dalla trama e dalla cover \*shame on me... i'm a cover slut\* e sono molto, molto, molto delusa da questa storia. Ho faticato a finirla e ho odiato Brynn dal primo momento.

Prima, Brynn aveva un gruppo di migliori amici, un ragazzo amorevole e un talento crescente per modellare la creta. Aveva una vita. E dopo... non ne ha nessuna. Quando Brynn ha perso il suo ragazzo che non l'ha mai amata, gli amici che credono che lei abbia tradito la loro fiducia, e una nuova vita che ha appena iniziato a crescere dentro di lei, la ragazza penda che il suo futuro è vuoto come il suo corpo. Ma poi Christian, il ragazzo della porta accanto, inizia a farsi vivo. Suonando la sua chitarra e spingendola a creare la sua arte ancora una volta. Incontra dei nuovi amici al locale community center e in più riesce a farsi guardare negli occhi da suo padre di nuovo, o quasi. Ma può Brynn aprire il suo cuore per trovare veramente nella sua vita la propria bellezza, quando vivere significa per il dopo significa lasciare andare il prima?

Mi dispiace immensamente, perché credo proprio che la Dawn ci sia fare, con caratterizzazioni vincenti e anche in questo caso è riuscita a tratteggiare una ragazzina che si lascia sedurre dalla possibilità di scappare dal marasma emotivo che la investe, gettandosi a capofitto in una situazione più grande di lei. Ma il continuo andare indietro tra passato e presente, il suo continuo piangersi addosso, quella sensazione di sconfitta che si percepisce ad ogni ostacolo mi hanno lasciato con l'amaro in bocca. E sì Brynn deve affrontare le conseguenze delle sue scelte e della vita che lotta contro di lei, ma in un certo senso vive in una bolla, egoisticamente concentrata solo su sé stessa, manca di empatia, di coraggio, di voglia di fare e si piega di fronte a quello che le riserva la sua esistenza. E sono stanca di leggere di personaggi che si piangono addosso, che non riescono a concentrarsi su quello che di buono hanno nella loro vita. È facile affermare che la vita fa schifo, ma di certo è molto più difficile fare qualcosa per migliorare la situazione, per vivere più serenamente in un mondo che si combatte contro di te, ma alla fine è pieno di cose per cui lottare, per cui

trovare la forza di reagire. Brynn passa da una situazione familiare in cui era tutto praticamente perfetto a una in cui tutto va a rotoli, dimenticandosi di cosa la fa stare bene. E Brynn è come un tronco d'albero in un fiume, che scorre con la corrente trasporta verso l'oblio, senza fermarsi sufficientemente a remare. Una ragazza come tante forse, che improvvisamente si ritrova da sola, a causa della sua mancanza di spina dorsale. E non fa altro che lamentarsi, e accusare chi la circonda, in un fiume di autocommiserazione. L'unico vero elemento positivo di tutta la storia è proprio Christian, un ragazzo che si ritrova a fare i conti con la sua rabbia e la sua sofferenza e invece di chiudersi a riccio prova davvero a cambiare le cose. Sicuro, intraprendente, generoso è una vera ventata fresca, capace di smuovere Brynn dalla sua apatia. Sempre con una manciata di caramelle a portata di mano, con la sua chitarra che salta fuori nei momenti più inconcepibili è quell'elemento che dona un minimo di verve alla storia, anche quando vorresti sbattere Brynn contro un muro.

L'ambientazione è quella tipica di una cittadina di periferia, con i suoi modi sconclusionati, i suoi pregiudizi il suo modo di condannare senza riserbo per scelte sbagliate e il suo modo di giustificare le sue stelle più brillanti anche se si comportano da perfetti idioti.

Il particolare da non dimenticare? Un vestito rosso...

Una storia irritante, che si perde nei meandri di molti errori che la porta a recriminare le sue scelte e la sua vita. Una vicenda che non lascia niente, neanche la possibilità del cambiamento. Brynn annaspa e se riesce a ricostruire la sua vita è solo merito di Christian, e diciamocelo, se non riesci a essere l'artefice della tua rinascita, sei spacciata.

Buona lettura guys!

## **AJ says**

Nyrae Dawn always has tackled some really tough issues in bringing us the story of a very broken teenager struggling to find herself again.

Brynn was your average 16 year old girl. With a happy home life, she had a great relationship with her parents, fantastic friends, a boyfriend, a passion for making pottery, and she wanted nothing more than to find a love as epic as the one her parents shared.

But her life is completely shattered when, reeling from the sudden death of her beloved mother, she is swept off her feet by Jason, who is charming, seductive, and fills her life with the love she so desperately wants, only to end up betraying her in the worst way imaginable when she tells him she is pregnant... only hours before she suffers a heartbreaking miscarriage.

Months later and Brynn is still languishing at rock bottom. She has lost her friends, her father doesn't know how to relate to her, and she feels utterly and completely alone, unable to find her way out of her suffering.

When her first crush moves back into town – into the house next door, no less – it proves to be the catalyst for Brynn to start getting herself back together.

*“He was nice when most people aren’t and I was horrible to him because as it turns out, it’s scarier to deal with someone treating me normally than being ignored.”*

Christian is all kinds of awesome. He is dealing with his own issues, but his charisma, intelligence and wit constantly shine through. He has a genuine desire to help Brynn move on from her demons, and I loved his attitude, and the way he went about being there for her.

*“Life’s too short to spend it trying to make everyone else happy.”*

And their history adds that extra element of sweetness to their relationship

*“Did you ever think, Bryntastic, that I might want to be friends?” he whispers close, so close to me I feel his breath on my neck ... “That I remember the girl who used to love laughing? Who used to blush all the time? The first girl I ever danced with?”*

I love the relationship between these two. Obviously, they have some history – it’s minor, but it’s still important – but he is such an amazing friend. I love how they were able to open up to each other, and the way that he helped Brynn start to claim her life back. And, of course, the teasing and banter was fantastic.

*“I can’t believe my music isn’t inspiring you. Guys who play guitar are supposed to be hot, right? I know I find hotness inspiring.”*

While dealing with very serious subject matter, this is a very YA book. Brynn is 16, and is trying to deal with everything that life has thrown at her, with all of the added emotion turmoil that comes with being a teenager.

*“It’s amazing sometimes how much easier things are if someone takes the choice out of your hands. I’m sixteen. I don’t want to worry about the big stuff. I have time for that later.”*

^^^ Love that quote! A lot of YA books features teenagers acting like adults, but here we have a normal teenager dealing with adult situations and trying to her best to find her way through the turmoil. I’ve seen comments from readers who are annoyed with Brynn and the way she handles things. Yes, she’s emotional, yes, she makes silly decisions, and yes, she wallows in her misery, but again, she’s only 16! She’s not yet equipped to deal with all that is she is forced to confront. She has endured so much, pretty much on her own. You can see her yearning for somebody to be there for her, to help her deal with her pain, and after losing so much and being betrayed so viciously, she shut herself down and just didn’t know how to recover. I could completely empathise with how she was feeling.

It takes her a while to start to pull herself together, but you can see it happening bit by bit, and I thought it was a beautiful progression.

*"I need a friend. I think I want that to be you. Can we start over?"*

I thought this was a really well written book. Brynn's journey is hard, but ultimately very sweet, and I love the strength that she shows throughout. I also love the relationships that she develops to help on her way – not only with Christian, but Emory and Brenda (view spoiler) are also fabulous, and I love the part that they play in her recovery. After the intensity of most of the book, I thought the ending felt a little rushed, and I would like to have seen a bit more of the resolution, but the ending is still a happy one, leaving the story on a positive, but very realistic note.

I really enjoyed it - 3.5 stars.

## **Deniz says**

This is one of the most beautiful books I've read. I mean I think my love for Dawn's writing is kinda a well known fact. I would read anything she writes. But while I like her spunky hot male Characters, she managed to surprise me with Searching for Beautiful with her beautiful and thoughtful prose, but more so, by breaking my heart over and over, then leaving me speechless!

Ever since I finished Searching for Beautiful, I am pondering on how to write this review. It is definitely the most beautiful book I've read in 2014. And the most beautiful up to date from Dawn. So I feel totally unequipped to convey the beauty of it. So after weeks of thinking, weeks of wondering, I decided to just plunge in and stumble probably very clumsily through this review.

Please forgive me Nyrae, I doubt I will be able to make your writing justice. But that's why you write the book and I read them.

The prose is as I said, in my opinion the most beautiful of any of Dawn's books, so far. I love her writing, so I was sure this was not going to be an issue. But boy was I surprised. It's way more poetic, way deeper than many of her previous books - and yeah I know I said it already a million times, more beautiful.

This is a Young Adult book by the way and before Searching for Beautiful I would have told you, I prefer Dawn's New Adult books. Now, well I gotta say, I just love Dawn's books.

Another big difference than most of her other books, this is written solely from Brynn's POV. No male POV- and I adore those, so at the beginning I thought I would miss it. Well I would love to get Christians POV, just cause I do adore Dawn's guy POVs - but it honestly the book would have lost something, it would have distracted from Brynn. While this novel could be type cast as a romance with it's usual dramas and angst this is way more; it's Brynn's journey of learning her own value, her way to healing after messing up big time and her way of getting over loss.

And that's what touched me so deeply. Every woman or girl could be in Brynn's place.

***"Before I actually fell for him, I never would have been the girl to fall for lies. I can't help but wonder if all girls think that. If they all think I'm stupid because they don't believe it can happen to them. It can."***

The characters are broken but strong, so the kind I like. They also real and true, though at times lost- they are finding their way- and finding each other on that way. They remind us of loyalty, friendship but also that it is ok to mess up- we all do - and that there are always people there to help us when we do.

***"Because you're making a hard decision, one that people might not understand, but you're doing it because you know it's best for her. I think my mother would have said that's what being a mom is about. That kind of love. Doing what's right for someone else, even though it will hurt you."***

The story line is well paced. It starts at a devastating new point in Brynn's life. A huge life changing occurrence and then it goes on with the story and flash backs. Dawn's skills in her craft are beautifully shown off with this. I think it drove several point home even more. I love the plot until nearly at the end, and while I do like the end. Yes, it was gushy and sweet- I was a tad bit disappointed by the last part of the book, and that's exactly why this isn't a 5Star book for me. While 85% of this, is heartbreaking and thought provoking the last bit felt to rushed, to easily rapped up. And in fact Brynn felt a bit to preachy. It felt too much like a teenage advise book or what would come out of a youth counselors mouth - rather than teenage Brynn. Though I do think the message Dawn was trying to give with it, it really important! And this is one of the best books I read this year. Just somehow this left me wanting, Brynn's rapid change kinda left me inflated rather than elate me.

I think every library should stock this book! Every parent should buy it for their teenage daughters. It's a must read for all girls out there! Dawn did break my heart simply because this could be each and every girl out there, in some parts I saw myself, in others girls I know.

The most beautiful book of 2014! Heartfelt, heartbreaking and true!

4.5 Stars!

I love Nyrae's writing, she is just such a great author with heartfelt stories that are so filled with hope and promise. I couldn't resist her books even if I tried, which I would never do because the girl is on my auto buy list but still, you get the idea.

Her writing, her characters, her messages, all beautiful. All wonderful and all ones you don't want to miss out on.

There are very few authors that are my go to authors when I know I will get exactly what I want when I want it and she is one of them. Let me tell you, the woman can write. Her books are so full of goodness, yes sadness too but most of all goodness.

Her characters are broken but strong. They find themselves, usually with the help of others along the way, but who doesn't need help now and then? We all need those around us that pull us through some tough times and lift us up and her characters are wonderful for that. They are real and true and feel like people we already know and love. They remind us of the goodness that still exists in the world and when those characters finally find their inner strength, it is just beautiful.

This story is no exception, it is all of those things above and so much more. Always so much more. You really can't describe it but you can feel it and breathe it and let it into your hearts where Nyrae's characters and messages will forever live.

Her books are ones that you just have to experience for yourself and I love her because of it. She is always so true to her characters as she breathes life into them, she loves them and cares for them and even though she isn't always nice to them, putting them through the things she does, she always give them a happily ever after in the end and I love that about her stories. How good always prevails and hope is always present.

## Lady Vigilante (Feifei) says

**DNF at 45%**

To say that this book is not for me is an understatement. I think it's one thing to feel and another to feel to a point where it becomes the breaking factor for you to not want to read anymore. In this case, the latter rings true for me as the book drove me over the edge and I still get angry thinking about it. A friend who had read this book already messaged me asking what went wrong since she enjoyed it so much and this was my reply (which will now serve as my review).

*"Honestly? The lack of any kind of self-reflection and character development on Brynn's part was the biggest turnoff. A female lead who, in fact, does not lead; instead is portrayed as one of the most vapid, weak heroines I've ever read. What makes the YA/NA genres appealing to me are that these books are defined by a time of self-development: the characters explore their own chasm between adolescence and adulthood.*

**Which begs the question: where is that discovery here?** How can there even be any kind of development when Brynn repeats the same mistakes over and over again? Caving into the demands of others, wrongfully

misjudging others, and when it all crashes down on her, she hides away only to start the cycle all over again.”

When Brynn sees her tormentor beckoning to her?

**She goes to him.** (and berates herself for doing so afterwards)

When Brynn sees her friends reaching out to her?

**She scurries away.** (and bemoans her actions afterwards)

When the hero makes an effort to be Brynn’s friend?

**She wrongfully throws accusations at him** (and hates herself afterwards)

I did feel for her and what she went through, but the book shouldn’t just be all about Brynn wallowing in a pool of self-pity and “what if” questions. She constantly thinks about changing, taking action and not letting her past get to her. Then DO IT. TAKE action. Learn from your mistakes and move forward. But no. At least not in the 45% I read.

In one word she is **WEAK** and not enough motivation for me to continue with the book.

P.S. And the constant references to finding a love as great as her parents' love made me want to puke. I can't count the number of sentences that had this line: "**Just like Mom and Dad...**" Absolutely no originality and the cause of all her downfalls.

I love Nyrae's writing she's just one of those authors whose books I always read no matter what the content in the book is. I can tell you right now Jason, I didn't like him he was a complete scum bag, "I was right, Red. Wouldn't it have been easier just to listen to me? We still could have been together, you know. And now you're alone, aren't you? That's what you get for betraying me." Christian he has a good heart about him and I loved him for it, "I try to stand but Christian grabs my wrist and mumbles 'sh\*\*' under his breath. "Let's just ignore that part of the conversation. It's been a bad day." Sometimes it takes someone whose always there to get through to you, someone you least expected, and for Brynn that's Christian, he brings out the sauciness in her, "you were right the other day, Christian. I wasn't fighting. I've completely given up on everything since I lost mom and I'm not doing that anymore. I'm taking my life back." This book was emotionally empowering and I enjoyed every minute of the book.

## Ame este libro.

Fue solamente *increíble*, tengo que decir que al leer la sinopsis pensaba en el típico instalove, puro drama, además de situaciones estúpidas pero me ha sorprendido demasiado.

Lo que más me gusto de todo fue el inicio: rápido, motivador, y más que nada sorprendente. Estaba leyendo todo este libro mientras escuchaba a Yiruma, lo que hizo solamente que sufriera más con todo lo que pasaba.

La forma de narrar me encanto en mil y una maneras, en la forma en la que iba de presente a pasado me gusto demasiado, no se exagera ni extiende demasiado. Además tiene el perfecto toque para continuar leyendo e intriga para estar bastante emocionado, **no hay nada de drama** fueron unas de las cosas que más me sorprendieron del libro, las situaciones son **realistas** con resultados **realistas**, las actitudes de los personajes es más que *increíble* porque se asemejan a la realidad de todo.

**«Ellas van de eso a hablar de la fiesta de Ian y que ropa estarán usando y, oh, Brynn, creo que deberías usar esto, y yo asiento cuando debo y respondo cuando se supone que debo hacerlo, pero de alguna manera las palabras me dejan sintiéndome más y más vacía por dentro.»**

Otra cosa que me encanto de este libro es cómo te puedes meter en la piel de la protagonista -Brynn-, cómo puedes identificarte con ella en algunos aspectos, y cómo pueden llegar a hacer las cosas si solamente te callas.

***“—Sé que es difícil, pero no saltes de nuevo. Si decides estar ahí, tienes que hacerlo todo el camino.”***

Excerpt

Christian looks at me. I wait for a smart-aleck reply or a smile but get neither. Just his blue eyes sucking me in like a whirlpool. "That's what I thought you would say. So you just have to keep fighting for it. Keep fighting to get it back."

My eyes won't leave his and his won't leave mine. And he's cute. God, he's so cute, I just want to focus on his cuteness. I want that to be all that matters. When his hand comes up and cups my cheek, I gasp. He brushes his thumb under my eye and licks his lips and I'm frozen and on fire and close to having a heart attack and anxious all at the same time.

Slowly, he leans forward and I know he's giving me time. And my heart is leaping and I want to feel his lips. This is Christian. The boy who asked me to dance. The boy I ran to my mom about and told her that I loved. And now he's my friend. The first person who has made me feel normal since everything happened.

But I'm so scared. Scared of messing it up. Scared he'll decide he doesn't want me. Scared of losing him. Of getting hurt.

He gets closer and I smell his sweet, sugary scent. See his mouth and wet lips and that hair I want to touch.

See the one person besides Emery who I have. The one person I can't lose. "Wait," I say and Christian stops moving. He's still close. So very, very close that his lips are only an inch away from mine. "I'm scared," I admit.

"I won't hurt you."

And I swear a part of me believes him. Maybe all of me. But how do I know if that's the right decision or not?

He runs his hand down my face and touches my hair. Love that he's not nervous to do it the way I am with him and I watch his fingers, brown against my red hair.

"Go out with me, Bryntastic. Let's go do something this weekend. Don't keep running. I won't even try to kiss you again unless you tell me to. Or I'll wait for you to do it. Just let go. Live."

His words are what I want. I want them so badly and they sound so perfect that it's hard not to just scream, "Yes!" right now. "Why?" I ask him. "Why are you so nice to me?"

I love his strength. Love that he doesn't even hesitate before saying, "Because you were my first crush. Because I used to watch you conquer anything and used to listen to you laugh with your friends. You were happy and I loved your smile. Because I had to work up the courage to ask you to dance and I did, and then I left and the one thing I missed was that smile. I watched my sister lose hers and watched my family fall apart and when I came back here? I wanted to see your smile again. Because you're beautiful when you smile and you've lost it now. I want you to conquer this because what the hell is the purpose in it all if the first girl I ever danced with loses her smile?"

I don't realize I'm crying until Christian wipes my tears. "You think I'm beautiful?"

## **Lauren at Live Read and Breathe Reviews says**

*eARC for Honest Review from Entangled Publishing & NetGalley*

Sometimes I forget what it's like being a teenager. Where we are so emotional with no logic. For Brynn she just lost her mom and wants no needs to feel loved and beautiful. She wants what her parents have so the minute someone calls her beautiful she melts and falls 'in love'. This need is so strong she doesn't see how things actually are and hides this new part of her life.

Then the unthinkable happens and she gets pregnant to only have the truth slap her in the face. With this truth comes the ugliness of what she thought was the love of her life as well as with her friends and dad.

Brynn doesn't know how to handle all of this as most YA 's don't so she pushes people away and runs and hides until her junior high crush resurfaces back in her life as her new neighbor.

Christian has dealt with his own issues and just moves forward and expects the same from everyone (typical boy). He has always liked Brynn and sees the potential in her but his approach is not what she needs.

As Christian and Brynn figure out their own lives they become friends and a little more but this journey wasn't about Brynn truly finding the love of her life but finding the beauty and love in herself.

You truly can't love anyone else until you can love yourself. Once Brynn is able to see her own beautiful she is able to move forward and live each day in the present and see what happens.

Nyrae Dawn is truly one of my favorites and this book is different than her other books but it had a beautiful message and was well done. I think all YA should read this story for the importance of loving themselves and finding true beauty. With this everyone is more capable of living life know matter what is thrown your way.
