Under an Ionized Sky: From Chemtrails to Space Fence Lockdown Elana Freeland

It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons “climate change” converted the air we breathe into an antenna. Now, the geo-engineering we’ve been subjected to for two decades is being normalized as the “Star Wars” Space Fence rises around and within us.

Is this the Space Age we were promised?

Thousands of years ago humans have noticed that the sky was hard and the clouds can carry beings like boats on water. And then the Bible was born. Now, about the same kind of mind brings about the same kind of arguments. But is it the same process? I don't know.

Will Blow Your Mind!

Wow! What a book! You will come away from reading this with an entirely different perspective of so much that you thought you knew or never even thought about. Those jet stream contrails you see in the sky? Not so innocuous, after all. Those two suns you have been noticing? There's a reason for that anomaly. Cell phones, your television, smart meters- what are they causing? What is our government up to? Are we being programmed without our knowledge? Are we being spied on, and why? Are we being brainwashed? You'll never guess how. What is that Higgs Boson and the "God Particle" and the dangers Stephen Hawking warned us about? Even if you have heard some of this before, you probably have no idea how far the "Deep State" has gone and the tentacles that are spreading further and deeper into our lives to control everything we do and even what we think and say. This is scary stuff!
