Mavis Ros says

What happened to the old art style but oh well, the story was fantastic anyway.

Samantha says

Fun story as expected from a Stilton book, BUT the artwork and color were subpar to what they usually are so I have to dock a star for this one. Its a children's book but that doesn't mean the art should suffer, especially since previous graphic novels in this same series were much nicer. Consistency please!

Favour Egbune says

What happened to all the colors and drawing? Did ya'll get lazy or something?

Kaytee says

this book was also about friendship and i was very impressed about this book but a little sad when the little bear was hurt and was left alone by itself this book was a very special book.

Nic says

Apparently the series changed artists after volume 4. I liked the old one better. Oh well. It's still nice how positive and earnest the stories are.
