Sweet Redemption

Jordan Silver

Sweet Redemption Jordan Silver

When race car driver Drake Kincaid finds his wife in an extremely compromising position he loses his damn mind. Thankfully he was too mad to aim straight and the shots went wide but now he's pissed. He's sworn off women for good, doesn't even want to see one on paper, but then the sweet Cherry Ann a girl from the wrong side of the tracks starts worming her way under his skin and it's not long before the young beauty finds herself under Drake.

Adamantly set against marriage what's the stubborn Drake to do when his young lover ends up pregnant with his child?

This is a short story of app 15,000 words

Raine says

Rich man/poor girl

An oldie but goodie Jordan Silver book. Older jaded rich man who recently divorced a cheating wife decides to have a fling with a young, poor beautiful waitress and finds out she is a virgin. He thinks he can keep his heart and his distance, but he ends up falling for her.

Dina says

1 1/2 stars..

I thought the second one was bad, unfortunately this was a bit worse.. :(

Cheesecake says

Cherry and Drake. The usual erotic OTT modern fairytale by this author. Super Alpha Hero who is disillusioned in love from an ex-wife who is beyond gross. The heroine who is sweet, poor, beautiful, much younger and unassuming. Nothing really happens except Drake slowly comes to realize that Cherry means more to him than proof that he is still a desirable man. It's super sweet in a raunchy kind of way. Just the way Jordan Silver fans like it!

Jenny says

Sexy rich race driver caught his wife cheating, divorced her and then he meets young and sweet poor heroine. He is obsessed with her and so possessive. Drake is sex on legs, the ultimate alpha male, Cherry is a sweetheart and the sex scenes were HOT! Super cute epilogue. Gotta love Jordan Silver!

Tokies says

feels like it's not complete.. i kinda wish she dump a bit more plot into this one like who the heck is this chicks father.. where is her mother is she like dead... cos i think she was abandon like 2 or 3 years ago. i kinda liked the characters so... i feel like this isnt done..also that dog thing was fucked up

Merry Jelks-Emmanuel says

Drake has given up hope of having a happily ever after when he finds his wife with of all people he cousin! He throws himself into his work not expecting to find another love in his life but all of that changes when he meets Cherry. She is soft spoken and never expects much and takes what ever is thrown her way. When she and Drake get involved he has to educate her in all things. Could this be the start of a new beginning for Drake and Cherry?

Sweet reading .

♥ WishfulMiss ♥ says

Its a new year and I thought I'd start by reading something off my ever growing TBR list. This one has been on my list for a while, it was one of the first books I added and it just got buried under book after book after book that piqued my interest. Even after so long the blurb still sounded interesting and I'm a sucker for older man/young woman. I one clicked this one last night and read it in one sitting.

I wanted to love it but holy cow! Aside from the horrible (and eternal) run on sentences, one sided POVs have never been my favorite. When it's the POV of the "H" but told in the past tense? Nope! No. Not for me.

What I didn't like The H was so condescending, arrogant and I know the author was probably going for the alpha possessive type when she created Drake but his one track mind of ~~ridiculous, unbelievable, OTT~~ marathon sex was just a turn off and not titillating at all.

Then there's the fact that the h, Cherry, hardly says more than a *handful of words* until the last 80% and then only because she's crying and apologizing for getting pregnant. She was too passive, too needy and too doormat-ish for me.

These are just a few of my highlights:

“ I hadn't bought this girl so much as a coffee but my dick was about to fall the fuck off from disuse and she was the only thing he'd shown any interest in for a long time so what the hell.”

“ It hadn't even entered my mind to take her home with me so instead I'd driven to her place and parked out of the way so nosy fucks wouldn't be all in my business. I didn't want this shit getting back to my mother after all. ”

“ If you even glance at another dick while you’re with me they’ll never find your body, can you deal with that? ”

It was literally a wham-bam-thank-you-ma’am smutty read that wasn’t even very smutty. This is my first read by Jordan Silver and honestly don’t see myself coming back for seconds of this or any other book, if this is an example of her writing. Glad I get to take one off my TBR but wish it had been something worth my time. Harsh but true . . . off to the next one.

SAFETY INFO: (view spoiler)

Not a book I would recommend.

***?Carol?* says**

one scene was really disgusting and I have no idea why she would write that it basically made me not finish this since I could not take that out of my head gross!!

Emily says

Drake Kincaid was married to a woman he thought he loved until she betrayed him. After the divorce he promised himself never to put his heart on the line again and he doesn’t even like Cherry Ann. She is the girl from the wrong side of the tracks, but all those whispered words about her are false. Drake wants to fight the feelings she is drumming up but her sweet disposition and innocence are enough to have Drake falling again.

Very fun quickie. Drake is a bit gruff but you get why. Cherry Ann is sweet and a perfect match for Drake. Entertaining.

Jamie says

Another super hot one.....Jordan can do no wrong!!!

Channelling Colee says

Really good

The concept of this book though short was really good. It actually made me want more of the story. I hope to continue to read more from this Author. I'm trying to go through all of this authors books to see if they are my go to Author when I'm in a book funk.

Jennifer Finn says

To follow

B.E.Love says

This was an ok read but the writing didn't flow well, and a lot was left out and unfinished. This book is written in Drake's point of view and I completely believed his point of view so much so that I thought a male wrote the book for a little while. Drake was married and his wife cheated on him, now Drake is jaded and doesn't want a relationship but the more time he spends with Cherry (yes that's the heroine's name) the more he finds himself wanting more than sex. So he moves Cherry into his home. But Drake will soon realize that moving Cherry into his home won't make everything perfect and they will have to move forward together while ignoring and moving past the town gossip. This was an ok read, I just felt like it was missing a lot and though it was a short book I still felt like a lot of important events and information was left out.

*I didn't read the first two books in this series and wasn't confused at all.

3 CHERRY STARS

**FULL REVIEW IN A FEW! Going to think this one out a little.
I really have no idea what to say about this one right now except....**

Yup it was one of those books that you just don't know exactly how to describe it all in a comprehensive manner.

I'm working on it!
