It is a simple, concise and straightforward book to read. Spoken words carry positive and negative power. Choosing to speak the right words at all times is imperative as words identify, set boundaries and affect our inner man. This cannot be overemphasized.

Wonderful!

I never realized how much words matter. What we say and what we think are immensely important. This small book is packed with excellent advise!

Clocking in at 32 pages, it's not really a book but a pamphlet. A fantastic one at that. Our words, matter and can make or break us, and our children. Great little read!! Highly recommended.

Death and Life are in the power of my tongue. So this week I will choose my words carefully and speak only Life; Be still when Death is at the tip of my tongue, and listen to what God would have me say for every situation.

Insightful reminder to watch what you say, not just in church or at work but everyday especially at home!

Word's Power

This is so elementary yet elusive to multitude of believers, the Grace to be consistent with our confession, especially when we feel downcast on the inside or thought no one is watching. Remember Jesus said, "I'm with you always."

A very enlighten book and easy to read and for anyone to easily understand. I just loved it and will be reading it again.

Read and read and read it again!

Read it. Soak it in. Read. Listen for How it relates to YOUR life. Grasp this Truth. Live it out. Change you and the world around you.

Words matter

This book is so vital your words frame your life and you need your words to be in line with the Bible you have to believe and speak

Bart says

Hardly qualifies as a book. It's a series Kenneth Hagan did. 30 pages long. This is from a Christian perspective , but I've read many self help books years ago that talk about the power of positive words

Straight truth

Throughly enjoyed this book. Brought a fresh understanding to the confession I make over myself daily which isn't always positive. Knowledge leads to freedom, the truth itself will set you free. Have a read :)
