**Wild Wolf Claiming Rhyannon Byrd**

**His wolf had never reacted this strongly to a woman... And. She. Was. His.**

Werewolf Elliot Connors had come to the sleepy town of Charity to stop a madman from claiming his next victims for his macabre collection of sex slaves. After saving Skye Hewitt from being kidnapped, Elliot desires the diner waitress more than his next breath. All his senses scream that Skye is his life-mate. But his past has taught him well that nothing worth having ever comes easy. Now things are about to get bloody, dangerous...and wild.

A Wolf Shifter Romance.

## From Reader Review Wild Wolf Claiming for online ebook

### Emalie says

~ Book provided by the author, Rhyannon Bryd (Thank you!). It does in no way influence my opinion nor my review. ~

Can you believe it's already the eighth installment of the Bloodrunner series? Well, me neither. Time seems to fly by so fast. It's crazy. Anyway, moving on to my review.

Wild Wolf Claiming tells the story of Elliot, who we got to know right in the beginning of the series, when he stood on the wrong side. Thankfully he made the right choice and changed sides. Since then he has been with the Bloodrunners. That happened nine years ago story-wise. Yes, little Elliot grew up. Can you believe it? He's an adult now, doesn't mean that he doesn't have a lot of baggage. And I mean A LOT of baggage. He can't let go of the past and has this thing with control, but I can't really judge him regarding what he went through in the past. Still, he was one awesome character :) and he loosened up the farther I read.

Then there is his mate, Skye. She was a cute little thing, who took the fact that Elliot is a werewolf really well, meaning she didn't freak out. She just accepted it as a fact. She didn't actually was a badass character. She was a little dependent on Elliot, but I still liked her. And in my opinion not every character has to be a badass, that would get boring really fast. As long as I can connect with the characters I'm fine and I could – with both, Elliot and Skye.

>> He'd only seemed to be worried about her, and that little fact was dangerously close to melting her into such a huge, embarrassing puddle of I'm crushing on him so bad and seriously want to have his babies it wasn't even funny. ~ 11% <<

I liked that all the previously couples appeared for a short while again. It was really fun to see how their relationships grew (especially Cian's and Sayre's). Also I'm glad we got to see some of the Mercs, like Lev, again and I hope he will get his book soon. Even though I'm sure we will get Max' book first, because of the whole story that played in the background in this book and we don't really know anything about. It's intriguing.

The one dilemma I have now is that I gave Blood Wolf Dawning, the book before Wild Wolf Claiming, 4 stars. And I liked BWD slightly more than WWC, but I don't want to give WWC 3,5 stars, because it was still on the same level as BWD. So I guess it get's the same rating. \*feels no guilt about it\*

I'm just forever ruined by Cian (and his book). I love me some Irishman ;)

Now, please be so nice and give me the next book, Rhyannon. Would you? Please? I'm begging you. \*offers virtual cookies\* No? Damn. ;)

Also just a little info: All books of the Bloodrunner-series can be read as stand-alones if you don't care for minor spoilers. So try them. :)

Rating: 4 stars

### **Jesse says**

Gosh, I love a Rhyannon Bryd book! This book was heavy on the romance and sex but a little light on the action. It was still a great read and I'm looking forward to the next one!

---

### **Angel Padillo says**

I really liked this story! Elliot not running from his life mate was a nice change of pace for the Bloodrunners series, and I loved how Skye wasn't model perfect like most female leads are. I'm really looking forward to Max's story!

---

### **Cindy says**

Amazing book... I so love this series... Can't wait to see the story between Viv and Max...

---

### **Shari Kay says**

2.5 ★

I loved the first few books in this series, but since the first initial arc was completed, the stories have become very hit and miss for me.

This one, unfortunately, was one of the misses.

Beyond Elliot, who I freaking adored...*ADORED*...not much else was working for me. The plot was super thin, the entire book being all about the sex and some true angst(Elliot) and some forced angst(Skye). The ridiculous things that came out of Skye's mouth had me rolling my eyes and groaning, wanting her to just "shut the eff up". She had all these insecurities that while understandable (every girl on the planet has body issues) went to "needs therapy" proportions. On the other hand, for all her issues, she was pretty forward... like I said, I couldn't believe the stuff she'd say. The two personalities didn't mesh.

Plot points were pushed to move the story along, and bordered on silly. How Skye handles finding out about Lycan, how she found out about Elliot's past and so on. And as much as I loved Elliot, for being so... inexperienced... he was *the man*. Did he read a lot of books? Research online??? I'm not complaining, I'm just saying it seemed unlikely.

Parts became repetitive and I admit to skimming by the end. I'm still curious about Max and Vivian, so I'm hoping the next book is more of a *hit* than this one was.

### **Eva Millien says**

He was supposed to protect Skye from becoming a madman's next victim but Elliot desires her more than his next breath and now things about to get bloody, dangerous and wild in this exciting paranormal romance. The Bloodrunners are always an exciting and sexy bunch of werewolves to visit and I was completely caught up in Elliot and Skye's story from the very beginning, especially since Elliot caught my attention a ways back in the series. I have a few theories as to what the madman may be up to and I can't wait to find out which one, if any it may be, but one thing is for certain, the Bloodrunners will do what it takes to put an end to his evil.

I really enjoyed this book and I am looking forward to reading the next book in the series.

---

### **Patty88 says**

I was lucky to receive an ARC . I was looking forward to read Elliot story !!! OMG it's such a beautiful captivating emotional story !!!! I cry scream and smile during every page , it was such a roller coaster of love passion and friendship. I love how Elliot and Skye's relationship and love grows during every minute , they are such a beautiful couple so caring loving and sincere , each with a past that shadows their heart .... They overcome all the obstacles ! It was great to see some of my old favorites like Mason , Torrance and Cian . I was so sad when I reach the last page there's so much more to tell !!!! Thank You Rhyannon this new book it's always such a pleasure to read your books !!!!! Can't wait for the next chapter of the Bloodrunners !!! Please don't let us wait too much !

### **Sonya Heaney says**

Also posted **HERE** .

- This is the second book I've read by this author (out of two books!) that opens in an eating and drinking establishment with blatant misogyny and pitting women against each other.
- And in this case of this one, blatant skinny shaming:

*The question came from the skinny waitress who'd just stopped beside his table, blocking his view of Skye. The woman's perfume was so heavy it almost made his eyes water, the hungry way she was looking at him was so blatant he was surprised she didn't lick her lips. 'Because I'm willing to offer you something a heck of lot better than anything you'll find on that menu.'*

- Slim waitresses DO NOT BEHAVE LIKE THIS, just because they're smaller than another woman! Also, **HERE** is the author's inspiration for the lead character. Sorry, author, but she looks like one of those "skinny bitches" you hate so much!

*She instantly scowled. "Your loss," she muttered, before cattily adding, "Especially if you're saving it for Skye. That girl wouldn't know how to please a man even if she had a sex manual for fat chicks."*

- Nor do they behave like that. Maybe I live on Jupiter, but I've never met ANYONE who still uses a sexist term like "catty"!

*unlike the scrawny bitch who had been so rude about her*

- Gotta love a hero who thinks about women like that.
- The first 51% of this book takes place in less than twenty-four hours.
- When the heroine finds out the hero is a werewolf, her reaction is – I kid you not: *'Oh, I read lots of shapeshifter romance books, so I have no problem with that.'*

*"I actually have this thing about shifter romances."*

- Then they have sex for the next twelve hours, no questions asked.
- The majority of pages in this book are devoted to sex scenes. I don't think I've ever read a plotless book that was only about sex before. The hero might as well NOT be a supernatural being for all the page time dedicated to it.
- Despite the blurb promising some sort of abduction-of-women story, it happens off the page and isn't really dealt with.
- Whenever the book isn't sex, it's the heroine whining about her "curvy" body, and the hero telling her over and over how perfect she is.

- Despite the “female empowerment” misogyny the author indulges in, MANY pages are devoted to the heroine admiring how LEAN and SLIM and MUSCLED the hero is. While he’s telling her over and over how she should eat more and more cheeseburgers (they only seem to eat cheeseburgers in this book), she’s commenting on his healthy eating habits. Uh – is he a slutty bitch too, or is that only reserved for women who are slim?
- Despite being up against a legion of supernatural baddies, when the heroine is told to stay put, (more than once) she decides: *I'm not doing that! I want to help, even though I'm physically useless and will just put everyone in danger.*

Unfortunately, this is the second book this week I’m going to have to tell NetGalley I hated.

### **Stephanie G says**

Elliot Conner’s past has taught him that nothing worth having ever comes easy and now he’s found his life mate just when things are about to get bloody, dangerous and wild in this thrilling paranormal romance.

Skye’s life suddenly becomes very dangerous as she forced to go on the run with the sexy Elliot and the readers can’t help but get drawn into the story as they try to stay one step ahead of a madman’s army. Excitement keeps the adrenaline pumping as unexpected twist and surprises keep the characters on their toes and tension builds as the Bloodrunners try to determine just what the madman’s evil plot is and where he is holding the missing women. Vivid images are painted by the well written scenes and details that bring the story to life and make it easy for the reader to become caught up in the intriguing events as they guarantee that there is never a dull moment.

The chemistry sizzles with sweet and steamy passion but the relationship is on very rocky ground as their personal demons continuously interfere which has lots of emotional turmoil flowing from the pages with some heated encounters. Strong, captivating characters capture the heart while the fast paced and smooth flowing plot thrills readers with lots of suspense, excitement and romance.

With random women completely disappearing, the Bloodrunners have their work cut out for them but I am certain that the sexy werewolves are to the task of putting a stop to the madman’s evil whatever his ultimate plan may be. Elliot caught my interest a ways back in the series and I was so excited that he finally got his own story and I wasn’t sure at first whether I was going to like Skye but it didn’t take long for her win me over as well as will make a good couple and I can’t wait to find out what happens in Max’s story as it actually takes place at the same time as this one.

- Eva

### **Tiffany Shaw says**

OMG!!! I completely forgot how much I adore this series. I purchased this book months ago and never really picked it up. But honestly I'm so mad at myself for taking so long to get around to it. Elliott and Skye are amazing characters. The way they just fall into each other and don't question what they feel is so refreshing. Yes they have some obstacles but to be honest their perspective was refreshing. And as with all the Bloodrunner books the action and suspense was on par with some of the best I've read. I can't wait to see

where Rhyannon takes this twist in the series. I hope Max's story is next.. Lol

---

### **Lisa Annesley says**

This book never really caught my attention. You'd think that an armed robbery, a trashed apartment, and hot scenes would be exciting, but they just fell flat for me. I skimmed and skipped a lot, so I really can't give the book a rating.

I'd been looking forward to this book so much that I'm doubly disappointed.

---

### **Shirley says**

I'm still kind of behind in the Bloodrunners series. Well... not exactly behind, more like ahead. Do I have you totally confused? Truth is, I started this series like I start a lot of series. I got hooked on the description of the current book in front of me and ignored the fact that particular book was in the middle of the series. Now I'm 8 books in and STILL haven't read the first 3 books in the series. \*sigh\* I'll catch up... or back track... eventually, honest. Until then, I'm enjoying getting to know everyone, even though I don't know all of their back stories. ;)

Elliot and Skye were an interesting couple. Beyond the danger Skye was in, most of the tension in Wild Wolf Claiming came from fear of rejection and lack of communication between the couple. The other Bloodrunner members were great and welcoming toward Skye, but she was getting mixed signals from Elliot and he didn't know how to explain. Basically, they were adorable... in a frustrating sort of way.

There was plenty of danger and even more mystery, which is great because that means there's more to come. Maybe I can get caught up by the time the next book is released ;)

*I received Wild Wolf Claiming in exchange for a fair and honest review.*

---

### **Polly says**

Great addition to the series. It was extra special reading Elliot's story after knowing how terrible his teen years were. Skye was just perfect.

---

### **Samantha says**

#### **Love the series!**

Love all the books in this series .. and this one was no exception. Love watching all of the Bloodrunners find their life mates! And I like that for each new book, we catch glimpses of the other characters and their new mated lives. Definitely a must read if you've read all the other books.
