The Soccer Mom's Bad Boy

Jordan Silver

The Soccer Mom's Bad Boy Jordan Silver

When Ilene Stanford's husband left her after years of marriage for a much younger model, she just knew her romantic life was at an end. Having only known one man since high school, she was sure that at thirty-two her days as a love interest was all but over, and besides, she had a twelve year old daughter to raise. With her mind set on being an old maid, she was in no way prepared for bad boy ex-soldier Dane who came into her life literally through her bedroom window at night, and did things to her body that she didn't even knew existed. Sure the lovemaking was off the charts good, but could she trust the craziness that he whispered in her ear in the darkness of night?

Barbara? says

***3.25 Stars

Another OTT, possessive male. I liked this for the most part. There were a few times that I felt Dane was a little bit too OTT if there is such a thing lol. Sometimes I almost felt his behavior was abusive...just a very fine line such as punishing her because her ex came to her house. She didn't call him there and told him to leave but he didn't. Dane, of course, punishes her for that saying she knew she wasn't supposed to be around him. But, on the other hand, she never tried to explain to him that she had asked him to leave. It was just kind of underdeveloped. Other than that, it filled my need for the OTT, alpha male!

Stories in Review says

If you don't like to read rough sex and punishment scenes, this one isn't for you. Little om drama from her ex husband. He cheated on the h with his new woman. No cheating between the H/h.

Christine says

I was excited to read this one, but it did not work for me. The heroine's friend annoyed me. The actions were odd.

I tried, but I just could not get into it. I don't get the "he sniffed me" and then the heroine's inner thoughts. Sometimes less information is better.

This may work for you, but it did not work for me.

CC says

Yowza this book was HOT! I loved every smutty minute of it! It is a Jordan Silver book so you know what to expect but the heroine was not barely legal for a change. So I thought it was great! Plus I did not read one worst....

If you like JS, I think you will like this one a lot. There is a plot. There is some character development. There is A LOT of sex. What else do you need? The worst part for me was the title.

Chantal ❤️? says

THIS WAS AWESOME AND SO ANY SOCCER MOM FANTASY

Before I start this review I will be honest and say I dismissed this book as NOT FOR ME. However, this book was totally for me. :D

Now before you read this book I will show you a taste of what this book is about. If you find the following line offensive then **DO NOT** read this book.

"...my woman has no need to work outside the house where other motherfuckers could ogle my shit, better she stay home and bear my seed."

These are Danes (the hero) thoughts about the heroine Ilene.

To say the hero was a total Alpha would be putting it mildly. Dane was gone over the heroine after one fluke glance of her at a random super market one day.

He was in full **STALKER MODE**.

He then goes about finding a way to make her life perfect with his plans (view spoiler)

Here is where I totally fell in love with the hero with this Quote:

"It took me 34 years to feel what I feel for you...I love you now and I will love you a 100 years from now."

Now I will add the content alert for those who need to make sure this book is Okay.

This book contains spankings and mild elements of asphyxiation.

SAFETY Faithful, no pushing or pulling, very little drama except for the stuff imagined by the hero. Safe sex, no as they wanted to have kids.

Generally I enjoyed this book. I may read it again. This book has a totally hot fantasy element that I think may speak to a single hard working mom.

Also, what really made me love this book was the epilogues. I love when Jordan Silver does a book with an HEA with a BABY.

Sadly, I could not give it 5 stars. As the heroines behavior pissed me off, with her always going to see her ex when he asked. He said "jump" and she almost said "how high."

NOPE NOT GOING TO HAPPEN.

Yeah I understand they have a kid but he left her high and dry for a younger model without any thoughts for her or their daughter. **He does not deserve this consideration.**

Again these are just my thoughts.

Hope you enjoyed them.

A la prochaine!

80's says

I enjoyed it but one small detail drove me crazy. The story pointed out the heroine was 32 and was married for 18 years. Hmm...so that means she got married when she was 14? Typos happened but this was pointed out twice so it stuck with me. But I did love the story overall. Hope all of the hero's business associates get stories, could be the start of a great series.

Emily says

He exudes mysterious alpha male and he has set his eyes on single mom Ilene Stanford. Ilene had been dumped by her husband for a newer model and she had her daughter had rebuilt a new life for themselves. Enter Dane, he has secrets and has made it known from the beginning they are building a future together with her daughter. As a new chapter in Ilene's life begins, her ex has decided he doesn't want the other to close.

This reminded me a bit of Mystery Man, I loved Dane. He is rough, intense, and you know from the first moment he is head over heels for Ilene. I liked Ilene, she is tough but so vulnerable, her sole focus is her daughter. This was a bit different than Jordan Silver's normal books, loved it.

Bookloverme says

Another great book of Jordan Silver. OTT alphas and always end with HEA. And i love her epilogues! I also don't have to worry about the safety of her books because they're always safe to read for me and light. Though, for others, they totally don't like OW/OM drama or manwhores. But even though there are manwhores in her books and OW/OM dramas, they are all light and no heavy drama. And of course, the heroes are very possessive and protective of their women.

The story was about Ilene who was divorced for 6 months with a 12 year old daughter. Dane was in town for business but stayed longer because he saw her. He's so protective of her and her daughter Alana. And he's really good for her.

One thing though, Ilene pissed me off one time because she's a stubborn one. Dane told her not to come near her ex but there was a time she met with him. But after that, Dane handled it and everything became okay.

It has a nice epilogue too. I love Jordan Silver's epilogue.

The only thing that bothered me was the year of marriage. She mentioned that she was married to her ex for 18 years but she's only 32. Then near the end, she mentioned 15 years. But other than that, the story was a good one. Dane's 34.

Safety:(view spoiler)

Jamie says

Meh.

I think I'm being generous with my 3 stars.

I really liked a couple of books by JS, but other than that they seem to be misses.

There's not enough substance to support the necessary suspension of reality.

Kitten Mercer says

I used to love Jordan Silver's insta-love in her books but this one was just too over the top. Everything escalated too quickly and I was rolling my eyes most of the time. But it was still an okay read and she'll still be my favorite author when it comes to SMUT, a lot of sex and OTT alpha heroes. I'm glad that J. Silver's writing is improving lately. If you want something to read that will get you off, well, I guess you're in the right place, lol. 2.5 stars generously rounded up to 3.

Alpha Possessive Heroes says

Quick steamy read! If you're a fan of Jordan Silver.. then ya'll know the drill! We have a demanding alpha male and a somewhat insecure but likeable heroine. You don't have to be a rocket scientist to read this one, it has tons of hot **sex, sex.. and sex..**

Its a no brainer, I basically just read this to get off! lmao.

Anyway its a 4 STARS for me.

For once I would give my leg to be the heroine! Some hot Dane sniffing me (*literally!*) and creeping in the middle of the night!

Gi's Spot Reviews says

3.5 Stars

Review to come...

~Steph K~ says

Needed a quick hot read in between my longer books, and that's exactly what I got! Let me just clear something up though, Dane is no "boy"... He's all man, all 12"!!!

BWT (Belen) says

DNF @ 52% because apparently I have no self-control...and I'm out, but not before skipping to the end.

Called on account of stalking and nightmare behavior. So sit back and let me tell you of this heinous fuckery children.

The total interaction between the two main characters before fucking the first time is:

1. He sniffs her.

I don't know his name, his number or where he lives. I just know that three days ago he came up behind me, sniffed my neck unabashedly and declared 'fuck I knew you were gonna smell good', before walking off.

And then 2. three days later he speaks a single word.

He smiled at her but came to my side and whispered just one simple word into my ear that sent me into a free-fall.

"Tonight." That was all he said before he kept going on his merry way.

Then we find out he's been stalking her for two and a half weeks. Using his super secret government contacts he invades her privacy learning "everything there is to know about her".

After the "tonight" whisper - he breaks into her house, because God forbid they have a fucking conversation where he introduces himself or anything, and only makes his presence known AFTER her best friend gives up and goes home (because the bf was going to take his picture and get deets before leaving her alone with him) and then, still WITHOUT ANY CONVERSATION, begins to fuck her with his 12 inch cock while she's on hands and knees pressed into the bed ALL before ever even TELLING HER HIS NAME.

After fucking into her WITHOUT A CONDOM, and having only told her his name at this point, he tells her:

"This is your new reality, I am your new reality. From now on, this" I placed my hand over her heart before moving it down between us and covering the top of her pussy, "and this, belongs to me."

ETA...Because even though I tapped out at 21% I still went back and continued to read. Some of the gems from this story (beware there may be some that are considered spoilers!):(view spoiler)

I skipped to the end after that...(view spoiler)

On the plus side, I no longer "think" but know absolutely that this has cleansed my palate and made me more than ready to flee back to M/M romance.

Raine says

One of my favorite Jordan Silver books. I like that this one the heroine, Ilene, wasn't a young virgin, but a divorced woman with a daughter. I loved how Dane responded to both the mother and daughter.

NOTE: Read it for the 3rd time and still really liked it!!!
